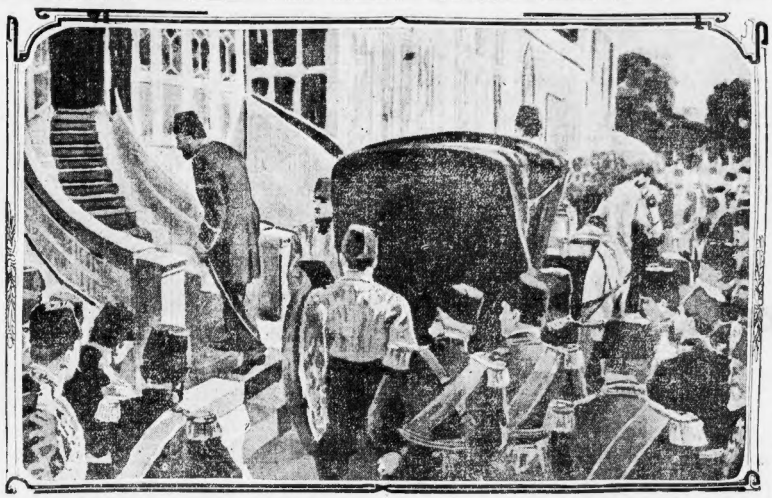
THE TWENTIETH CENTURY NEWSPAPER

THIS EDITION OF THE AMERICAN
Consists of the Following Sections:
1. Latest News. 2. Editorial. 3. Comic. 4. Magazine. 5. Sporting News. 6. Real Estate News. 7. Foreign and General News.

VOL. 6—No. 36. 58 PAGES Registered in U. S. Patent Office. BOSTON, SUNDAY, APRIL 25, 1909. Copyright, 1909, by the New England Newspaper Publishing Company. 58 PAGES PRICE FIVE CENTS.

GREATEST CRIMINAL OF THE CENTURY

Abdul, "the Damned," from a photograph taken when he returned to his palace from the Selamik festival. This festival used to be the only day of the year on which the Sultan appeared in public. No one was allowed to see him in public except the troops that guarded him and the higher officials.

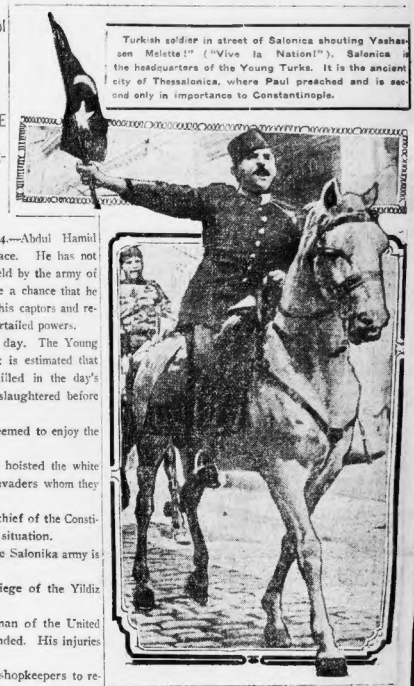


SULTAN A PRISONER; 3,000 KILLED IN GREAT BATTLE AT PALACE

Army of Investment in Control After Bloody Fight in the Streets.

CHANCE THAT SULTAN MAY EFFECT COMPROMISE

Invaders Mowed Down by Regular Troops After Hoisting the White Flag.



Turkish soldier in street of Salonica shouting Yashassen Melette!" ("Vive la Nation!"). Salonica is the headquarters of the Young Turks. It is the ancient city of Thessalonica, where Paul preached and is second only in importance to Constantinople.

CONSTANTINOPLE, April 24.—Abdul Hamid still lives in the Yildiz Palace. He has not surrendered. He is a prisoner held by the army of investment, and there seems to be a chance that he may be able to compromise with his captors and remain as ruler, but with greatly curtailed powers.

It was a never-to-be-forgotten day. The Young Turks swept all before them. It is estimated that 3,000 of the combatants were killed in the day's encounter. One thousand were slaughtered before one of the barracks.

Women filled the streets and seemed to enjoy the spectacle.

The Sultan's troops repeatedly hoisted the white flag, and then mowed down the invaders whom they had tricked.

Mahmoud Schefket, general-in-chief of the Constitutionalist forces, is master of the situation.

Mukstar Bey, in command of the Salonika army is dead.

Artillery is in position for a siege of the Yildiz palace.

L. M. E. Garnuilo, first dragoman of the United States embassy, is among the wounded. His injuries are not severe.

The police patrols are inviting shopkeepers to reopen their stores. Blue-jackets from British warships are guarding the British embassy.

It is said that Chefket Pasha has sent an ultimatum to the Sultan that unless Yildiz is surrendered before sunrise it will be bombarded.

The Young Turks have sent telegrams in all directions saying: "We hope for the successful issue of our patriotic work."

The number of troops engaged in the actual conflict is estimated at 10,000.

The Powers May Interfere

What has really transpired in the palace since the ultimatum of the invaders was presented to the Sultan, is, of course, only guessed at.

The city is full of rumors. One that is persistently circulated is that the Sultan has abdicated. This is not true. Another is that he has escaped in his yacht and is now safe in the Bosphorus.

The best information is that Abdul is not only fighting for his life but his throne as well, and that he is parleying for time in the hope of a compromise.

At least 5,000 of troops of the invaders surround the palace, and Abdul could not escape if he would. He is a helpless prisoner, surrounded by a bodyguard, really begging for his life.

A tour of the city to-night shows the awful devastation caused by the soldiers. The streets are strewn with the dead. The whole city is awake to-night, believing that the palace will soon be stormed and the Sultan will be forced to abdicate.

The members of the various embassies are keeping a close watch on the situation, and are in touch with their various Governments.

If the troubles continue the signatory powers will be compelled to interfere.

London Hears Abdul Is to Remain

LONDON, April 24.—Advices from Constantinople say that the army of investment is absolutely in control of the situation to-night. The Sultan is a prisoner in his palace, though his formal capitulation is wanting and he and the soldiers who are faithful to him are practically in the hands of the invaders.

The commander of the Constitutionalists' army, Mahmoud Schefket, desires to conclude the revolution without more bloodshed. It is stater that as a result of his negotiations with the Sultan's representatives the period of grace in which the Sultan may make his final decision has been extended, but for how long the dispatches so far received do not state.

Another dispatch says that the Yildiz Kiosk may be attacked during the night and that over 5,000 soldiers are encamped within half a mile of the palace.

The foreign embassies are unable to learn what disposition the Constitutionalists propose to make of Abdul Hamid, but it is believed that he will continue Sultan, with powers largely restricted.

The city is tranquil at the hour this dispatch is sent, but the refusal of part of the garrison at Yildiz to surrender is occasioning much alarm.

Determined Force Concentrating

The commander of the investing forces is concentrating his army in this neighborhood. Troops are hourly arriving and batteries are being placed in the neighboring heights.

If the troops in the garrison resist there will be great loss of life, as their position is nearly invulnerable.

The invading army had the advantage to-day in taking numerous positions which the troops at the garrison had not provided with artillery. This permitted the invaders to fire upon the barracks, without reply from artillery.

It is believed that the neighborhood of the Yildiz garrison has been mined.

At sunrise the army of investment advanced on the southwest part of Pera. Spreading out in an extended line, they attacked the Matchka and Tasek Kischla barracks to the south of the palace. Here they met with determined resistance. Forcing their way along this route in three columns and with the greatest precision, they captured the principal positions.

The Chevgria Volunteers met with deadly volleys, but stood their ground, and soon forced the Matchka garrison to capitulate. The Salonicans, notwithstanding the terrific fire from the troops in the garrison at Tasch Kischla, opposite to Matchka, continued their advance with great caution. The Salonicans, with the aid of their machine guns, finally silenced the garrison. Both sides suffered severe losses.

While this attack was going on another division of the Salonican troops attacked by the artillerymen in the Taxim barracks, however, used rifles only. In this assault Mukstar Bey, the commanding general of the Salonicans, fell dead, and nearly a hundred others were killed.

Women Watch the Battle

After a determined encounter in the Stamboul district, near the Porte, the garrison was obliged to hoist a white flag. The fighting at Ipiik Hanah barracks, where the mutinous artillerymen who recently arrived from Tchataija were stationed, was very bitter.

One of the most remarkable features of the day's

DEVLIN WILL VISIT AMERICA TO WAR ON CUMMINGS

"Control of Central Organization Must Be in Ireland, Not America."

Special Cable to the Boston American.

DUBLIN, April 24.—The officers of the Board of Erin, Ancient Order of Hibernians, state to-night that no agreement for an international body has been reached between themselves and the envoys from Boston, Matthew Cummings and the Rev. P. J. O'Donnell.

The Board of Erin insists that the control of the central organization working for Ireland must be located in Ireland, not in America.

The conference proceedings were stormy. Messrs. Devlin and Nugent say that, accompanied by Father Gannon, they will visit America while the Boston envoys are in Ireland, and thus "carry the war into the enemy's camp."

Mathew Cummings said to the BOSTON AMERICAN: "We are here on a mission of peace and unity. From the day we landed in Ireland certain parties have been libelling and vilifying us bitterly. Our endeavors want fight in the hope of destroying our object. We want unity.

"We have found a third organization which Messrs. Nolan and McArtill claim as the lawful Board of Erin. Unity between organizations would have resulted, provided the Board of Erin became a non-political organization. It refused this condition. Negotiations for unity are, therefore, not retarded, and are not at an end.

"We deeply deplore that the organization should be torn for sectional, personal and political purposes. They say this is injurious, not only to religion, but a menace to Irish nationality. If our efforts to unite the different organizations fail, we will then likely recognize an order in Ireland which is obedient to the Catholic church, and is non-political in its nature."

M'CARREN PAYS $450,000.

Settles with Failed Brokerage Firm and Loses $125,000.

NEW YORK, April 24.—Senator McCarren paid up his $450,000 indebtedness to the bankrupt firm of Ennis & Stoppani to-day. The settlement was made through the banking and brokerage house of J. S. Sachs & Company.

In return for his $450,000 McCarren received 2,000 shares of the B. R. T., 2,500 shares of Amalgamated Copper and fifty shares of United States Rubber, the present market value of which is about $125,000 less than the amount paid by McCarren. That sum represents the loss which he will have to pocket.

Catch Alleged Counterfeiters.

NEW YORK, April 24.—Three men, one woman and a boy were arrested in New Rochelle to-day, charged with manufacturing or distributing hundreds of $5 counterfeit bills.

AL. SHRUBB DEFEATS ST. YVES AT 15 MILES

Englishman at His Favorite Distance Winner From Fleet-footed Frenchman by Nearly Three Minutes.

BY C. E. VAN LOAN.

NEW YORK, April 24.—Before 5,000 shivering spectators, Alfred Shrubb, the great middle-distance runner, easily defeated Henri St. Yves in a fifteen-mile race at American League Park to-night. Shrubb's time for the fifteen miles was 1 hour 26 minutes an d12 seconds, and St. Yves was beaten by one and three-quarters laps, or nearly one-third of a mile.

The little French marathon star had all his speed, and his short legs flew as fast as ever, but he was up against Shrubb at Shrubb's own game. And he never had a chance after the first fierce mile, in which St. Yves, out to his extreme limit, was beaten by seventy-five yards.

After that it was only a question of how decisively Shrubb would win. The race was fast for eight miles, but after Shrubb made up his second lap, he fell in behind St. Yves and allowed him to set the pace.

Shrubb wasted no time when the pistol cracked. He sprang out in front of the little Frenchman, and went down the straight like a quarter-miler. St. Yves tried to follow him, but his short legs were not equal to the task, and the British colors went down to restre held well in front. Shrubb sprinted the entire first lap, and at the tape he was twenty-five yards in front and gradually drawing away. At the end of the mile, which was run in 4.54, Shrubb had a fifty-yard lead, and had struck his fifteen-mile gait.

Again Went to Front.

In the fourth mile Shrubb made his first lap and after taking the pace for half a mile, again went out in front. St. Yves made a game attempt to stay with Shrubb, but after a lap he allowed the fast fifteen-miler to slip away from him. Shrubb, who wore a stocking on his right leg and had his shoes stuffed with cotton, was setting a pace which left all Marathon marks behind, and St. Yves, running as fast as he did in the Derby, was gradually falling back. It was a case of a long-legged middle distance man against a short-legged long distance man, and the end was plain at the finish of the first mile.

The first six miles, in 21:56, were nearly two minutes faster than Shrubb's first six miles against Longboat. Shrubb's second lap came hard. The duck-legged little Frenchman had fairly warmed up to his work, and while it was plain to every man in the grand St. Yves had not a chance to win, that discouraging fact did not keep Henri from doing his level best. After a show of force miles the hand again played "Rule, Britannia," as the Englishman led his second lap, putting him one-third of a mile ahead in the eighth mile.

After that it was only a question of how far Shrubb would win. He had the race well in hand and showed down somewhat in the last five miles.

St. Yves Quits Sprinting.

St. Yves did little sprinting after the eighth mile, evidently realizing that he had not a man who could run him to the ground at the fifteen mile game.

At the end of the ninth mile, the men were one minute and twenty-nine seconds ahead of the phenomenal time made by Dorando and Longboat at Buffalo, but from the ninth mile on the men gradually slowed down. Shrubb, with the race won, saw no reason for exerting himself unnecessarily and as for St. Yves, he knew he had no chance to get away from that long legged shadow.

In the fourteenth mile, St. Yves created a little excitement by starting a sprint and opening a gap at the beginning of the last mile.

Wins by Safe Margin.

Shrubb seemed to be tiring, but with the race won by a safe margin, the Britton allowed St. Yves to take back a portion of the two laps which he had lost when the pistol signalled the last lap.

Shrubb sprinted and, finishing strong, broke the tape one and three-quarter laps ahead of the Frenchman. St. Yves' time was 1 hour 28 minutes 56 seconds. Summary:

Shrubb's time by miles—First, 4:54; second, 10:14; third, 15:32; fourth, 20:56; fifth, 26:25; sixth, 31:56; seventh, 37:29; eighth, 43:19; ninth, 49:23; tenth, 55:39; eleventh, 1:01:52; twelfth, 1:08:05; thirteenth, 1:14:15; fourteenth, 1:20:17; fifteenth, 1:26:12.

DORANDO EASILY WINS 15-MILE MATCH WITH MAT MALONEY

NEW HAVEN, Conn., April 24.—Dorando Pietri won a prettily contested fifteen-mile match race from Matt Maloney of New York at Savin Rock this afternoon, in the time of 1 hour, 14 minutes and 40 seconds. The track must have been inaccurately measured, because the time is practically impossible for the distance quoted.

Dorando led Maloney by a lap and a quarter at the finish. He shot into the lead on the first lap and held gained an entire lap within seven miles. The pair ran together from that time till the last lap, when Dorando again dashed further into the lead. About 1,500 people saw the race.

John Lickteig of this city finished first in the ten mile amateur race in 53 minutes, but the track was short.

GIRL OF 13 KIDNAPPED.

Not a Trace of Rich Man's Daughter, Strangely Missing.

NEW YORK, April 24.—Adele Rose, the thirteen-year-old daughter of a wealthy silk thread manufacturer, living at No. 10 West Eighty-Eighth street, has mysteriously disappeared.

On Friday at noon, Adele, who is an exceeding attractive girl, returned to her home from Miss Jacobs private school. At 2 o'clock she started with her mother for the milliner's. At the latter place Mrs. Rose left her. When Mrs. Rose returned at four o'clock her daughter had not arrived, nor has the family seen her since.

Not a trace of the child can be found. The police had a theory that Adele was kidnapped in an automobile while walking boulevard. They point out that numerous cases like that have occurred lately, an dthat the girl was probably lured into the machine for a little ride, to be carried off to one of the up-Hudson river towns.

RAPS ROCKEFELLER AS BRIBER OF EDUCATORS

"South Does Not Want Greasy Penny from Him" or from Carnegie, Says Bishop.

EVERGREEN, Ala., April 24.—Addressing the Alabama Methodist conference, Bishop Warren Candler bitterly attacked John D. Rockefeller and Andrew Carnegie for what he termed their efforts, by use of money, to control education in the South.

"I am not talking to Methodists only," said Bishop Candler, "but to Baptists, Presbyterians and Episcopalians. I want to impress on you that your educational interests are imperilled. Andrew Carnegie and John D. Rockefeller have contributed a total of $50,000,000, and their purpose is to dominate the educational interests of this entire country. By the bribe of this enormous sum of money they have already partially succeeded.

"The Northerners are coming South to teach the Southern 'barbarians' new and strange theories. I want to say to them now, and to John D. Rockefeller, especially, that we do not want any of their ideas said not a greasy penny of their money. Tell them to stay at home and teach their juries to punish crime, which they are not doing, and let us alone. We will not do punish crimes.

"Two murderers were convicted in Tennessee the other day, and they convicted the night Riders, too. But three murders in New York and two in Boston go unwhipped of justice. We do not want their money, because they are hostile to the family relation, the very basis of our civilization.

"They have an improvement on this relation which God himself established, and would substitute therefor a system of free love-ism. The professors in the new blood colleges also touch a socialistic doctrine that has never had tolerance in the South."

PLUNGED TO DEATH.

Accident to Mile-a-Minute Train Hurls Engineer Out.

TRENTON, N. J., April 24.—While running a mile a minute this afternoon near Hamilton, N. J., the connecting rod on the locomotive attached to the Royal Blue Express on the Reading Railroad broke and carried Engineer Fred Dargoff frof his seat. He died within a few hours.

$150 Fire in a Foundry.

Fire in the basement of the one-story brick building in No. 280 South street, occupied by the Metcalf Brass Foundry, which was discovered by Reserve Officer Holt, damaged a number of castings to the amount of $150. There was some excitement in the district, due to the fact that it was the second time this Brevoort was summoned to that locality within a few hours.

Work for 1,500 in Malden.

Malden is to have two new industries, which will give employment to over 1,500 persons. The new plant of the Converse Rubber Company will be opened to-morrow and the establishment of the Union Forging and Refrigerating Company will be ready during the Summer. In the latter plant over 250 head of cattle may be slaughtered and dressed each week.

SIGNATORY POWERS MAY PUT AN END TO THE TROUBLE

battle was the number of people of all classes and nationalities who crowded the streets near the scene of conflict. Women were particularly conspicuous. The invading troops, by their courtesy and friendliness, inspired confidence in the minds of all.

It is believed that 1,000 or more troops fell in the vicinity of Taxim barracks alone, and that not less than 2,000 combatants were killed. Private houses are reported as suffering great damage from the deadly bullets hurled from rifles, machine guns and field artillery.

The parliamentary forces suffered heavily through the misfire of the white flag by the soldiers garrisoned at Tasch Kiosk barracks. After an hour's steady fire the defenders hoisted a white flag. Then the invading infantry moved forward. When within 400 yards of the barracks the guns behind the walls opened up a deadly fire on them, routing the invaders twenty-seven killed and eighty-one wounded.

Few of the non-combatants were killed.

Half of the Schohra Casserra, who two months ago were placed in the Yildi garrison by the Committee of Union and Progress, and who were active in the recent mutiny, were killed near the barracks where they had murdered most of their [illegible] ten days ago.

The troops who were made prisoners were conveyed under strong guard escort to Stamboul and interned in the War Office. As they passed through the streets of Pera, surrounded by dusky, sun-browned Saloniki fighting men, they looked sullen and dejected, and seemed to resent deeply their defeat at the hands of fellow mortals. The people on the streets were impressed with the quick fate that had overtaken the mutineers.

It is generally believed that once the military situation is disposed of, an investigation will be made as to the authors of the recent events and the question of the throne considered. It is intended to clear Constantinople of the entire old garrisons, the majority of whom will be sent to Saloniki.

Schefket Pasha came into the capital at 4 o'clock in the afternoon. He visited all the constitutional outposts and forces in the city and was acclaimed and cheered wherever he went.

Should the Sultan remain in office it will merely be in a nominal way. His allowance will be greatly restricted and he will have no means for further agitation. It is creditably reported that the Sultan has distributed within recent days two million pounds to his troops. The question of his deposition or his execution can hardly be considered a possibility.

conditions and efforts to safeguard Americans.

The State Department is in constant communication with the Embassy at Constantinople, impressing upon the officials there the necessity of doing everything for American citizens. In fact, the whole machinery of the government has been utilized in the efforts looking to this end, and the assistance of other governments invited to check the massacre and relieve the situation of its horrible features. President Taft may be asked by the American Society of International Law to take steps to stop the massacres of Christians by fanatical Turks in Asiatic Turkey.

A resolution embodying this request was submitted to-day to the members of this society of leading advocates of peace and arbitration, shortly after the second day's session had opened at the New Willard. The memorial, which was offered by Prof. Ion, of the Boston University law school, was referred to the executive committee of the society, when the motion was put by General Horace Porter, chairman of the meeting, Robert Bacon, former Secretary of State, voted in the negative.

WALTHAM WOMAN IS NEAR CONSTANTINOPLE; FATHER MUCH WORRIED

James F. Robinson of Waltham, whose daughter Mabel has for two years been one of the teachers in the American College for Girls in Scutari, Turkey, on the Bosphorus directly across from Constantinople, is worried about her safety.

On Friday Mr. Robinson received a letter from his daughter, but it had been written two weeks ago and, of course, made no mention of the religious massacres in Adana or the revolution in Constantinople. As Miss Robinson has sent no cable messages her father is much worried.

Mr. Robinson consulted the Boston representatives of the American College for Girls in Turkey, but they have had no word as to whether the college has or has not been menaced. They reassured Mr. Robinson, however, telling him that Adana, where the religious massacres occurred, was 300 miles from Constantinople and that in the latter city the uprising was merely political.

In her letter Miss Robinson wrote that she intended to come to Waltham next June for a long visit. She mentioned the uprising and disturbances of last September.

AMERICAN WOMEN MISSIONARIES IN PERIL FROM FANATIC MOSLEMS

BEIRUT, Asiatic Turkey, April 24.—According to the latest information of the progress of the fanatical anti-Christian rioting in the country around Alexandretta, the Armenian village of Kessab has been burned and many persons killed there. The women and children of Kessab are now fugitives in the surrounding mountains, exposed to hunger and mob violence.

Help is urgently needed everywhere on the coast. The situation at Beilun, a short distance south of Alexandretta, is most critical. No news has been received from Hadjin, where five American women missionaries were reported two days ago to be in danger of violence at the hands of infuriated tribesmen.

Eighteen miles southwest of Antioch. Eighteen miles southwest of Antioch.

Beirut is quiet.

REFORMERS DECLARE ARMENIAN MASSACRES MUST BE STOPPED

CONSTANTINOPLE, April 24.—The sitting of the National Assembly yesterday was held under the presidency of Said Pasha, president of the Senate, assisted by Ahmed Riza, the former president of the Chamber.

Mahmoud Schefket Pasha explained the causes which led up to the issuance of a proclamation which he had sent to the Sultan, the Grand Vizier and the foreign representatives and the object he had in view.

He stated that as the troops of concentration were not sufficiently strong to meet all eventualities, pending the arrival of reinforcements, it became necessary to calm and reassure the population.

He added that the promises made in the proclamation would be scrupulously carried out. Those who had fomented the trouble, however, no matter how high their position, would be severely punished.

The Assembly then voted its approval of the proclamation. At a public session of the Assembly telegrams were read congratulating the members on the re-establishment of the constitution.

Reports also were read dealing with the Armenian massacres and it was decided to send a circular to all the provinces of the empire, inviting the authorities to adopt all necessary measures to suppress the rioting. Those neglecting to do so would be held responsible and severely punished. The question of adopting a vote of confidence in the Cabinet was postponed, when the Assembly adjourned.

PALESTINE TO REVOLT UNLESS CONSTITUTION IS RESTORED AT ONCE

JERUSALEM, April 24. At a meeting of representatives of all classes of the community, announcement was made of the recent change in the Turkish Government. A telegram was sent to Constantinople threatening that Palestine would be proclaimed an independent State unless the constitution is at once restored.

SULTAN TO BLAME FOR FALL; INSPIRED REACTIONIST REVOLT

ATHENS, April 24.—The statement on the day after the recent revolt in Constantinople that the action of the Turkish soldiers was probably inspired by the Sultan and had in view the restoration of the old regime, is confirmed by Mahmoud Mukhtar Pasha, late commander of the First Army Corps in Constantinople, who fled from the capital and is now at Athens.

The Ottoman Minister of War, Ali Riza Pasha, for not taking steps to quell the mutiny, which he says could have been done without bloodshed. He says that even after the mutiny was in full swing it would have been easy to stop it had the Sultan so willed and given a few commands.

SHEIK-UL-ISLAM, HEAD OF THE MOSLEM CHURCH, TO NAME NEW SULTAN

CONSTANTINOPLE, April 2.—It is expected that the Sheik-ul-Islam will ordain the new Sultan of Turkey when Abdul Hamid abdicates or is removed from the throne. The Sheik-ul-Islam is the head of the church just as the Grand Vizier is the head of the governmental government. Both act under the supreme direction of the Sultan, who is the head of the church as well as State.

Both are appointed by the Sultan, the Sheik with the nominal concurrence of the "Ulema," a body composed of the clergy and chief functionaries of the law. Over this the Sheik-ul-Islam presides, though he himself does not exercise the functions of the priest. The "Ulema" is composed of the judges, theologians and jurists and the teachers of literature and the law, who may be summoned for that service by the interpreters of the Koran.

BOSTON CONSULATE EXPECTED FALL OF TURKEY'S CAPITAL

At the office of the Turkish consul, No. 161 Milk street, the news of the fall of Constantinople had been expected, and was no surprise to the officials. Frank G. Macomber, the consul, is in New York and will not return till next Tuesday. His secretary, James Splaine, expressed surprise when told that the Sultan probably had been taken prisoner.

Mr. Macomber is an insurance man, and carries on his business in connection with the consulate.

SULTAN MAY FLEE TO UNITED STATES AND BECOME EXILE

WASHINGTON, April 24.—There is considerable discussion among American officials and diplomats here as to the possibility of Sultan Abdul Hamid seeking asylum in the United States, should he be driven into exile by the young Turks.

Abdul Hamid is well known to be immensely wealthy, his great private fortune being invested in various parts of the world. His private yacht, which is more like an armored cruiser than any other yacht in the world, lies at Constantinople ready to sail at any time. It is constructed so Americans in whom he has entire confidence; and should the Sultan leave Constantinople, either after abdicating, or as a refugee from his own capital, without formal abdication, it might cause some difficult question to develop.

There is always difficulty about harboring a pretender to a throne of a friendly power; and the relations between the United States and Turkey are friendly, and presumably will continue so, no matter whether Abdul continues at the head of the government or not.

The Sultan is said to prefer an asylum in the United States to remaining in Europe; but why is not understood. It is believed in diplomatic circles that whether Abdul Hamid formally abdicates or merely flees the country, he will, as soon as he is established elsewhere, set about intriguing to restore himself to the throne. He is one of the most skilled diplomats in the world, and he has for many years planned for such a crisis as now confronts him.

HOLD-UP MAN ROUTED.

Victim's Cries for Help Bring Police; Suspect Run Down.

August Wehlberg of No. 3 School street, Everett, was held up and robbed early today directly back of the Joy street police station. While he was struggling with the man Wehlberg used his voice to good advantage, and Policeman Campbell and Tilton came on the run. They saw a man take to his heels at top speed. Both police-men started in pursuit and overtook and arrested Walter Amlin, who said he was twenty years of age and lives at No. 19 School street, Cambridge. Wehlberg said he had been robbed of $1.40, and Amlin was locked up on the charge of robbery.

$2,000 Fire in Lynn.

A fire which destroyed the old shed on the east wharf of B. O. Honors, in the rear of No. 302 Broad street, Lynn, yesterday afternoon for a time threatened the wharf property in the vicinity. The damage is $2,000.

DONIANS SAFE ON BOARD STEAMER BOUND TO NAPLES

A number of people from Boston and vicinity are known to have been in Constantinople at the time of the sanguinary battle which resulted in the downfall of the capital and the overthrow of the Sultan.

Dispatches to the AMERICAN from the captured city last night told of the safety of a party of sixty American tourists who were escorted to the American steamer leaving yesterday for Naples, under a guard sent from the United States embassy by Ambassador Leishman. In this party there are nine persons from Boston and twelve all together from New England. Their names are:

Albert E. Bailey of Boston.
Edward W. Moylan of Boston.
Mrs. John F. Perry of Boston.
Miss H. D. Perry of Boston.
Mrs. William V. Wolcott of Boston.
Miss Marion Davenport of Boston.
Mr. and Mrs. Dorr of Boston.
Eugene Felt of Boston.
Mrs. M. J. Leary of Adamsville, R. I.
Mrs. J. W. Withern of Fall River.
Dr. F. L. Porter of Seneca, Me.

The dispatch also mentions the Rev. and Mrs. A. E. Craig of Columbus, O., as among the party.

Mrs. John F. Perry and her daughter Harriet, reside at Fenway Gates, at No. 56 The Fenway. They left home for Turkey in January, intending to leave that place for Paris.

Miss Withern's home is in Farmington, Me., but she teaches in Fall River. She makes her home there with her aunt, Mrs. Emily Woburn, at No. 62 Barnaby street. She is a friend of Mrs. Leary, who resides in Adamsville, R. I. They traveled together. Mrs. Leary's sister, Mrs. Daniel H. Cornell, resides in Fall River.

Both Mrs. Leary and Miss Withern were members of a party touring the Holy Land under the direction of Prof. H. W. Dunning, formerly of Harvard. This party sailed on the Romanic on January 20 and reached Constantinople on Thursday. The schedule called for one week in that city. They were then to sail for Athens.

Leishman Cables Americans Are Safe.

WASHINGTON, April 24.—The following cablegram was received at the State Department late this afternoon from Ambassador Leishman. Hastily translated from the government code, the dispatch reads:

CONSTANTINOPLE, April 24.—Firing is now going on in the streets of the city.

Fifty Americans were safely got off on a steamer this morning.

Embassy safe, well guarded and protected. Newspaper correspondent, Frederick Moore, wounded in neck and sent to French Hospital.

(Signed) LEISHMAN.

Among Americans mentioned in the dispatches as in Constantinople and under the protection of Ambassador Leishman are Mr. and Mrs. Frank G. Carpenter and Miss Frances Carpenter of this city.

Jack Carpenter, the Olympic champion, a son of Mr. Carpenter, will to-day of his home here that he had had no communication from his father relative to the troubles in Turkey. A letter received this morning was dispatched April 13, from a point in the Holy Land. He said his father's schedule called for his arrival in the Turkish capital yesterday and a stay until May 6.

Miss Mary Custis Lee, also in Constantinople, is a daughter of General Robert E. Lee, and was born in the mansion at Arlington. She sailed from this country more than a year ago. Up to the present time nothing has been heard from her.

State Department Reassures Citizens.

To the many dispatches which have come to the President and Secretary of State from religious bodies having interests in Turkey replies are being sent by Secretary Knox, carefully pointing out all that has been done by this Government toward securing amelioration of existing

INVADING ARMY IN CONTROL OF CITY BUT SPARES SULTAN

CONSTANTINOPLE, April 24.—The total number of the killed is probably some 6,000. All the heights surrounding the Yildiz palace are held by the forces from Macedonia, and their neglect to occupy the palace is probably due to consideration for the women and children of the harem.

Though Abdul Hamid remains in the palace, there is not even a sentinel at the gate. The officers and servants of the palace are stealing all they can. The doors stand wide open.

Meanwhile the people cheer the liberators vociferously, offer them food and drinks, and embrace them in the streets, while Selah Eddin, the son of the late Sultan Murad, is spoken of as the successor to Abdul Hamid.

Struck Like a Thunderbolt.

Constantinople breathes freely again. The Yildiz nightmare has passed. Abdul, the damned, has fallen! Last night the people thought the Sultan would outwit the Macedonian leaders, but their army must have a veritable Cromwell at their head, for while he was lulling suspicion yesterday by the telegram to the Grand Vizier Tewik Pasha, declaring that he had no desire to dispose the Sultan, he suddenly struck like a thunderbolt.

By night his troops came by train from San Stafano and occupied the square of St. Sophia. The same soldiers from Salonica, with whom the writer camped four days ago, unexpectedly attacked Stamboul this morning, on three sides, at 5 o'clock and were met by firing from the troops in the Sublime Porte. Near the Officer's Club an artillery wagon exploded, smashing every window in the vicinity. The Macedonians' cannon tore a hole in the gate of the Sublime Porte and another hole in the wall through which you could drive a horse and cart. Trees were smashed by shells and wreckage was strewn everywhere.

Master of Stamboul.

The upshot was that the Macedonian army was master of Stamboul, with the loss of 20 killed. The writer visited Stamboul at 2 o'clock and witnessed the triumphal entry of the Bulgarians and Albanians, dozens of magnificent batteries, innumerable horsemen, all converging on to Yildiz tier. Five batteries remained in St. Sophie square, where the crowd applauded frantically and cried, "Death to Abdul Hamid!"

At 5 this morning the enveloping movement on the Yildiz block began. Several outlying barracks had first been reduced. The principal one was at Taxim, near the German embassy. Here the Sultan's troops hoisted a white flag, and then treacherously fired on the Macedonians advancing under the impression that they had surrendered. The fighting there lasted five hours. The Macedonians' cannon tore in the barracks, which were riddled like a sieve by rifle bullets. The barracks were finally taken at 10 o'clock.

WOMEN CRUSHED IN BARGAIN RIOTS

Police Called Out to Quell Rival Ten-Cent Store Crowds in Battle.

NEW YORK, April 24.—More than 3,000 women to-day engaged in one of the fiercest bargain riots at Broadway and Seventh street, Williamsburg, that the Brooklyn police have ever been called upon to quell.

The trouble was caused by liberally advertised sales by rival five-and ten-cent stores located within a few blocks of each other. These sales were advertised to begin at 8:30 o'clock, but long before 7 o'clock women began to arrive and crowd about the unopened doors.

Women from every quarter of Williamsburg swelled the crowd. The stores were selling umbrellas for five cents, men's overalls and wash boilers for ten cents each. Other bargains equally attractive were offered.

When the doors opened at the designated hour more than 3,000 were packed into Broadway. With a rush they forced their way into the stores. So great was the crush from those who were struggling to be among the first to gain entrance that scores of women fell in a faint and were trampled by the women who followed.

The terrified clerks in the stores, realizing the seriousness of the situation, fought to close the doors to keep those who were struggling on the outside from coming in. This the now frenzied women would not permit, and the police of the Hamburg Avenue Station were summoned to quell the riot.

Every garment here presented is of this season's correct design. The Suits are all beautifully tailored, and only good quality materials are used in their construction.

We Specialize and Cater to the Wants of Small and Large Women

GRAPHIC STORY OF 11 HOURS' DESPERATE BATTLE

CONSTANTINOPLE TAKEN BY REBELS; HUNDREDS SLAIN

Turkish Despot Unharmed by Young Turk Invaders, but is Certain to Be Deposed; Victors Carefully Protect Foreign Embassies.

CONSTANTINOPLE, April 24.—The battle for the possession of Constantinople, once described by Napoleon as the key to Asia, now the key to the liberties of millions of Moslems, began at dawn. With all the fury of the Saracen hordes of old, the loyal legions of the Sultan, that counterpart of the Swiss Guard defending Louis XVI., fought to the death, and, like the Helvetian mountaineers, were practically annihilated. The battle lasted eleven hours.

Fighting with magnificent bravery, the equal in every way of the men they besieged, but with the iron discipline so marvellously wrought by the Young Turks, the attacking regiments swept all before them.

General Schefket entered the city with the Constitutional Army just after day broke. There was some street fighting, but it soon gave way to the more serious business of seizing the strategic points. These were invariably defended with resistance to the end and the Army of the Constitution seldom gave quarter. Most of these places had been reduced by noon.

General Schefket then moved his forces on Yildiz Kiosk, in which the Sultan once named Abdul the Damned, now of a certainty Abdul the Doomed, awaited the fortune of the day. Like all of his faith his one word was "Kismet," which means "Allah hath ordained it." There was no attempt at flight.

Sultan is Unharmed, But Loses Throne.

General Schefket surrounded the palace, which is of extensive grounds, well fortified, about three miles to the northeast of the part of the city called Pera, which lies over the Golden Horn, much as Charlestown is situated over the Charles river. In fact, Pera and Stamboul, the ancient Byzantine city of Constantinople, are relatively located as are Boston and Charlestown. Yildiz Kiosk lies on the heights of the Bosphorus, which stretches in a northeasterly direction, much like the North Shore.

Abdul was unharmed. No attempt had been made to shell his retreat, although a few shells did drop into the palace yard. He began to parley, demanding additional guarantees, but the inexorable demands of the Constitutionalists led to be met.

This attitude was well expressed by Hafid Bey, who has been the representative of the Young Turks in London. Speaking today he predicted the deposition of the Sultan. He said: "We are all extremely anxious that no injury befall His Majesty, but it will be impossible, after recent events, to expect a continuance of respect, sympathy and loyalty to the present sovereign. Orthodox Moslems attach loyalty to the office of the caliph rather than to the individual occupying this office. It is the wish of the Constitutional party that the prospective change in sovereigns be brought about by voluntary means, and I have reason to believe that before long a new sovereign will succeed the throne of Turkey. This change will insure the restoration of tranquility."

Sweep Over Ramparts; Find Only Dead Man.

The fighting began in the streets of Pera, which lies to the southwest of Yildiz Kiosk. There in Pera are all embassies, the banks, the big business houses and the finer, more modern residences. The old city, the part called Stamboul, lies on the eastern side of the Golden Horn.

The troops of the young Turks directed their attention to the hated traitors from their own ranks, the Sultan Chasseurs, who were in the Tasch Kischla barracks. There were 800 of them. They knew what was coming, but they had deserted their former comrades, cast their lot in with the Sultan and they knew what to expect. Allah willing, they would triumph. Allah opposing? Well, kismet. That was their attitude.

Demands for surrender were met with fire from a rapid fire gun. The young Turks at once replied. They used a battery of field guns, another of machine guns. The chasseurs, to their immortal credit and glory, fought to the end and when the victorious troops of the Constitution swept over the ramparts they found only dead men there.

But a small part of the young Turk forces was fighting at this part. General Schefket had thrown the larger part of his regiments into the embassy and business districts and they guarded this danger point with superb discipline.

Hundreds Are Slain With Machine Guns

It was early demonstrated that the Turks, young and reactionary have learned the lesson of the danger of insult to the flags of the great European powers and the colors of Uncle Sam. Neither side wanted any of that.

With the Tasch Kischla barracks occupied, General Schefket took one point after another. When he finally got ready to throw his shells close enough to the Sultan's own sublime person he took good care that they fell none too close. For, after all, Abdul was the head of Mohammedanism and even the young Turks had reverence for him while he remained Caliph. They had no such regard for his troops in the outlying fellow brick buildings close to the Sultan's palace and these were tumbled down by machine guns and cannon with deadly fire, killing hundreds.

From the head of the Grande Rue De Pera, the main street, one was able to get a partial view of the operations. The bellowing sunlight now and then flashed on the field, showing a landscape of gun rims or a succession of sparkles as a machine gun slowly fired away at scarcely any of the thin line of infantry which could be seen with the aid of a glass. On the Tasch Kischla barracks the Sultan's men were returning the rifle fire steadily.

Sharp Fighting Near German Embassy.

About two o'clock in the afternoon there was a sharp fight near the German Embassy, but reinforcements from the attacking army rushed to the scene and swept the opposition away.

For hours all telegraphic communication with the outer world save via one line through Sarajevo was cut off.

In the height of the excitement pickets went through the streets of the city searching the natives and confiscating all revolvers found on them. The Turkish officer commanding the guard on duty at the British Embassy announced that his troops were under the orders of the ambassador and that they could be relied upon to do their duty as well as if they were British soldiers.

Several of the isolated guard houses defended themselves bravely against the Salonikins. These fights in the centre of the city resulted in a considerable loss of life. The Turkish guardhouse resisted for three hours under a heavy Hotchkiss fire. The occupants, numbering fifty men and officers, finally surrendered. The artillerists of the Taxim barracks were guilty of gross treachery. They hoisted the white flag and thereby enticed 0 Salonika infantry to close range. As the Salonica men were approaching the barracks across an open piece of ground to receive the surrender the force within opened on them with a heavy shell fire and compelled them to retreat.

Sultan's Men Hoist White Flag; Fight On.

The Salonica artillery was then brought up and shelled the barracks, inflicting heavy damages. The barracks twenty minutes later were rushed by the invading troops and there was hand-to-hand fighting in the barrack courtyard and the cemetery behind the structure, in which the casualties were very heavy.

In spite of the surrender of the Yildiz garrison, where the white flag has been hoisted, another detachment of the Sultan's bodyguard quartered in the Topkanch barracks continued a stubborn resistance for some time longer. They barricaded themselves in a mosque, but finally were overpowered.

The grounds of the Belgian legation were occupied by a detachment of the local garrison, who took up a position here to oppose the advance of the Constitutionalists. In the subsequent skirmish the legation was riddled with bullets. None of the inmates, however, was hurt. The Constitutionalists finally cleared the grounds.

From the houses near Yildiz Kiosk the bodies of those who met death during the encounter near Tasch Kischla barracks were plainly visible. The streets near the firing line have been cleared and all noncombatants have been ordered to remain indoors to prevent casualties and the possibility of mob violence, thus clearing the streets for the exclusive movement of the troops. The public has been warned away from the neighborhood of Yildiz Kiosk and the lines are impenetrable.

Besiegers by Mistake Fire on Their Comrades.

There was one dramatic mixup, in which the besiegers through some mistake fired on each other. The Constitutionalists were using few guns, comparatively, but in some way they managed to drop shells among their comrades over in Skoudi, on the other side of the Bosphorus. Skutari is that part of Constantinople which lies in Asia Minor, and gives the city the distinction of being the only one in the world which lies in two great continents.

Several shells were thrown in reply over into the Grande Rue de Pera, the Champs Elysees of Constantinople, and it was some time before the signal men got things straightened out. About this time dirty men ran from an alley and got into the rear of the besieging forces. They were supposed to be enemies, and several of them were wounded before they could make it known that they were deserters to the cause of the Constitution, and then a vast crowd which had gathered cheered them wildly.

Once the fighting stopped enormous crowds filled the streets, which, in that part are wide and modern. All wanted to know the latest news. The windows of all non-Moslem houses were filled with women in gorgeous colors, waving flags and scarfs and cheering. The commandant soon ordered all these streets cleared.

Moslem Weapons Are Piled in American Embassy.

The troops which were told off to guard the American embassy were all wounded after their long march at double-quick over the several miles from the outskirts and the American embassy officials and servants furnished them with coffee and cigarettes, which they received with sincere gratitude. The colonel in command of this detachment wore the uniform of a private soldier and it was said had been promoted on the spot for a valorous deed earlier in the day.

He had patrols search the crowds and they seized all weapons which were thrown in a heap in the American embassy grounds. This rapidly grew into a considerable collection of knives, scimeters, pistols, swords, daggers, in fact, just such a collection as would be extremely deadly in a fanatical mob of moslems, should an anti-Christian outburst start.

Frederick Moore, correspondent of the New York Sun, was shot through the neck, but not seriously wounded. He tried to make a picture of the fighting and the soldiers thought his camera was some newfangled gun and one of them sniped him off. It was the irony of fate, as only yesterday he says in New York had a long story from him in which he gave it as the consensus of the military opinion of the foreign experts that the then investing army of the Young Turks which lay without the walls was largely a bluff and would probably not materialize. How far this was from the fact was shown by the developments within twenty-four hours which sent him to a hospital.

American Correspondent Is Shot Through Neck.

Moore also represented several English papers and not long ago wrote a book on Morocco. He was for a time with the London bureau of the Associated Press and his home is in New Orleans. His wife is an English lady. She is with him. He was shot through the neck and was taken to the French Hospital.

There was a report that several Europeans and Americans besides Moore had fallen, and one report had the correspondent of the London Times killed. Later this was corrected and it was said that the man killed was an American tourist. His name was not obtainable.

A dragoman attached to the Austrian Embassy was wounded and there are persistent reports that an under secretary of the English Embassy was killed while watching the fighting.

The advance of the concentrated Army of Investment began yesterday afternoon. While the favored troops of the Constantinople garrison were giving homage to the Sultan on Yildiz Hill, there was a forward movement of the Constitutional forces on that side of Pera to within two and a half miles of the Yildiz Kiosk. Cavalry went out to reconnoitre and squads were sent to picket the bridges across the Sweetwaters. A party of fifty American tourists, just arrived, who were driving in carriages in that direction, were turned back by horsemen. Infantry was then observed advancing and rumors spread throughout the city that the army was about to enter the capital and fighting was inevitable.

British Embassy Haven of Refugees.

There was a veritable panic with much running to and fro and cries of alarm. Shopkeepers in a large part of Pera put up their shutters. The British Ambassador, Sir G. A. Lowther, was caught in the swirling crowd in the embassy and hundreds of frantic people poured into the embassy compound imploring asylum. The gates of the embassy were closed with difficulty, but it was late in the afternoon before the refugees were reassured and sent homeward. The outposts of the investing army were then withdrawn.

The embassies within two miles of the palace but night. On that side the city is entirely open, the fortifications having been planned to resist an approach by water.

No guarantees of any kind were given to the Sultan by the Constitutionalists, either with regard at his retention on the throne or the security of his person. Tewfik Pacha, the grand vizier, and his associates in the cabinet agreed to carry out the wishes of the Parliament. General Mahmoud Schefket, who in a telegram to the grand vizier styled himself commander-in-chief of the army of investment and of the Ottoman fleet, is now almost supreme in authority. The commanding general sent a considerable body of troops by steamer to Smyrna, thence to Eski-Shehr and other strategic points across the railway leading from Constantinople, to capture refugees who may be wanted, to observe if troops from remote districts make any movement in favor of the capital, or if there is rising of guerilla bands or fanatics.

ALBANIAN PATRIOTS ARISE, TAKE OFFICERS, HOLDING THEM HOSTAGES

CONSTANTINOPLE, April 24.—A dispatch reports great unrest among the Albanians. It is rumored that they have risen at Avlona, a seaport in the Adriatic, with a population of 6,000, and have made prisoners of the officers of the garrison and several of the members of the Committee of Union and Progress. These are now held as hostages for Ismail Kemal Bey and Mudd Bey, whose lives they believe to be in danger.

YOUNG TURKS HAVE GAINED FULL CONTROL OF THE SULTAN'S NAVY

CONSTANTINOPLE, April 24.—The fact that General Mahmood Schefket, leader of the young Turks, has gained control of the Turkish navy is a blow to the prestige of Edhem Pasha, who had been acting as minister of the navy ever since the mutiny of the troops in Constantinople. Edhem is an old favorite of the Sultan and had held several cabinet offices before. He was not in office when the young Turks gained control of the government, and he is still supposed to favor and to the constitutional form of government. He has been one of the most noted and successful Turkish generals.

DOUBLE STAMPS MORNINGS

WOMEN'S CLUBS EMBROILED BY THIEF TALK

President of Providence Mothers' Organization Demands Retraction.

PROVIDENCE, April 24—Woman clubdom in this state has been rent asunder by the torrent of gossip that is flowing hither and thither as a result of the startling action of Mrs. Thaddeus J. Hayden, President of the Providence Mothers' Club in calling upon four prominent members to either substantiate or retract their reported allegations that she is a thief.

Two of the women to whom Mrs. Hayden traced the stories have made satisfactory responses. Another, Mrs. Ira D. Hasbrouck, President of the Rhode Island Federation of Women's Clubs, declared at a special meeting that she had made an investigation of reports that had come to her about Mrs. Hayden, but that she had neither been able to "get direct and positive proof of these rumors or to disprove their truthfulness."

The fourth woman, Mrs. Hayden suspects, is the source of the scandalous report. Her name has not been made public. She is said to be prominent in Providence educational affairs. She did not appear at the public meeting called by Mrs. Hayden to either make good her charges or take them back.

"We propose to smoke her out," declared Mr. Hayden, "and then we'll get the accused woman.

"She will either make public acknowledgment of her error or she will be brought to court and made to answer there."

That is the situation at present in the biggest sensation that has ever sprung in the social circles of the State. The Haydens have employed Attorney Thomas Mrs. Hasbrouck. It is presumed that the unnamed woman who has disregarded the Haydens' efforts so far "to smoke her out," is acting under the advice of counsel.

Jealousy in club prestige is said to be back of the trouble.

The first rumor of the trouble came when it was learned that Mrs. Hayden was quarreling with her club woman "Radics" in Providence. Various reports of articles stolen reached the police from Churchill House, the building owned and occupied by the Federation of Clubs. First there was reported the stealing of a $150 mink scarf, the property of Mrs. Lyons Delaney. She never got it back.

A little girl from Newport, daughter of a clubwoman, came here to attend a dance. She lost her entire clothing. Then the deepest mystery surrounded the disappearance of the girl's belongings. Then came mumorous other thefts of clothing and other articles, culminating recently in the disappearance of a pair of costly earrings, the property of one of the members.

The local detectives have been working on the thefts for months, but to this time they have not yet traced the jewels.

In the meantime, Mrs. Hayden has benefited to hear her name was being mentioned in connection with the various thefts. After trying to trace the rumors through friends and through the press, Mrs. Hayden decided upon the public meeting of the Providence Mothers' Club, which was held in the Mathewson Street Church, and paid for by Mrs. Hayden. At the conclusion of the meeting Mrs. Hayden was given out passed a vote of confidence in Mrs. Hayden's position.

Mrs. Hayden is the wife of a wealthy book dealer, he has a residence in fine Providence. When she was seen she made this statement:

"I have heretofore left this matter entirely with my friends. Now it has reached the publicity stage. I will say this—the most precious asset a woman possesses is her good name, and when that is assailed directly or by innuendo, she is justified in using every means in her power to who is traducing her, and why.

"Failing to get the information, private-

Gov. Draper and Wife Completely Reconciled to Son's Actress Bride

Photos on left are Governor and Mrs. Draper; on right are Mrs. Bristow, formerly "Quenie" Sanford, and her husband, the Governor's son.

ly she can only appeal to the public to reach the truth and through the truth—justice."

"All this means," said Thaddeus J. Hayden, "that my wife has been accused, and that she proposes to know who accused her, who started the stories, why they did it, and compel them to produce proofs or make public apology. We have in mind women in high position in Providence. We do not want their money, but we want their public acknowledgment, and we propose to trace the conspiracy to the foundation or hate them into court.

"Four women of high position are known to have talked against my wife. For a year she would not understand their attitude. Meanwhile, she organized benevolent institutions and had become prominent—perhaps too prominent to please some of the others, who liked to be the head and front of such things. Certain women in high places started the rumors, without offering any foundation for them.

"Mrs. Wing came to our friends to inquire. They were repulsed and the matter was discovered at. Next the matter was brought up in board meeting. No satisfaction was obtained. Then we had our lawyer see their lawyer to find out what they meant and why they persisted in persecuting my wife, but with no success.

"Recently we caused registered letters to be sent to the members calling a special meeting, at which my wife declared herself ready to demand that her accusers should stand forth and thresh out the issue there and then. Two of those to whom we believed to be consignors did not attend.

"Now who did attend made acknowledgment of her error and sorrow. A second member said she had investigated and could not prove anything. Since that meeting a third member has assisted quarrelette has made satisfactory acknowledgment.

"The fourth one, who occupies a position high in Providence educational affairs, is apparently the fountain head of the slanders. She will make public acknowledgment of her own free will or she will go before the court."

GUESTS IN HOME OF THE ELOPERS

Reunion at Dawn on Railroad Station Platform in Burlington, Vt.

BURLINGTON, Vt., April 24.—On the railroad station platform here at dawn to-day Governor Ellen S. Draper and Mrs. Draper made complete their reconciliation with their son, R. H. Bristow Draper, and his wife, who had been Actress "Quenelle" Sanford.

The Governor and Mrs. Draper are now guests in the Bristow Draper home.

Young Bristow Draper and his wife were at the station at four o'clock this morning with a hired hack to meet the Governor and his wife. None but the hack driver saw the meeting and the cementing of the forgiveness of young Draper and his pretty wife by the Governor of Massachusetts and his wife. It was a pretty scene, set off as it was by the gray of the dying night.

The stately young man who is working his way "up from the ranks" in the office of this city for $1.25 a day and the hack driver has grown up the plan of the age and the crowd, for the devoted boy of a man stepped forward in the half light and ran to a half and met Governor and Mrs. Draper just as they alighted.

A few words were spoken but, though they could not be overheard, they eagerly pressed the young husband and wife, for when Bristow Draper turned to the hack, his hands full of traveling bags, his face was fairly beaming. The girl bride, too, unmistakably overjoyed at the four, hastily entered the carriage and was driven away to the modest flat that young Draper and his wife occupy in an apartment house in Buell avenue.

Baby Came to Bless Home.

The glow of lights and warmth flooding from the windows of the humble little flat on one of the cold without words how the new home had been prepared for the greatest day it has known since, one year and a half ago, Ruby Draper came to bless it.

Yes, father and mother are here," said Bristow Draper to the correspondent of the Boston Sunday American a few hours later when the story of the early morning meeting and reconciliation on the front steps of the station had been told him by the hackman. "I don't know how much longer they are intending to remain. I'm a personal man myself and don't like to pry into such things as some."

What delight the complete reconciliation between parents and children had really brought to the little home of the young self-worker and his actress bride, the babies mouth of mother-in-law Draper's face revealed better than words.

All day long the mother-in-law and his wife remained in the Draper suite here. Of course, they took a day off from their work. The visit of the Governor and his wife to the flat had not apparently been one of but a person in purington knew of the fact that they had come.

Governor Bristow Draper, after his engagement with Marjorie Bay of Franklin Square, New York, as "Quenie" Sanford in the Little Church Around the Corner in New York, where he made love to his wife, he has toiled as a "mill hand" in the big cotton mills of Burlington.

He is learning the process of cotton spanning according from the start to finish, for he aspires some day to become a big man in the mills. Forgiveness by his father will do a lot to help this.

Bristow pull in hand, cool as a work man, he has worked for 10 hours a day for almost two years. He has learned how to card, spin and weave cotton as well as to repair the great looms in the mill. This young man, the son of a governor, a graduate of Exeter and Harvard, works shoulder to shoulder with hundreds of men who some day he may direct. How he can do this, the devotion of the girl who gave up a life triumph on the stage to become a wife and companion is the explanation.

It was the young Draper's sturdiness and pluck when he angered his father and mother by eloping with "Quenie" after the break with Marjorie Bay that appealed to the parents. But when they saw how he had "settled down" and how complete-ly devoted his pretty wife was to him and how she had nerved him for any sacrifice, they forgave and turned from disapproval to positive admiration.

Then came word of the baby girl into the humble Burlington home became an additional tie to bind the parents to new other responsibilities for the visit of the Governor and his wife than now intimated will be made.

One thing is certain, "Quenie Sanford and Bristow Draper are forgiven. What the college men and accomplished actress could not accomplish the plain little girl and faithful wife have done.

It was while Miss Sanford company was playing in Boston in the Fall of 1906 that young Draper met the pretty girl actress. Sanford. When the company left Boston for New York the son of the then Massachusetts Governor of Massachusetts followed.

Miss Ray Shipped Bristow.

The breaking of the engagement by Miss Bay caused the next sensation, which shocked Massachusetts society, and then the announcement of the marriage in New York and the flight to the Pacific coast for the honeymoon.

Governor Draper at the time announced that Miss Bay had "shipped Bristow." He did not try to hide his vexation and disappointment and many of the friends of father and son thought they were hopelessly estranged for life. But love, Americ-an pluck backed up by the self-sacrifice and devotion of a pretty girl have made everything different.

Today Bristow Draper and "Quenie" Sanford Draper became residents of this city they have won the respect and admiration of everybody because of their unassuming, democratic ways.

Every working morning, bright and early, this young man whose father is the Governor of a great Commonwealth, and whose mother was a daughter of the late General Benjamin H. Bristow of New York, Secretary of the Treasury under President Grant and Kentucky's candidate for the presidency. In 1876, kisses his pretty wife good bye and joins the hundreds of mill employes on his way to work.

No aloofness. I am better than you are, about this big fellow. Not a bit of it. He nods with his fellow-workmen, smokes his pipe and trudges along with them just as if he had been born to it. And in his life that this would have seemed to him impossible.

All day long in the mill he has worked, at one or another of the machines and then at another. Donning overalls and jumper he gets as sampled as any possible that would ever dream that the hard-working, pretty employe in the big cotton mill were a Governor's son and the grandson of a United States Cabinet member.

In the evening when the weather is good, after the mill is closed, young Draper and his pretty wife, the wife with Baby Draper, have been familiar figures on the quiet residential streets.

Their quiet, well-bred, democratic manners have won them friends everywhere, until in Burlington to-day there is not a well-bred couple than Bristow Draper and pretty "Quenie" Sanford who was.

Their home is modest—just an ordinary mill-worker's humble abode—for Bristow Draper was too proud to live beyond the $7.50 a week he made by the sweat of his brow, and the young wife too determined to show that she had married the man for his very self, to even think of living beyond their weekly wage.

ROOSEVELT KEEPS HUNTING PLAN DARK

Missing Baggage Will Delay Start of Shooting Trip for Several Days.

KAPITI PLAINS, Africa, April 24.—The first night of the Roosevelt expedition under canvas in Africa was spent in the elaborate camp set up for the party near the railroad station here.

No decision has been reached as to when the expedition will leave here. Some of the baggage sent by the Smithsonian Institution was left behind at Mombasa, and this fact probably will cause a delay of two or three days in the start of the shooting trips.

Mr. Roosevelt has forbidden all the members of his party to give any information regarding the future plans or movements of the expedition.

There was much alarm in the party when it was discovered that two of the native servants of the party were ill with smallpox. The servants were at once isolated, and other members of the party, taking all precaution against the spread of the disease.

The Mombasa Standard published yesterday a violent attack upon F. J. Jackson, the acting governor of the protectorate, and Roosevelt for allowing only representatives of American newspapers to accompany the Roosevelt special train from Mombasa to Kapiti Plains. This attack is copied to-day by the Nairobi newspapers, and it is said that the Imperial government has asked an explanation from the local authorities for this exclusion of English newspapermen. An exception was made in the case of the representative of an English news agency who was allowed to accompany the special.

JIGS BEST EXERCISE.

Dance, Says Harvard Lecturer, if You Want to Be Healthy.

A revival of the old jigs and clogs and kindred dances as an ideal form of physical exercise was the novel suggestion of Dr. J. Rupert Boyce, in a public lecture last night in Harvard Medical School.

"It is a really pity that we have lost more of the old jigs and clogs," he said. "They were ideal exercises for men, women and youth in the hall room or exercising.

Dr. Blake spoke well of cricket and hockey, and thought, too, a revival of archery would be beneficial. Fencing he endorsed as discipline for body and brain, and especially suitable for women. He though Marathon racing perilous as often conducted and sometimes fatality. Remind won the last Marathon, he said, because better suited to his mild environment in a heated atmosphere for conditions than the other athletes, most of whom were accustomed to run in a 80° degree temperature instead of eighty, as on that day.

OIL AIDING TOBACCO.

Big Trusts Fighting Hard to Get What They Want in Senate.

WASHINGTON, April 24.—Standard Oil influences are busier here at the present time than since the framing of the McKinley tariff law.

The two great fights being waged by the trust are to save a duty on the products of petroleum and to prevent the removal of the internal revenue tax of 6 cents a pound on manufactured leaf tobacco.

Both the internal revenue tax is in the interest of the American Tobacco Company, and the duty on the products of petroleum gives the American Tobacco Company. The tax practically shuts out the tobacco grower of unmanufactured tobacco to the consumers of the natural product. By the removal of the tax he can be sold throughout the South by the grower and the American Tobacco Company can no longer hold a monopoly.

BOSTON STUDENTS IN PLAY.

Original French Drama Will Be Given Wednesday.

The French academy of the college and the high school will present a French comedy in three acts entitled "Les Mem-oires d'un Oncle Philibe" Wednesday evening in Boston College Hall.

This is the first time the last French play was presented at the college. The play this year is being staged by the Rev. George Bellanger, professor of French at the college.

Tickets for the play may be obtained from any of the students of the college or at Boston College, No. 721 Harrison avenue.

BATTLE ON POLICE CHIEF.

Watertown Officer Fighting to Hold His Position.

With the Selectmen standing one for and one against him, and with the remaining member "on the fence," Watertown's chief of police, Michael H. Cooney, is making a strenuous fight for reappointment. Chief Cooney has been at the department for twenty-five years and has been chief for seven years.

The Selectmen claim that if the chief is reappointed he will not serve the full term, while he believes that he is entitled to hold office twenty years if he is retired. Friends of the chief say the opposition to his reappointment is the result of his refusal to stop gambling in Watertown.

NORWOOD MAN MISSING.

August Peterson Disappears for Second Time Recently.

August Peterson of Norwood, a stranger to minded, and his friends yesterday asked the aid of the Boston American in an effort to locate him. Three weeks ago last night he came to Boston with a friend but did not return. He is five feet, seven inches tall, dark complexioned and wore a dark suit.

Nearly a year and a half ago he disappeared and was gone for a number of months. When he returned he told his friends that he had been shanghied and they fear that he has met with the same fate again.

PAINTERS DEMAND RAISE; MAY STRIKE

Will Take Summary Action If New Contracts Are Not Signed on May 1.

A mass meeting of painters under the auspices of Painters and Decorators Union No. 11 at No. 987 Washington street issued an ultimatum to the master painters last night. A strike on May 1 may result.

The demand is for forty-one cents an hour for house painters, against $3.10 paid now for eight hours and forty-six cents the hour for decorators, who now get $2.56 a day of eight hours. The meeting adjourned to meet in the same place on May 2 to take summary action if these demands are not met and new contracts signed on May 1.

The debate brought out the following scale of wages in other cities: New York, $4 the day; San Francisco, $5; Chicago, $4.40; Denver, $4.20; Salt Lake City, $4; Seattle and Spokane, $5; Guthrie, $8, and St. Louis, $4.50.

EARTHQUAKE JARS SPAIN; MANY DEAD

MADRID, April 24.—Heavy earthquake shocks were felt yesterday at Cordova, Seville, Badajos and other points, including this city, Valladolid, Huelva, Herz and Malaga. Everywhere they caused a panic, but no loss of life is reported.

A dispatch from Lisbon says Thursday's earthquake destroyed Benavente. Forty bodies were recovered. Many were injured and hundreds are homeless. Manuel, Duke of Oporto, telled the news of the catastrophe. A hundred thousand dollars has been voted for the relief of the homeless.

COLIMA, Mexico, April 24.—The region heretofore will be depopulated in a few years and millions of dollars worth of property abandoned if Colima volcano continues its activities.

It has been too active of late to suit the inhabitants and they are fleeing from its latest outbreak, which began on the 19th and afterward in an attempt to reach a safer locality.

The strain due to the production of "Salome," which the directors of the Metropolitan Opera Co. stopped after one performance, and the annoyance caused by the noise of Jardin Turque in the Capitol Park monkey house, were largely responsible, it is said, for his condition.

When Mr. Conreid returned last Autumn he was still in feeble health, but his physicians said he was suffering from neuritis, and for several months thereafter Mr. Conried and the board of directors of the Metropolitan Opera House hoped he progressed his rest. He has been in Europe now for the last year.

Keith Employes to Dance.

Employes of Keith's Theatre will give a ball at Huntington Hall, Boylston street, Tuesday evening. A number of novel features will be introduced. The ball will be under the direction of E. A. Reynolds, his aids being C. L. Christien, R. C. Eberhard, Howard Gray, Jr., and Frederick Charles A. Healy and H. E. Aldrich.

Gen. Wood Staff Chief.

WASHINGTON, April 24.—General Leonard Wood, commanding the Department of the East at Governor's Island, is slated to succeed General J. Franklin Bell as chief of staff. The change will not take place until next year.

CONRIED DEATH REPORT IS FALSE

VIENNA, April 24.—A report cabled to the United States today, that Heinrich Conried, formerly director of the Metropolitan Opera Company in New York, had succumbed to a long illness in Meran, Austria, has been found upon investigation to be unfounded.

It was said to-night at Meran, where Mr. Conreid is staying with his family, that Mr. Conreid suffers from his old ailment, nervous prostration, and that his present ens confines undoubtedly gave rise to the rumor of his death from a stroke of apoplexy.

Mr. Conreid was first taken ill in the spring of 1907, and sailed for Europe soon afterward in an attempt to regain his health.

The strain due to the production of "Salome," which the directors of the Metropolitan Opera Co. stopped after one performance, and the annoyance caused by the noise of Jardin Turque in the Capitol Park monkey house, were largely responsible, it is said, for his condition.

When Mr. Conreid returned last Autumn he was still in feeble health, but his physicians said he was suffering from neuritis, and for several months thereafter Mr. Conried and the board of directors of the Metropolitan Opera House hoped he progressed his rest. He has been in Europe now for the last year.

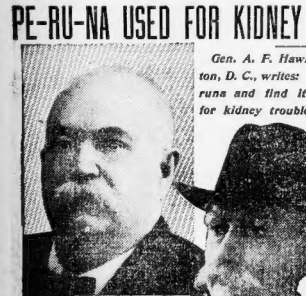
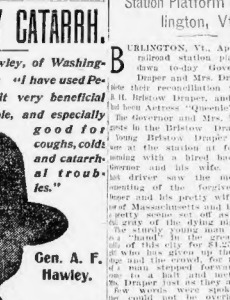
Reynolds, his aids being C. L. Christien, R. C. Eberhard, Howard Gray, Jr., and Frederick Charles A. Healy and H. E. Aldrich.

Gen. Wood Staff Chief.

WASHINGTON, April 24.—General Leonard Wood, commanding the Department of the East at Governor's Island, is slated to succeed General J. Franklin Bell as chief of staff. The change will not take place until next year.

PE-RU-NA USED FOR KIDNEY CATARRH.





Gen. A. F. Hawley, of Washington, D. C., writes: "I have used Peruna and find it very beneficial for kidney trouble, and especially good for coughs, colds and catarrhal troubles."

Kidney Trouble for Nearly Thirty Years.

William Bailey, Past Col. Enc. No. 69, Union Veteran Legion, and prominently identified with many of the great labor protective associations of Delaware and New York, and secretary of one of the largest associations in the former city, had for nearly thirty years been afflicted with kidney troubles.

Within a short period he has been persuaded to try Peruna, and his present health condition is attributed to his judicious use of that great remedy. Washington climate is notoriously bad for kidney and liver troubles, yet by a judicious use of the remedy he is now quite cured and is actively engaged.

This brief statement of facts, without exaggeration or hyperbole, appears to tell the whole story, which the Peruna Company is authorized to use, if it so chooses, believing, as I do, that by so doing it will be for the general good.

William Bailey, 58 I St., N. E., Washington, D. C.

Kidneys Affected—Back Weak.

Mr. M. Broderick, Secretary and Treasurer Local Union No. 406, International Brotherhood of Teamsters, writes from 455 E. 40th St., Chicago, Ill., as follows:

"I have been suffering from a weak back and kidney trouble for a good while, and have been able to find relief only through the use of Peruna.

"During the winter season I usually keep a bottle of your medicine in the house, and by taking a dose at night I am feeling fine the next morning.

"Some of my friends assure me that Peruna is equally as good for their various ailments as it is for my complaint; but I do know that for kidney trouble and suffering from a weak back it has no equal."

Cold Settled in Kidneys.

Mr. Joseph Klee, 215 East 4th St., Topeka, Kas., writes:

"My wife took Peruna for liver trouble and a run-down condition incident to the same. A few bottles built up her health and strength.

"I took Peruna for a cold which settled in my kidneys, giving me much backache. In two weeks I was much better, and in a few months I was well."

For Liver and Kidneys.

Mr. W. H. Armistead, Cumberland, C. H., Va., writes:

"Your Peruna has cured me of chronic catarrh of long standing. I thank you so much for your advice. I think it is a great medicine. It will do all that you recommend it to do. Really I can recommend it to cure all liver and kidney troubles."

Chronic Kidney Trouble.

Judge C. J. Park, R. F. D. 1, Buckhead, Ga., writes:

"For a long time I was troubled with catarrh of the kidneys, and after taking Peruna I feel like a new man. I think it the greatest catarrh medicine of the age, and believe it will cure any case of catarrh on record."

SHAWMUT PRICES

This brass bed is massively throughout, having continuous posts and heavy bucks, filling 54 inches high. The quality is superb. Equipped with 2-in Sofy English golden lacquer. Full size.

14.98

LODGE DRAFTS BILL FOR CITY CHARTER?

Referendum Is Practically Cut From Measure to Be Brought Forth on Monday.

The twelve Republican members of the legislative Committee on Metropolitan Affairs are "stacked on the Boston charter proposition according to men close to the G. O. P. machine leaders, who said last night that they figured in the "stacking" arrangements. There are three Democrats on the committee, and the Republican bosses plan to whip them into line, it is said, by granting them one or two minor points in the charter bills construction. Whether or not they will succeed in lining up the Democratic committeemen is a matter of doubt.

"Stacked" against wiping out party designations, "stacked" for the abolition of the Common Council, "stacked" to bar the voters, as far as they can, from a chance to accept or reject the administrative features of the bill and from the right to vote on the question of continuing the present system of primary nomination for Mayor, "stacked" to do these and a number of other things that the Republican bosses want done—that is what they told last night the "men who know," some of them members of the committee.

Senator J. Howell Crosby of Arlington, and Representative Grafton D. Cushing of Ward 11, Boston, Senate and House chairman of the committee, respectively, will go to-morrow report to the full committee a skeleton bill which they were appointed a sub-committee to draft. Those who profess to know say that the bill has been drafted by Former Mayor Edwin U. Curtis and Edward C. Mansfield, postmaster of Boston and former executive secretary of the Republican State committee. Messrs. Curtis and Mansfield, it is said, drafted the bill along lines laid down by United States Senator Henry Cabot Lodge.

Features of the Bill.

Here are some of the provisions of the Lodge-Curtis-Mansfield bill:

Party designations are preserved. (No referendum.)

Common Council abolished. (No referendum.)

Civil service certification of department head appointments by the Mayor. (No referendum.)

Question of having street commissioners appointed by the Mayor or elected by the people, as now, left open to the committee. (No referendum, either way.)

Power of initiative and absolute veto for the Mayor on board and appropriations. (No referendum.)

A permanent Finance Commission, without pay. (No referendum.)

Mayor elected for two years or four? (Referendum.)

Shall the single Council Chamber have nine, eleven, twenty-five or thirty members? (Referendum.)

Shall candidates for Mayor be nominated by petition or in party convention? (Referendum.) A provision is made for a referendum to the voters as to the continuance of the present system of nominations by primaries.

Seek Democratic Aid.

The plan of the Republican bosses, it is said, is to incorporate in the bill a provision for a City Councilor to succeed to the Auditor's, Treasurer's and Collector's departments, the appointment to be made by Lomasney of Ward 8, Boston, has petitioned for this bill for three years. The Republicans, it is said, to gain the support of that of Representatives Callahan and Brickley, the other Democrats to be won by giving the Controller proposition, represented by Brickley, a declared foe, a will to insist on a referendum on each feature of the charter bill.

Settled Dispute with Knife.

Tennessee Run of No. 15 Hale street is in Station 4 of Police Lower Broadway. No. 1 Causeway street is in the Relief Hospital as the result of a fight last night in which Tennessee Run received a knife wound in the abdomen. Lomas, the detroy say, will probably recover.

Self-Poisoning Constipation

Fills the Blood With Impurities And Causes Skin Diseases.

Constipation poisons the body by rendering the blood impure. The blood becomes simply loaded with all manner of foreign material or impurities, which are absorbed from the large intestine, and carried to all parts of the system, causing headache, sallow or "muddy" complexion, and a feeling of general lassitude.

When a continuous constipation is present, the impurities from the colon or large intestine collect in such immense quantities that the blood cannot be cleansed of them, although the lungs, kidneys, and other purifying organs are compelled to work overtime in their efforts to eliminate them.

They must be eliminated from the system in some way or other, however, for if the accumulation in the blood continues, they will poison the system to such an extent, as will actually cause death, through what is known as auto-intoxication, or self-poisoning.

The blood finding itself unable to eliminate the swiftly-accumulating poisons through the purifying organs, has nothing left to do but send them out through the pores in the form of boils, carbuncles, pimples, blackheads, and other skin eruptions.

Stuart's Calcium Wafers, the principal ingredient of which is that most powerful of all blood-purifiers, calcium sulphide, acts not only on the blood, eliminating all impurities therefrom, but also on the kidneys, liver and bowels, toning them up, so that they are strengthened and become able to resume their functions of eliminators, and to prevent the self-poisoning of the system.

The constipation is also cured, which prevents the absorption of impure or foreign matter into the blood, and as a natural sequence, the pimples, boils, carbuncles, blackheads, and other skin eruptions disappear at once.

Don't make the mistake of attempting to cure skin diseases by the local application of salves, lotions, emollients, etc. You simply drive the disease from one point to another, while the real cause, the impurities in the blood, remains as bad as ever.

Give the blood a thorough spring-cleaning and renovating through the use of Stuart's Calcium Wafers, and you will not be annoyed by the presence of skin eruptions.

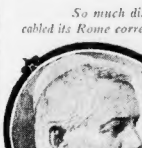
Send a box from your druggist, and rid yourself of self-poisoning constipation and its consequent blood-and-skin disease. Also send us your name and address and we will forward you a trial package free. Address: F. A. Stuart Co., 176 Stuart Bldg., Marshall, Mich.

WHAT THE POPE ACTUALLY SAID ON WOMAN'S RIGHTS

FULL TEXT OF REMARKABLE PAPAL UTTERANCE ON THE NEW FEMINISM

So much discussion has been caused by the brief and incomplete reports of the Pope's recent remarkable expressions on woman's rights that the AMERICAN cabled its Rome correspondent tosecure an official and verbatim report of the papal utterances on that occasion.

Special Cable to the Boston American. Copyright 1909.



ROME, April 24—The following is exactly what Pius X. said on Wednesday, April 21, to a delegation of the Union of Italian Catholic Ladies:

"AFTER creating man, God created woman and determined her mission, namely, that of being man's companion, helpmate and consolation.

"It is a mistake, therefore, to maintain that woman's rights are the same as man's.

"Women in war or parliament are outside their proper sphere and their position.

"There would be the desperation and ruin of society. Woman created as man's companion must so remain, under the power of love and affection, but always under his power.

"How mistaken, therefore, is that misguided feminism which seeks to correct God's work. It is like a mechanic trying to correct the signs and movements of the universe. Scripture, and especially thethree Epistles of St. Paul, emphasises woman's dependence on man, her love and assistance, but not her slavery to him.

"Woman's duties, however, are not confined within the household's walls. She has a great social mission; a place in every charitable cause; work to perform on behalf of the sick, the suffering and the criminal; the protection of women and children. In this great and common action woman should strive to secure the means necessary to exercise the apostolic injunction of social charity."

MARK ANNIVERSARY OF VAST BUSINESS

N. W. Ayer & Son, Advertising Agency Leaders, Show 40 Years of Progress.

PHILADELPHIA, April 24.—The fortieth anniversary of the founding of the house of N. W. Ayer & Son, the leading advertising agency of the country, as well as the successor of the pioneer advertising agency, was celebrated to-night at the Bellevue-Stratford by a banquet tendered by the firm to upward of 500 guests, comprising their 200 odd employes and the most prominent men of the country in advertising circles, journalism and immense enterprises and industries in commercial lines.

This immense second-floor ballroom of the Bellevue-Stratford was taxed to its capacity to accommodate the large assembly. Perhaps never has there been a gathering so representative of the three forces which make advertising—the advertiser, the agent and the press.

It would be impossible to conceive of a more fitting illustration of the growth of the advertising idea as a commercial force than the banquet in modern commerce.

The history of the firm is in itself a romance, recording advertising progress in America. From its beginning the firm of N. W. Ayer & Son has initiated, developed, evolved and improved methods and established the principles upon which now rest it as a prestige and which, as a consequence, governed the principles upon which the best in the entire advertising business is to-day conducted.

The head of the table were the four members of the firm—F. Wayland Ayer, Harry N. McKinney, Rodney L. Brooks and Jarvis A. Wood—together with the guest of honor.

The stage here in its centre a floral representation of the first ad, a circle fourteen feet in diameter, with a wreath of white roses, in the centre of which Ayer's famous motto, 'Keeping Everlastingly at it Brings Success," was picked out in a red of green roses, in ruby electric lamps.

Presentation to Mr. Ayer.

At a given signal, James A. Buchanan, the dean of the business-getting staff, rose in his place, and, catching Mr. Ayer's attention, in a very apt speech presented him with a massive sterling silver loving cup. Mr. Ayer accepted the gift in a most felicitous way, even though he found it difficult to express himself under the circumstances. The cup was a tribute which any man might be proud to receive from his friends, business associates and employees. Upon one side was inscribed the following: "Presented to F. Wayland Ayer by the employees of N. W. Ayer & Son, at a banquet commemorating the fortieth anniversary of the founding of the firm." Upon another side appeared these words: "Bellevue-Stratford, Philadelphia, April 24, 1909."

Upon the third side, "There is no better motto than the time-tried saying that it brings success, and no better example than Ayer's." On the bottom: "F. W. Ayer, Jr., was Mr. Ayer's characteristic style of signature affixed to the many documents which have passed through his hands in the past forty years.

In 1867 Nathan W. Ayer, a native of Connecticut and a graduate of Brown University, removed from Western New York to Philadelphia to continue in a private school the work of teaching, in which his life had been devoted.

In 1868 his son, F. Wayland Ayer, then a student in the University of Rochester, New York, followed him to Philadelphia to seek his fortune in business. Without friends, acquaintances or business experience, he did not readily find remunerative employment, and, as a temporary expedient, accepted an engagement as solicitor of advertising for a religious weekly newspaper.

History of the Firm.

April 1, 1869, the firm of N. W. Ayer & Son was announced, George O. Wallace was its first employe.

In 1873 Mr. N. W. Ayer died, and at the beginning of 1874 Mr. F. Wallace was admitted to an interest in the business, which continued until his death, in 1887.

Henry N. McKinney entered the employ of the house in 1875, and became a partner in 1877.

Albert G. Bradford removed from Albany, N. Y., and came to enter the employ of the firm, and was admitted into partnership in 1880.

Jarvis A. Wood engaged with the house in 1888 and became a partner in 1891.

April 1, 1869, the Ayers, father and son, started the advertising business at 300 Arch street, with an investment of $256. In the Fall of the same year they removed to 710 Sansom street. In January, 1872, larger quarters were again necessary, and they went to 733 Sansom street.

Again outgrowing their accommodations, they removed in 1876 into the building then being erected for the Philadelphia Press at Chestnut and Eighth streets. Here they remained for 28 years, having gradually extended over four floors of the Times building and three floors of an adjoining building.

Early in 1903 the firm removed to the Mariner and Merchant Building, Chestnut and Chestnut streets, where it occupies several floors, and where additional space has several times been taken, including quarters in adjoining buildings.

Starting without any employes, the Ayer & Son family, as they term it, has run sinadily growth. In 1876 it numbered 26; in 1884, 125; in 1903, 200, and at the dinner celebrating this birthday, there were 203.

Among those are many who are expert in some particular essential to successful advertising; and, as a whole, they form an organization that has no peer in the advertising world.

The Ayer & Son Agency is a Philadelphia institution.

The first general advertising agency was established in Philadelphia in 1841 by Volney S. Palmer.

His office was first on Pine street, above Third, but soon at Third and Chestnut streets. He also opened offices in New York and Boston.

In 1858 his Philadelphia and New York business was purchased by Joy, Coe & Co. The Boston branch was disposed of to N. P. Niles, now deceased.

Mr. Joy handled the New York end of the Joy Coe & Co. business, and Mr. Coe the Philadelphia end, under the style of Coe, Wetherill & Co., until 1865, when this firm sold out to N. W. Ayer & Son, who, to-day, as the first advertising agency in rank, are doing business in the facility occupied by their predecessor—the first advertising agency in history.

Ayer & Son's definition of an advertising agent is "one who creates, develops, distributes and cares for advertising other people's ware."

Their famous open-contract plan has necessitated the method of advertising transforming the agent from a canvasser, whose chief concern was to get an order for something on which he could get out so much per cent., to a trusted, alert and trustworthy counselor with the business man who has something worth while to sell.

Revolutionized Industry.

The plan they originated, which concedes the right of an agent to a reasonable profit and places the agent and the advertiser on the same side of the counter as sellers, has revolutionized American advertising and with their organization it has made them as different from the old-time agent as a large department store is from a pack peddler.

The first year Ayer & Son's business was $15,000. In ten years they were doing the largest business in their line, a position which has been maintained by them ever since.

Their explanation of this growth is that they have made advertising pay the advertiser.

They carry on their books on an average 18,000 open accounts with publishers, and the amount they have paid the newspapers of this country exceeds $50,000,000.

We Have Received a Complete Line of the Celebrated

E. Burnham Toilet Preparations

These preparations are scientifically compounded, of the purest ingredients, are absolutely harmless, and will do all that is claimed of them.

Call at our store and ask about these preparations and secure samples and copy of the E. Burnham Booklet,

"How to Be Beautiful."

TWO MEMBERS OF BIG ADVERTISING FIRM IN ANNIVERSARY BANQUET

WEEKS SEES TARIFF CHANGE DOWNWARD

Congressman Expects House Will Pass Measure in First Part of June.

Congressman John W. Weeks of Newton thinks that the tariff bill, which he predicts will be reported back to the House about May 20, will show a general revision downward in custom duties. He thinks it will be passed by the House between June 1 and 10, and that its enactment into law soon after that depends on Senate action in regard to an income tax amendment.

If the Senate puts an income tax amendment on the bill, the congressman from the Twelfth Massachusetts District expects discussion more or less prolonged.

He is a member of the Monetary Commission, and says it is likely to make a report by next Winter, but he has no idea now as to what will be recommended. In the matter of coinage, he says, favor a central bank like the Bank of France, while others are more opposed to copying like a central institution of that nature.

On the tariff bill, Mr. Weeks says:

"I believe that the final bill will show a general revision downward, although it is likely that some articles will be marked up. The members of the House from the several parties compromise on disputed points, as it is essential to pass the bill as early as possible. It is generally felt that business is ready to move ahead rapidly as soon as the tariff is definitely settled, and therefore every one is anxious to prevent any unnecessary discussion."

Bryce Talks on Darwin.

PHILADELPHIA, April 24.—James Bryce, the British ambassador to the United States, delivered an interesting address on charles Darwin before the American Philosophical Society. Mr. Bryce spoke on the erroneous impression produced by the "Origin of Species" on its first publication. He also told of Mr. Darwin's appearance and character, and dwelt upon the charm of his singular simplicity and modesty.

CHURCH WIPED OUT; PASTOR RISKS LIFE

Fire in West Newbury Threatened to Destroy Postoffice and Many Homes.

HAVERHILL, April 24.—Fire destroyed the Second Congregational Church at West Newbury last night and for a time threatened the whole town. Flying embers set fires all over the place and St. Anne's Catholic Church, the postoffice and seven private dwellings were all ablaze at one time.

The fire, starting from a defective flue in the Congregational Church, was discovered by the pastor's daughter, Marion Cameron, daughter of the pastor, Rev. Alexander J. Cameron, who run into the rear of the church and up into the steeple to sound the alarm. The bell on the church serves as the fire alarm. As he was leaving he fell blinded by smoke. With an effort he raised himself and seizing the bell rope swung himself through the doors of the burning building.

The local fire department was insufficient to cope with the flames. Help was summoned from Haverhill. After a hard run the pacemaker adjoining the church was saved. The scores of roof fires were extinguished and the fire was under control at 9 o'clock.

The church was valued at $10,000. It was insured for $4,200. At 5 o'clock yesterday afternoon contractors completed a $3,000 repair job on the building. The entire loss will exceed $15,000.

Dog Saves Family.

JACKSON, Miss., April 24.—The family of Joseph Sinkbinder, his wife and two children, when their home, three miles south of the city, was burned by persistent barking of their dog last night. Mr. and Mrs. Sinkbinder, who rescued the children and themselves. The dog was cremated.

GET WOBURN CLEW TO LEONARD GIRL

Cambridge Police on New Hunt for Young Woman Missing From Home 9 Days.

Late last night the Cambridge and Woburn police found what they think is a clue to the whereabouts of pretty Mary Isabella Leonard, who has been strangely absent from the home of her uncle and aunt, Mr. and Mrs. John F. Foley, No. 84 Elm street, North Cambridge, for nine days. Mrs. Churchill, proprietor of the Bennett House in Woburn, reported to the police that a young woman answering to the description of the girl had been at her house since last Monday and had departed suddenly, leaving a note that she was going home and would send the money for her board.

Mrs. Churchill said that the young woman had given her name as Isabella Deacon. She said the girl had told her she was a stenographer working for Attorney George W. Norris of Woburn. Mrs. Churchill yesterday, after her boarder had vanished, called the Attorney Norris, but he disclaimed all knowledge of the girl.

When the Woburn police reported the clew to the Cambridge police inspectors Whelan and Nelan at once started out to hunt some further trace of Miss Leonard.

Mrs. Foley, the girl's guardian since her mother died, is almost prostrated with anxiety.

ELECTED BUT LOSES.

Lawrence Man, Late with $5,000 Bond, Loses Position.

Because he failed to file a bond for $5,000 within ten days after his election as superintendent of public property, Edward Presbrey of Lawrence lost his position. This was decided yesterday by Judge Bailey in the Superior Court. Presbrey was elected by the Board of Aldermen in January. When the time expired for filing a bond, the board elected Patrick J. Heaney. Presbrey sought to have him displaced by the court.

FOUND: A JAGLESS BEER FOR DRY CITY

New York Scientist Discovers Secret, Bringing Joy to Prohibition Districts.

NEW YORK, April 24.—The discovery by Max Wallerstein, a graduate of the University of Munich and a recognized authority on fermentation, of a process for the manufacture of a non-intoxicating beer from malt and hops containing less than one-half of 1 per cent. of alcohol will, it is said by many in a position to know, put an entirely new phase on the prohibition question.

The first direct result of the discovery will be demonstrated at Fall River, Mass. At the recent election that city went dry, a law having been passed which prohibited the sale of drinks containing more than 1½ per cent. of alcohol. This meant the practical destruction of the brewing properties and the loss of the revenue to the city.

By Dr. Wallerstein's discovery, the brewery, without the expenditure of an additional dollar, will continue in full time making beer, but beer that is within the requirements of the new statute. There is no difference in the ingredients. The result was accomplished by a careful study of temperatures while the malt and hops are being mashed.

Analysis shows the same ingredients and same percentages of ingredients in the new beer as in the old, with the exception that instead of 3 per cent. alcohol as in the old there is but one-half of 1 per cent. in the new beer.

At a dinner in his home No. 103 East Ninety-first street, attended by several prominent New York brewers, Dr. Wallerstein without their knowledge served the beer. When they had drunk all I wished he announced the facts to "They refused to accept the matter out further evidence. This w Dr. Wallerstein then arranged to the patent process for various territories.

Fall River is the first prohibition center where the new process will be used. This news also means that millions of dollars in capital and hundreds of workmen in the South may again be put to work. It means that one of the economic problems which prohibition presented will, in a measure, be solved. Growers of hops and malt who have protested demand for their crops. The output of beer of the non-intoxicating kind is expected to be increased and manufacturers of brewers supplies will find increased market for their goods.

It is even predicted that soda fountains will secure real beer if Dr. Wallerstein's statements made at the meeting of the student body of the college of the city of New York are correct. In a word, the new beer contains less alcohol than ginger ale or root beer and that it is absolutely impossible to become intoxicated from drinking it.

FREE HIDES SURE, DECLARES HOYT

President Charles C. Hoyt of the New England Shoe and Leather Association, is in Washington to appear before the ways and means committee on the tariff bill. In spite of disquieting reports to the contrary, Mr. Hoyt believes that the free hide advocates will be strong enough to hold their own when the final tariff fight comes in the Senate.

The New England Shoe and Leather Association has sent Charles H. Jones to Washington to look after the "best interests of free hides" and every confidence is felt that good results will flow from his mission.

When asked by the Sunday American yesterday morning as to what he thought were the prospects of hides being on the free list when the tariff bill passed, President Hoyt said:

"Why, our old friends in the Senate and I believe Representative Payne is on our side. Knowing these facts we have every reason to be hopeful. Mr. Jones' report will tell us how the situation lies.

ELIOT SEES PERIL IN LABOR WARFARE

Charles E. Littlefield at Banquet Explains "Pussy Footedness" of Congressmen.

"I believe that industrial strife is the worst evil that will threaten this country during the next generation," said President Charles W. Eliot, of Harvard University, in a speech following the dinner of the Massachusetts Reform Club at Young's Hotel last evening. "It is now impairing prosperity and interfering with the full development of the national character. It works against the national good will.

President Eliot was introduced by James P. Munroe, president of the club, as "the chief citizen of the United States." He said in part:

"Never before in the history of the country has there been such a formidable combination of voters in favor of extremely vicious labor legislation, or legislation supposedly in the interest of organized labor, and which threatens the welfare of the country.

"Notwithstanding the somewhat gloomy outlook I find encouragement for the future in certain conditions. President Taft's election, in the face of the opposition of the labor agitators, was encouraging, especially in view of the fact that he refused to apologize for or deviate from the declaration by some labor advocates, to labor interests, which he rendered from the beach.

"I also find encouragement from the belief that within the trades unions themselves it is now safe to have conservatives deliver the votes of the organization, as a whole, by the ballot.

The remedy for evils among monopoly of capital and monopoly of labor, he said, could never come through legislation, but through publicity.

Charles E. Littlefield, formerly Congressman from the Second District in Maine, and who was opposed in his last campaign by most of the leaders of organized labor, was the first speaker.

Declaring the belief that most members of Congress lacked the moral backbone to vote as their constituents dictated on measures backed by organized labor, or any other numerous body of electors, he said this lack of moral stamina accounted for the "pussy-footedness" of so many Congressmen.

MRS. GOODWIN TUMBLES.

"My Word," Gasps Nat, and Bystanders Come to Rescue.

EL PASO, Texas, April 24.—As Nat and Mrs. Goodwin left their private Pullman car, Iolanthe, for the Juarez (Mex.) meeting, Mrs. Goodwin stumbled on a rail and fell flat on the platform of the Union Station. Nat looked at her in surprise, leaned heavily on his cane and said: "My word! Edna!" Bystanders picked her up unhurt. She broke several trinkets she was carrying.

Boston Man Cunard Manager.

Charles P. Sumner of Boston has been appointed as American manager of the Cunard Line Steamship Company of New York. Mr. Sumner succeeds Vernon H. Brown, whose resignation was announced to-day.

"REAL DEBT CAN NEVER BE PAID," SAYS MISS FARRAR OF SALEM WOMAN'S LOA

"Shall Always Feel Under the Deepest Obligation for the $34,000 She Advanced."

CHICAGO, April 24.—Here is Miss Geraldine Farrar's first statement concerning the loan of $34,000 received from Mrs. Webb of Salem, Mass., for her musical education abroad. It was given at Rector's after the opera. Miss Farrar was supping with friends and was warmly applauding ragtime music.

"The American spares no deal in such cases," said Miss Farrar, "is to pay back the money, acknowledge the debt of gratitude and then say as little as possible about it."

The star had just come from the Auditorium in company with several Metropolitan Opera Company singers, and the contrast between the heavy music of the opera she had just been singing and the Blithe airs as "I Think I Hear a Wood-bird Singing" and "Don't Take Me Home" and "Sunny Italy" seemed to please her. The singer has attended only one musicale since. Miss Farrar applauded until she split her gloves while doing so.

"Isn't it bubbly and gay!" she exclaimed.

And then she got to talking about the loan she had obtained from Mrs. Webb. The subject has attracted much attention lately because of the notoriety that has attended a similar loan made to Mary Garden by Mrs. David Mayer, and repaid without publicity only when suit was threatened.

"I don't believe Mrs. Webb would like to have me talk about the loan," said Miss Farrar. "For my part, I should never hesitate to talk about it openly, but Mrs. Webb is out of the country now. Mrs. Webb is out of the country now. I understand, and I know her well enough to appreciate her modesty.

"Such debts as that can never be paid, and to be continually talking about them is not pleasing to such women as Mrs. Webb.

"I have repaid the $34,000—oh, of course! But there is more than money in a transaction of that kind. There is deeper obligations and always shall. Having said that, I feel that the best thing to do under the circumstances is to say nothing. That is my American idea of honest gratitude.

"Too much has been said about another case of the same kind. It is not pleasant to hear such discussions, and, in my opinion, it is not fair."

Miss Geraldine Farrar.

SALEM BENEFRACTRESS KEPT SECRET FOR TEN YEARS, SAYS DAUGHTER

HOW GERALDINE FARRAR, the prima donna, who was born and lived in Melrose, became acquainted with Mrs. William G. Webb, society woman and patron of art and music, with a home in Salem and chateaux in Paris and Capri, to whom Miss Farrar has just repaid the last instalment of a $34,000 loan, which her benefactress had advanced to pay for her musical education in Europe, is told to-day for the first time by Mr. Nat S. Sanders, a daughter of Mrs. Webb, who divides her time between her homes in Cambridge and Danvers.

For ten years all Europe and America has been mystified as to who Geraldine Farrar's sponsor and patroness might be. Many names have been mentioned. Only last week it developed that the operatic star was enabled to carry on her musical studies abroad through the munificence of Mrs. William G. Webb, daughter of the late Captain John Bertram, one of Salem's wealthiest men, who made millions in the India trade when the old East India line was a big seaport.

Mrs. William G. Webb, to whose agents the final instalments of the original loans have been paid, with five per cent. interest, through Miss Farrar's insistence, was born and brought up in the famous old Bertram Colonial mansion on Federal street, in the most aristocratic part of Salem. It was in this house, with spacious halls and rooms and exquisite East Indian furnishings, that Washington was entertained while visiting in Salem, by a grandfather, given in his honor by the Bertrams. The Bertrams were then, as they are now, one of the first families of the place.

Stops at Nothing.

It was through Mrs. Webb's wish that up till now her name has been withheld in connection with the discovery and development of Geraldine Farrar's talent, for ten years, however, Mrs. Webb has taken a deep interest in the operatic star. She has watched her develop from a slip of a girl, unknown and unheard of, to one of the finished of opera artistes, sought after by kings, queens and princes in all of the countries of Europe. And when Mrs. Webb takes an interest in a singer or an artist, as her daughter says, "she will not stop at anything."

Mrs. Nat S. Sanders was seen at Wheelock's, the extensive Haverhill estate of her father-in-law, Thomas Sanders, one of the wealthiest residents of the city, where she is spending a week with her husband and two sons. She has figured in many of the exclusive society events of Cambridge, Boston, Salem and Haverhill.

"Yes, I will be glad to tell you all I know of the friendship of my mother and Geraldine Farrar," said Mrs. Sanders as she seemed inclined in a chair before the fire that was burning invitingly in the little open fireplace in the spacious parlor of the hall. "I know Miss Farrar quite well myself and have always admired her. She certainly is a wonderful young woman. She has fulfilled all my mother's expectations.

"As I remember, it was in the Spring of 1899 that my mother's attention was first called to Geraldine Farrar, who was then in her teens. A friend, a Bostonian, and was a Boston woman, told mother that there was a very promising young girl, with a remarkable voice, studying under Mme. A. H. Long in Boston. At this time my mother became interested at once, and she was introduced to Mrs. Long. Farrar.

"Then the next time mother visited Boston she called on Mrs. Long and heard Miss Farrar sing. Mother was delighted with her voice and her singing, and she at once suggested that Geraldine and her parents should accompany her on her intended trip to Europe that September, so that she might be given the fullest opportunity to develop her voice, under the best masters in Europe.

"It was then that Mrs. Webb advanced Miss Farrar the first loan and the Farrars sailed with my mother on September 20, 1899.

"In France, Miss Farrar studied under Trabadello, who was then in Paris. From time to time, when the prima donna visited herself, Mrs. Webb loaned whatever money Miss Farrar needed. Both my mother and the Farrars understood that the money was not a gift. The foreign opera studies was very conscientious. She did not want to contract any more debts than were absolutely essential to her finishing education in music. You can see just about how much it cost for Miss Farrar's European education, because the $34,000 that my mother loaned her paid in full for the instruction.

Asks for No Credit.

"Mother has always felt that she deserved no credit for Miss Farrar's successes here and abroad and she will dislike the publicity that has been given her since it became known that she was the person who had taken such a deep interest in Miss Farrar. At present my mother is automobiling from her villa at Capri, Italy, to Paris, where she spends a good deal of her time.

"Well, after completing her studies in Paris, she went to Germany. There she continued her studies under Graziani, but persevered and she deserved the good fortune that befell her. Always my mother was deeply interested in Geraldine, and it was a great source of disappointment to her that she was unable to attend the wonderful debut in the Royal Opera House, in August, 1901, when the directors waived the invariable rule and allowed Miss Farrar to sing Margerita in Faust instead of Germam. Mother says that was the beginning of her triumph. The next morning Miss Farrar signed a contract for a very large salary and she soon became the queen of German grand opera.

"Visits were exchanged while Geraldine was in Germany between her and mother. Time after time she was the guest of honor at my mother's chateau, just outside of Paris. Never did she come as a professional, but always as a good friend of the family. And it went on, whenever Geraldine needed financial assistance, her mother was glad to render it. She has always appreciated my mother's kindness. Geraldine is a woman who deserves much credit for her successes because the person served and she accomplished in a remarkable brief time what very few singers have ever achieved.

Never Forgot Friends.

"Her subsequent successes, how she captured the admiration of the Kaiser and the Kaiserin, and won audiences in Europe and America everyone knows. With all the success and with hosts of admirers she has not forgotten her old friends and her head has not been turned.

"During the past few years, Miss Farrar has been repaying Mrs. Webb, and recently paid the final instalment which covered the debt up. The original loan was $10,000 and later the balance of $24,000 was advanced.

"Mrs. Farrar has proven herself an artiste of exceptional ability and has amply demonstrated that she merited the interest that mother has taken in her."

Mrs. William G. Webb has aided many singers and artists, both in this country and in Europe. At present she is evidencing a keen interest in a German opera singer, whose future she believes is to be one of much brilliancy and promise. Mrs. Webb's social position in Paris, Berlin and Capri is very high and she entertains lavishly in her magnificent villas. Mrs. Webb spends the greater part of her time in Europe and come to this country but occasionally. Captain John Bertram, her father, was one of the founders of the East Indian Marine Society of Salem and models of his vessels as well as many of his gifts are displayed in the museum of the Peabody Academy of Science on Essex street, Salem.

RAID BEVERLY HOTELS.

Police Visit Three and Make Seizures at Two.

BEVERLY, April 24.—Police Chief Ferguson and three of his men made the first liquor seizures here in months to-day when they visited three hotels. No arrests were made, but a small quantity of liquor was taken. At the Beverly Hotel they found a bottle of whiskey. They found two bottles partially filled in the Park Hotel, and none at all at the Trafton Hotel. The evidence will be submitted to Judge Sears of the First District Court in Salem Monday.

Boston Boats in Collision.

NEW LONDON, April 24.—The schooners N. B. Ayer of Bangor and John A. Beckerman of Boston collided in Long Island Sound to-day and were both badly damaged. Distress signals brought help and both were towed into port.

Quits Postal Berth.

Postoffice Inspector Donald E. McLeod of Boston has resigned, to take effect May 8. He will join the investigation department of a New York life insurance company.

PUT 15 PER CENT. TARIFF ON HIDES

Senate Committee Takes Up Schedule; Democrats to Force Income Tax Vote.

WASHINGTON, April 24.—At a prolonged session of the Senate committee on finance to-day, it was agreed that the duty on steel should remain where it is; or that if an alteration at all is made, the tendency should be upward instead of downward.

A tentative draft was prepared relating to the maximum and minimum rates as desired by President Taft, but no action was taken on it, the measure going over until Tuesday for further consideration.

Hides are to have an ad valorem tax of 15 per cent. What is to become of coal is undecided. There is to be a compromise on wood pulp, the scheme being to satisfy Senator Hale who wishes the duty to remain as it stands in the Dingley bill, and to partially accede to the demands of those who demand wood pulp free.

Senator Root was before the committee explaining the maximum and minimum rates as they apply to foreign countries complying with the conventional rates of countries for certain articles. It is said tonight that he appeared before the committee at the suggestion of President Taft that he might explain the administration's attitude.

It developed tonight that either Senator Bailey or Senator Cummins will take the floor either on Monday or Tuesday next upon the income tax. Senator Bailey is willing, it is said, to accept the Cummins amendment, while the Senator Cummins is willing to agree to the Bailey measure.

The plans of the Democrats is to force a vote on the income tax before any of the tariff schedules are considered. Senator Cummins, who has made a canvass of the Senate, claims that there are forty-eight members who will vote for the tax, and more than is necessary. The Republicans dispute this, claiming that Smith and Bailey of Texas, Clark of Arkansas and another Democrat, whose name is not given, will vote with the straight Republicans against any such bill.

Captivated by Voice.

"After the interview, it was decided that the Farrars should bring Geraldine to Boston to spend some time in Cambridge that month, and that she would hear her sing in the country. This was done, and my mother was captivated with the girl's voice. She at once suggested that Geraldine and her parents should accompany her on her intended trip to Europe that September, so that she might be given the fullest opportunity to develop her voice, under the best masters in Europe.

It was then that Mrs. Webb advanced Miss Farrar the first loan and the Farrars sailed with my mother on September 20, 1899.

"In France, Miss Farrar studied under Trabadello, who was then in Paris. From time to time, when the impresario presented himself, Mrs. Webb loaned whatever money Miss Farrar needed. Both my mother and the Farrars understood that the money was not a gift. The foreign opera studies was very conscientious. She did not want to contract any more debts than were absolutely essential to her finishing education in music. You can see just about how much it cost for Miss Farrar's European education, because the $34,000 that my mother loaned her paid in full for the instruction.

Asks for No Credit.

"Mother has always felt that she deserved no credit for Miss Farrar's successes here and abroad and she will dislike the publicity that has been given her since it became known that she was the person who had taken such a deep interest in Miss Farrar. At present my mother is automobiling from her villa at Capri, Italy, to Paris, where she spends a good deal of her time.

"Well, after completing her studies in Paris, she went to Germany. There she continued her studies under Graziani, but persevered and she deserved the good fortune that befell her. Always my mother was deeply interested in Geraldine, and it was a great source of disappointment to her that she was unable to attend the wonderful debut in the Royal Opera House, in August, 1901, when the directors waived the invariable rule and allowed Miss Farrar to sing Margerita in Faust instead of Germam. Mother says that was the beginning of her triumph. The next morning Miss Farrar signed a contract for a very large salary and she soon became the queen of German grand opera.

"Visits were exchanged while Geraldine was in Germany between her and mother. Time after time she was the guest of honor at my mother's chateau, just outside of Paris. Never did she come as a professional, but always as a good friend of the family. And it went on, whenever Geraldine needed financial assistance, her mother was glad to render it. She has always appreciated my mother's kindness. Geraldine is a woman who deserves much credit for her successes because the person served and she accomplished in a remarkable brief time what very few singers have ever achieved.

Never Forgot Friends.

"Her subsequent successes, how she captured the admiration of the Kaiser and the Kaiserin, and won audiences in Europe and America everyone knows. With all the success and with hosts of admirers she has not forgotten her old friends and her head has not been turned.

"During the past few years, Miss Farrar has been repaying Mrs. Webb, and recently paid the final instalment which covered the debt up. The original loan was $10,000 and later the balance of $24,000 was advanced.

"Mrs. Farrar has proven herself an artiste of exceptional ability and has amply demonstrated that she merited the interest that mother has taken in her."

Mrs. William G. Webb has aided many singers and artists, both in this country and in Europe. At present she is evidencing a keen interest in a German opera singer, whose future she believes is to be one of much brilliancy and promise. Mrs. Webb's social position in Paris, Berlin and Capri is very high and she entertains lavishly in her magnificent villas. Mrs. Webb spends the greater part of her time in Europe and come to this country but occasionally. Captain John Bertram, her father, was one of the founders of the East Indian Marine Society of Salem and models of his vessels as well as many of his gifts are displayed in the museum of the Peabody Academy of Science on Essex street, Salem.

HOUGHTON & DUTTON CLERKS IN MUSICAL EXTRAVAGANZA

Houghton & Dutton Co. employes to give grand musical extravaganza in May in Jordan Hall.

PASTORS TAKE UP CAUSE OF LABOR

At the annual diocesan convention of the Episcopal church in Trinity Church parish rooms next Wednesday some attention will be given to organized labor. In a report of the committee, of which Rev. Dr. Van Allen, rector of the Church of the Advent, is chairman, this statement about labor appears:

"The church which has the Carpenter of Nazareth for founder and head is necessarily sympathetic with all legitimate associations for the improvement of the condition of wage-earners. She consistently maintains that in the economic principles of the Gospel of the Incarnation will be found the evolution of all questions arising between capital and labor. In the desire to further among churchmen a better understanding of the labor questions we have obtained through the courtesy of Mr. Henry Abrahams, secretary of the Boston Central Labor Union, the following list of speakers, who are willing to deliver addresses in nearby parishes: Henry Sterling, Arthur Huddell, of Boston; James Duncan, first vice-president, A. F. of L.; Quincy; William Stanesmore, John F. Tobin and C. L. Baines, of Boston.

The convention will advocate social work among immigrants, distribution among them of literature printed in different languages to help the foreigner to the foreign born people in their efforts to make worthy Americans of their coming partners.

The committee will also urge on the clergy to think strongly and preach against "whatever makes drunkards out of God's Children" and will also call attention to the waste of infant life and the need of more playgrounds. It will stop to it, as it is known to exist to-day in Massachusetts the high death rate among children and the employment of women in the mills will be discussed.

This is the first time in its history that the diocesan convention has openly proposed these objectives.

The other members of the committee are the Rev. Dr. Addison of Brookline, the Rev. Thatcher R. Kimball of Dorchester and Messrs. Frank Mumford, Philip S. Parker, F. A. McDuffie, Charles Edward Arnory Winslow and Jonathan T. Lincoln.

CATHOLIC LODGES MAKE GOOD GAINS

In the coming week thirty-nine candidates will be initiated into the Massachusetts Catholic Order of Foresters. They will join the following courts:

St. Mary, Roxbury, 100; Unity, of Bridgewater, 15; Joan of Arc, of Rockland, 25; Immaculate Conception, of Haverhill, 20; Mount St. Joseph, of Lowell, 30; Mount St. Mary, of Boston College, 30; Mount St. Joseph, of Roxbury, 30; Court Sacred Heart of Middleboro will celebrate its sixteenth anniversary Monday, May 10. The committee of arrangements is: John J. Mahoney, M. J. Baker, E. P. O'Toole, Mrs. Alice J. Baker, Miss Lena Phelan, Miss Nellie Mahoney, Miss Jennie O'Toole and Miss Annie Sunple. Dennis H. Maguire, H. V. C. Rafuse, Dr. Joseph Dunham, A. E. Jones, Hanna, H. L. S., and M. J. Cunningham, D. H., and R. E. Gill will entertain the guests at the ninth anniversary of Owen A. Galvin Court, Wednesday evening.

Charles E. Benning, H. C. B., and Daniel A. Sullivan, H. C. R., will officiate at the installation of St. John Court of Hyde Park, Monday evening.

Captain Joseph G. Fennessey, P. H. C. R., H. O. S., and Past Captain Joseph H. Lyons, H. C. R., and Mrs. Elizabeth A. Bradley, D. H. C. R., will be the guests of the Sacred Heart Court of Lynnfield, Monday evening.

Captain Joseph G. Fennessey, P. H. C. R., and Cornelius M. Duggan, H. J. C., will be among the guests of the ladies' auxiliary of St. John Court of Hyde Park, Monday evening.

Captain Joseph G. Fennessey, P. H. C. R., H. O. S., and Past Captain Joseph H. Lyons, H. C. R., and Mrs. Elizabeth A. Bradley, D. H. C. R., will be the guests of the Sacred Heart Court of Lynnfield, Monday evening.

Captain Joseph G. Fennessey, P. H. C. R., and Cornelius M. Duggan, H. J. C., will be among the guests of the ladies' auxiliary of St. John Court of Hyde Park, Monday evening.

Captain Joseph G. Fennessey, P. H. C. R., H. O. S., and Past Captain Joseph H. Lyons, H. C. R., and Mrs. Elizabeth A. Bradley, D. H. C. R., will be the guests of the Sacred Heart Court of Lynnfield, Monday evening.

STRAUSS A PLAGIARIST?

Portions of "Elektra" Paralell a Work by Gnecchi.

Special Cable to Boston American.

ROME, April 24.—A bombshell in the musical world has been exploded by the publication of a pamphlet intimating that Richard Strauss, in his new opera of Elektra," has used a number of themes identical with the themes in the opera of "Cassandra," written by a young Italian composer, Vittorio Gnecchi, produced in Bologna and published by Ricordi in 1905.

The pamphlet, written by T. Baldini, published by Fratelli Bocca of Turin, includes a number of musical examples setting forth in parallel columns themes, combinations and even long passages from the Strauss opera and the Gnecchi opera.

DOLCE FAR NIENTE

"Sweet Idleness"

This is the time of year when all prepare for the enjoyment of the LAZY DAYS to come.

What is better than MUSIC and what if anything is capable of producing better MUSIC than the

Victor Talking Machine

The indolence and idleness enjoyed during the SUMMER VACATIONS may be appreciated more with the possession of this almost HUMAN MUSICAL INSTRUMENT, than in any other way. It fits into the life of those who own a YACHT, or a CANOE, and spend much time upon the Water, fully as well as those who live in Beautiful Summer Homes, and spend their time in the Mountains and Hills.

The entire realm of MUSIC is at the owner's command. GRAND OPERA, SYMPHONY ORCHESTRAS, BRASS BANDS, SOLOS on STRINGED INSTRUMENTS by CELEBRITIES, HUMOR and PATHOS by Celebrated ARTISTS. In fact everything necessary to AMUSE and INTEREST those who seek REST and PLEASURE during the SUMMER MONTHS.

PRICES of MACHINES range from $10.00 to $500.00 each. RECORDS from $0.60 to $7.00 each.

New Victor Records for May on Sale in Our Victor Reception Rooms April 28th

PLEASURE-SEEKERS WELCOME. Price lists and terms FREE for the asking.

OLIVER DITSON COMPANY

150 Tremont Street, Boston

Two Performances to Be Given on May 6 and 7 in Jordan Hall.

IT has become almost a habit for the employes of large department stores to give an annual entertainment, generally on the lines of a minstrel show, and many clever shows have been presented but one of the most unique features will be presented when the employes of the Houghton & Dutton Co., under the auspices of the Athletic Association, place on the boards their grand musical extravaganza entitled "Beauty and the Beast."

The cast is as follows: Zephyr, Alice Cochran; Dwerdrop, Mollie Kerrigan; Queen of Fairies, Miriam Solomon; Maigold and Dressalinda, daughters of Mill, Martha Marcoux and Marietta Emery; Hill, James Galvin; Beauty, another daughter, Sara Cantor; Quilt, Hill's Secretary, Angus McKinnon; Beast, Roderick Matheson; Evil Genius, Burton G. Wetmore.

Apart from the clever rendering of the fable itself, the program will contain many exceptionally fine special features, among the following: Miss Alice Patton, the Three Amigos, the Boylston Quartet, Minard Steinhauser, Herbert Hicks, Robert Adams, Eugene Campbell, Keefe Brothers, and Fred and Le Roy Young. Harry Lee, R. Church and Claude W. Sparry.

The performance will be staged under the direction of Thomas A. Miller, assisted by Miss Julia Fenerty, director of dancing, and Ralph Le Roy Harlow, musical director.

The arrangements are in the hands of a committee, with E. P. Morse chairman. Following is a list of those taking part in the chorus and the many special dances and sketches that will be presented at the two performances at Jordan Hall, Thursday and Friday, May 6 and 7:

Gertrude Jordin, Mary Keefe, Cassie Kelleher, Marie A. Lynch, Genevieve McIntyre, Mable McDermott, Mae G. McHugh, Elizabeth McIntosh, Irving J. McKenzie, Alice M. McKeon, Matilda Morgan, Mary Mahoney, Margaret Mahoney, Alice Peck, Nora Peck, Frederick Flowers, Quincy Jan, Alice Richards, Florence Robinson, Anna Sullivan, Mary Scott, Rose M. Strange, Minnie Tarbell, Grace Williams, Agnes Wheeler, Madeline E. Wood, Emma Young, Mabel Young, Elizabeth Bellows, Barbara Brown, Jennie Bowers, Bessie Bowers, Bernice Crane, Annie Hall, Helen H. Corbett, Florence Carey, Gladys M. Cooper, Gertrude Cooper, Mary Cooper, Ruth Cooper, Lizzie Dolan, Helen Fletcher, Gladys Gilmore, Katherine Gilmore, Lena Glass, Esther Goldsmith, Gertrude Grahn, Margaret Hatchett, Agnes Heinemeyer, Edith Heinemeyer, Alice Jacob, Anna Jacob, Antheopie Jones, Minnie Jacob M. Cohen, Archie De Meyrie, Anthony Gioch, John Gleason, Frank Gioch, Harold Herman Gioch, Frank Gioch, Joseph Gioch, Frank Hall, Frank Hall, Jr., Joseph Hall, Walter Hall, Warren Vose, Harry J. White, Marshall White and Wilbur White.

LIVES WITH BROKEN NECK.

South Boston Man Also Fractures His Skull in Fall.

John Griffin, sixty years old, of No. 102 West Broadway, South Boston, is alive at the City Hospital with his skull fractured and his neck broken as a result of a fall at his home.

Banker-Bowlers Dine.

Four Ways to Make Five Dollars In One Minute

1. Find a misrepresentation or exaggeration in this advertisement.
2. Look over the signs in the Tunnel Bargain Basement.
3. Read the price tags on the garments. Every one has the date the garment was placed in stock. Figure the reduction for yourself. You'll find it right.
4. If we advertise 300 waists and one less at the start of business—or if we say "1.00 values at 50c" show us where we are wrong.

We are willing to pay you for correcting our advertising. We wish the public to know that our advertising tells the literal truth, no matter how surprisingly it may read. We want any errors rectified and will pay you to point them out.

Any woman or girl can do this. Bring or send your claims to the Information Bureau, First Floor Balcony, state the facts, give us an opportunity to verify them, and if you are the first to notify us, the 5.00 is yours. If you are too late we will give you the name and address of the prize winner. Always remember that late may be broken early.

BOSTON SOON GETS 2 MORE TUNNELS FOR TRANSIT

Riverbank $3,500,000 Project and Beacon Hill Tube Ready by Jan. 1, 1911.

BY the first of January, 1911, Boston will have two more tunnels, the Riverbank subway, from Park street under Beacon Hill and all the way under Chestnut street to and following the line of the Charles River Embankment, and the Beacon Hill tunnel, from Park street to near the corner of Charles and Cambridge streets.

The Riverbank subway, which will serve the people of the outlying districts with rapid transit facilities, will be about one mile and a half long and will cost about three and a half million dollars.

The Beacon Hill tunnel, which will run from Park street to connect with the approach to the Elevated structure on the West Boston bridge, will be about 2,200 feet long and will cost about one and one-half million dollars.

As the Tremont street subway, the East Boston tunnel and the Washington street tunnel have cost $15,000,000 of the total cost of Boston's subway and tunnels in less than two years will be nearly million dollars.

The Boston Rapid Transit Commission, whose term expires in June, plans to proceed with the construction of the Riverbank subway the first of next November. The arc authorizing the construction of this subway expressly forbade its building until a year after the opening of the Washington street tunnel.

The work on the Beacon Hill tunnel would have begun ere this but for the fact that an injunction restrains the contractor from proceeding.

Routes of the Tunnels.

Unless the court decides otherwise both the terminus for the Riverbank subway and the Beacon Hill tunnel will be at Park street under the present Park street station of the Tremont street subway. The tubes of the Beacon Hill tunnel and the Riverbank subway will run parallel under the Common for about 1,000 feet. In fact the Beacon Hill tunnel will be very nearly an extension of Winter street if it was sunk twenty-five or thirty feet.

The Riverbank subway and Beacon Hill tunnel will run diagonally under the surface of the Common to a point about half way between Joy street and Hancock avenue on Beacon street. The Riverbank subway describes a quarter circle curve and enters Chestnut, at the corner of Walnut, and proceeds under Chestnut street all its length and then follows the general line of the Charles River Embankment to a point beyond Massachusetts avenue.

The Beacon Hill subway will proceed in an almost straight line under Beacon Hill to the corner of Cambridge and Charles streets, crossing under the intersection of Revere and Anderson streets and under the intersection of Grove and Phillips streets.

Boston Lead the Way.

Boston was the first city in this country and also the first city on this side of the water to construct a subway. The Tremont street subway was the original subway and was regarded as a great triumph of engineering skill, while the Washington street tunnel is admittedly one of the finest examples of engineering ingenuity ever known in the world.

Although the term of the Rapid Transit Commission expires in June, it is thought that it will be extended for three years and the powers broadened. Until the commission is authorized to suggest and initiate it will not make any plans for any more subways or tunnels.

It is safe to say that an east and west tunnel from Park street under Winter and Summer streets to the South Station would be planned immediately on such authority and that a subway from the North Station to the South Station is not very far away.

The cost of an additional east and west subway under Winter and Summer streets would not be very large because there would be no great land damages and the tube would be short.

The tunnel from the South Station to the North Station is for the future and speculation on it as to its cost and general plan would be futile.

There are over four and a quarter miles of subways and tunnels under Boston's common streets and harbor and when the River bank subway and the Beacon Hill tunnel are completed the total length of such construction will be six and one-quarter miles.

The Beacon H tunnel will be built by the shield m. od. this employed in tunnelling under harbors or rivers and used in the construction of the East Boston tunnel. Patrick McGovern has been awarded the contract and will sign and proceed just as soon as the court makes a verdict on the injunction case brought by merchants to have the terminus at Scollay Square instead of at Park street.

Boston has had a subway since September, 1897. That portion of the Tremont street subway from the Church street entrance of the Public Garden to Park street was opened then. A year and a month later all the Tremont street subway from Pleasant street to the North Station was in operation.

In the construction of the Beacon Hill tunnel the tube will be at some points 100 feet from the street surface. That will be at the apex of Beacon Hill for it is planned to have the subway level all the way.

Boston's tunnels and subways are generally commended for their ventilation and light.

The Best Cold Storage for Furs

Furs stored in rooms (of solid masonry and steel) through which there is a constant circulation of cold, dry air at a temperature of two degrees below the freezing point—the scientific treatment for furs.

Practical furriers are in charge of the Cold Storage Rooms and clean and prepare your furs before they are placed in storage. Furs examined carefully and each garment hung separately. The one charge (3% of the valuation) includes storage and insurance against fire, and a guarantee against damage from moths, or loss by burglary or theft.

We make a specialty of repairing and remodelling furs. This work can be done during the summer months at lower prices. On Furs remodeled by us during the summer season there is no charge for storage.

Goods called for and delivered free within ten miles. Write or telephone and messenger will call. If requested we will send box to pack goods in. Telephone—Oxford 1500—Cold Storage.

MR. "KID" BAKER, who gambols in the neighborhood of the third stack and who draws salary twice a month from the Philadelphia club, is the bright and shining star of the baseball firmament in Boston, for it was his mighty swat that sent the ball over the right-field fence, scoring three of his teammates ahead of him and swerving victory to the Athletics to the tune of 4 to 1.

The defeat for the locals makes them lose the series to the White Elephant boys and shoves the Red Sox down the ladder in the scramble for good positions in the American League race, and now they have an even break in wins and losses, having four each way.

Arellanes Gets Off Badly.

The fireworks started in the opening round when Arellanes, who nominated the rubber for the Lake aggregation, had trouble in locating the plate and gave two free bases.

Arellanes is a little more responsible for the big doings in this inning, as he fumbled a grounder which started from Topsy Hartsel's bat. Collins was then retired.

These three tickets and the misplay by Wagner, lionized the necks with the gray suited players but when Davis popped an easy one which Stahl goggled, the fans reated easy, this making two outs. At this moment Baker looked up the grass with that healthy wallop of his which cleared the bases. Only two other home runs have ever been made over the right field fence. Pat Dougherty and Bird Stewart being the others to accomplish the feat.

One hit and four runs was the total damage in that first round and after that the Athletics could not find Arellanes and they were retired in the same order. However the damage had been done and though the Red Sox fought all the way Plank proved too much for them in tight places.

Red Sox Get a Chance.

The seventh round was the time when the local rooters got their chance to exercise their vocal organs, which they did in royal style, for the Red Sox took after the wiry little twirler, and scored one run.

Lord started this inning by an easy out, but Speaker dropped a Texas League safety third and in going after the ball Nicholls, in an awkward manner, booted it sufficiently to allow Tris to canter to second and Gessler was there with a single, scoring Speaker, and Stahl walloped a corking belter for a pair of bases, Gessler getting to third.

This up to Bullet Joe Tooney, but he did not have on his batting clothes, and he promptly hit the atmosphere a bench after three vain attempts to connect. Wagner then came to the bat and watched, but he, too, was at the mercy of Plank, and his offering was a fly ball which Thomas smothered. Off the three hits the Red Sox made they were able to get only one tally.

Some Grand Pitching.

Of the two pitchers Arellanes twirled a much the better game, and after the nine innings Connie Mack's bunch was able to connect safely only three times. These hits were scattered through as many innings, and after the first session Arellanes was never seriously threatened.

But one hit was gotten off the stubby little twirler's delivery during the last eight innings of the game, and that was a triple by Collins in the sixth. The next two men failed to produce, on account of the superb pitching of the visitor, and it certainly not his fault that his club did not win, for besides pitching a grand game, he batted out a double slip, adding three safeties.

The playing of Catcher Thomas was a feature of the game, for his throwing to second base to catch the runners who were attempting to get by was perfect. Not a man succeeded in reaching the second cushion via the steal route, although four of the Red Sox' speediest men attempted the trick. Thomas seemed to be wise to the Red Sox' signal, when the runners would attempt to go down, and would have the ball on them by wide margins. Thomas also showed some class in the way he went after and landed some hard fouls.

Two-base hits—Grant, Foxen. Home runs—Foxen. Left on bases—Philadelphia, 3; Boston, 3. Base on balls—Off Lindaman, 2; off Turner, 1; off McCarthy, 1. Sacrifice hit—Doolin. Stolen bases—Foxen, Magee. Double play—Brandfield, Knabe to Brandfield. Hit by pitched ball—Foxen. Umpires—Johnstone and Conch. Time—1h. 25m. Attendance—3,731.

PHILADELPHIA, April 24—The Phillies shut out Boston in the final game of the series on the National League grounds this afternoon by the score of 4 to 0. Nine thousand seven hundred and thirty-three persons were present. The whole story was quickly told in one hour and twenty-five minutes on the excellent pitching, fielding and batting of Foxen of the local team and the pounding of Lindaman, the first of the Boston pitchers, in the first two innings.

For six innings Foxen held the visitors down to three hits. He loosened up a little on the job when he allowed two more. Manager Bowerman started to change around his emergency batters in an effort to pull the game out of the fire. It was no use, however, and the Doves rushed to take the train for New York, leaving behind them the only two games played during their stay in this city.

Bowerman Tries Every Trick.

Not a trick was lost by the Boston manager this afternoon, but three pitchers, two emergency hitters, a pinch-hitting baseman and a shaken up batting order all failed to undo the harm done in the first two innings.

The quick retiring of the Boston batters in the first inning may have had some thing to do with Lindaman's wildness at the start, especially when Grant, the first man up, doubled to left. Knabe fouled to the old reliable Doremus. Then was it that Lindaman went soaring. Two bases on balls for Titus and Magee filled the bags and a safe bang by Brandfield scored two runs. Beck threw out Osborne.

Lindaman was anxious to get in, and overshot better. Bowerman thought the twirler would come back and sent him in again for the second inning. Doolin, the first man up, singled and went to second on Doolin's sacrifice. Then was it that Foxen put his rival completely out of business with a home run swat over the right field fence, scoring Doolin ahead of him.

Dorner a Puzzle.

Dorner was quickly rushed in to try and save the game if possible, but the lead of four runs, together with Foxen's pitching, was too much of a nut to crack.

Dorner was a puzzle to the Phillies, only two hits being made off of delivery until the eighth inning, when another change was necessary by reason of Beaumont having batted for Dorner in that round.

Good fielding relieved the Phillies in order in their half of the eighth, and McCarthy, the third pitcher, had little to do.

Only on three occasions did Boston have the chance to score. In the second, with one out, Ritchey got a base on balls and Dorner singled. Osborne came in quickly for Bowerman's fly, holding Ritchey on second, and the opportunity was lost when Sweeney forced Stem.

Doves Do a Little Batting.

In the fifth with two out Sweeney was safe on Knabe's fumble. Dorner got a base on balls and Foxen, after fielding out of Knabe's reach, but Bates's out retired the side.

Sweeney, the first man up in the eighth, made things look good with a single. Beaumont was sent in to bat for Dorner and made things look better with another hit. Everything was going well, however, as a double play by Knabe and Brandfield.

Manager Bowerman tried a new arrangement of his men this afternoon, the batting order occasioned by the return of Stem to first, Beck going to centre.

PAGE CLASS LOSE IN 14TH.

The Wellingtons defeated the Page Class team in a 14 inning battle on Franklin field yesterday by a score of 6 to 7. The feature of the game was the pitching of Woods who struck out 18 men. The score by innings:

Wellingtons ..1 0 0 0 0 0 0 0 0 0 0 0 0 0 1—3
Page Class ....0 0 0 0 0 0 0 0 0 0 0 0 0 1—1

Williams Lost to Aggies.

WILLIAMSTOWN, April 24.—Williams lost the opening game of the season, 3 to 5, to M. A. C. The day was so cold that the best baseball was not possible, but the pitchers showed up well in spite of the cold. Savage held M. A. C. to one hit up to the fifth, when he was hit hard. Davis, who relieved him, was only found for one hit. Hubbard had the best of the argument, as Williams was only able to get two hits from his delivery. He also starred in the hitting, getting a single and a double. The score:

MONTREAL MISSES FINE CHANCE TO WIN

Providence Gets There, 6 to 5, Hitting George Winter, Former Red Sox, Hard.

PROVIDENCE, R. I., April 24.—Montreal had a great chance to win the game with Providence here this afternoon but the bit to win out in the ninth was not forthcoming.

The score was 6 to 5 against the Royals in the ninth, but Montreal, by hitting Lavender freely, scored two runs. With a man on third and first and a bit needed to tie the score Lavender was benched and Cronin sent in to pitch.

Casey came to bat and grounded to Shaw, the second baseman shot the ball to Hardgrove on second, forcing the runner on first. It was a free hitting game and both Lavender and Winter, a former Red Sox twirler, were bumped hard. Score:

NEW ENGLAND LEAGUE HAS BRILLIANT OPENING

Games Played in Four Cities on Circuit Result in Close Contests.

WORCESTER IS BEATEN

Fall River Has Fierce Battle With Lynn, Nosing Out by Score of 1 to 0.

WORCESTER, April 24.—Brockton defeated Worcester in the opening game of the New England League season, this afternoon, in a slow game which was marred by the ragged fielding of the home players.

The game was preceded by the usual opening day ceremonies, a band concert, parade of players in automobiles and flag raising. Mayor James Logan and many of the Common Council attended the game.

Fall River, 1; Lynn, 0.

FALL RIVER, April 24.—Fall River won the first game of the New England League season this afternoon with one run to the good, and shutting out the Lynn team. There was a big crowd present and whenever the opportunity came, the rooters let loose in great shape.

Not until the seventh inning was any scoring done, and then the home team got the only run on two singles and a two-bagger. Twice Lynn had a chance to score, but the home team was pulled out of two bad holes by double play work, which at men off at third. Wormwood for the home team and Abbott for the visitors pitched great ball. They both fielded well, as shown by the margin of assists each had. Weaver and Bissel and Nichols on second showed up well for the home team. The score:

Haverhill, 4; Lawrence, 3.

LAWRENCE, April 24.—The local New England league season opened here today and the game was witnessed by about 3,000 persons were in attendance. The game was won by Haverhill by a score of 4 to 3. The feature of the game was Delehanty who was secured from the New York Americans to do the fielding and he was replaced by Delave in the sixth inning.

Delave came here from Lynn and his fine hit almost saved the game. Brockton will play at Lawrence Monday. Score:

RED SOX LOSE LAST GAME OF HOME SERIES

DOVES DROP OUT OF TIE AT HEAD OF NATIONAL LEAGUE

WHITE SOX GET THIRD FROM TIGERS

Hitless Wonders Sustain Reputation by Getting Two Runs on One Single.

CHICAGO, April 24.—The White Sox took the third game of the series with the Detroit Tigers by the score of 3 to 1. This is the third game in three days that has been decided by the same score, the Sox winning the first and the Tigers the second. Smith pitched for the Sox and held the heavy hitting Tigers to five hits. Jones began the game for the Tigers, but gave way to Spear, a left-hand recruit, in the third inning. The Sox maintained their reputation as the hitless wonders, in the third inning, with the score a tie 1 to 1, they scored two runs and won the game on one hit. Isbell opened with a single. That was all for Jones, and Spear was substituted. Crawford drew a pass. Ata sacrificed and Pelty hit for a safety. The latter threw wild to catch Isbell, and the runner scored. Sullivan then drove a sacrifice fly to McIntyre. Crawford scoring after the catch. Score:

Cleveland, 7; St. Louis, 3.

CLEVELAND, April 24.—The Naps, with Vedder Sitton, recruit, pitching, won from St. Louis to-day, 7 to 3. Rube Waddell was driven from the box in the fifth, and Bailey also was hit hard. The batting of Easterly, recruit catcher, and of Bailey featured the contest. Sitton was wild in spots, having trouble with his control, but showed great class in the pinches. Cleveland sold Josh Clarke to Columbus to-day. Score:

Woburn H., 16; Revere H., 3.

Woburn High made short work of the Revere pitchers at Revere to-day, batting the ball all over the lot for a total of twenty-four bases. Revere helped along this score by dumb fielding, and Woburn led the slugging with a homer, a double and a single. Hudson got up a nice game for Woburn, making two swell catches and doing more than his share batting for the visitors. Score:

Chicago, 5; St. Louis, 1.

ST. LOUIS, Mo., April 24.—The Chicago Cubs were forced to rely upon "Mordecai" Brown to defeat the Cardinals to-day. Score, 5 to 1. Fred Beebe was pitted against the three-fingered member, but his offerings were hit hard and at the right time. The Cardinals had several opportunities to score in the early innings, but with men on bases were practically powerless before Brown.

Charles's fumble and Moran's safety gave the visitors their first run in the second inning. They added two more in the fifth from singles by Brown and Steinfeldt and Tinker's two-bagger. They got their last run in the final inning after two were out. Brown walked, Sheckard doubled and Chance brought them home with a single.

With the bases full in the fifth inning the Cardinals secured their only tally when Bresnahan walked, forcing Charles across the plate. The weather was bright and clear and a crowd of 15,000 attended. The score.

Brooklyn, 2; Giants, 0.

BROOKLYN, April 24.—Johnny McGraw's Giants from Manhattan and the Trolley Dodgers came together this afternoon in the final game of the present series. It looked like another grand opening, for the fans began to pour into the grounds more than an hour before and more than an hour every seat in the grandstand and bleachers was filled and hundreds were compelled to stand in the outfield. The game was called at 2:30.

The Dodgers found little trouble in hitting Eagle Eye Ferry Rucker, but they were a puzzle to the Giants, holding them safely in every stage of the game, and proved especially strong when the sacks were occupied. During the first inning with two on and eighth and the Dodgers got a run off him before getting the game. The score:

Gets Fifteen Strikeouts.

The Sacred Hearts outplayed the Hodgkins Grammar School this afternoon at Ridgefield playground, in every department of the game, the features of which were the two doubles, struck out fifteen men, Mottis was also very effective with the bat getting four hits out of five times at bat. Britton and Mahoney did the battery work for the Sacred Hearts, and the timely hitting of Turner and Merrill excelled for the grammar school boys.

Sacred Hearts ..... 1 2 0 1 1 4 0 4 0—13
Hodgkins Gram. S. ..... 0 0 0 0 0 0 0 0 0—0

Batteries—Carlongan and Rida for Sacred Heart; Britton and Mahoney for Grammar School.

Trojan A. C. Wins.

The Trojan A. C. defeated the Auburns of Roslindale by the score of 12 to 8. The features of the game was the fielding work of Ryan and Hill for the Trojans and the timely hitting of Turner and Turnquist.

A QUEER STATE OF AFFAIRS, YES? NO?

TIGERS BEAT BROWN IN 11 INNINGS, 3 TO 2

PROVIDENCE, R. I., April 24.—Princeton defeated Brown in the eleventh inning by a score of 3 to 2, after an exciting game in Providence to-day. The score at the end of the ninth was 2 to 2, and in the eleventh Princeton managed to squeeze the necessary one over.

Princeton won through her ability to hit at critical moments. Sides driving in all the runs with pretty singles. Brown failed to take advantage of Drew's wildness, and although he loaded four times, the Browns were not there with the wallop.

Nourse pitched a good game for Brown and with decent support would have won. Drew was wild and was pulled out in the sixth, after two runs had been scored. White was substituted, completely mystifying the home team.

Sides was the strong man with the stick, getting a single and a double and a three-bagger in the eleventh. Raymond played a star fielding game for Brown, and the freshman banquet will be held in Sayles Hall this evening, and different celebrities have been showing men around all day. Score:

Malden by 11 to 0.

Malden High whitewashed the Cambridge Latin nine yesterday afternoon at the Malden Athletic field by a score of 11-0. Captain Morey, who is the star pitcher for Malden, struck out seventeen men, while Wescott secured four hits from five times at bat for Malden. The score by innings:

	R.	H.	E.
Malden High	0 3 1 0 0 0 2 5 x	11	4
Cambridge L. S.	0 0 0 0 0 0 0 0 0	0	0

Batteries—Morey, Morgan; Dorey, Brown.

Swampscott A. C. Wins.

The Swampscott A. C. defeated the B. L. of Lynn yesterday afternoon by the score of 9 to 8. Kiley, the pitcher, for the winners only allowed two hits, but errors by his teammates proved costly. This game practically opened the season at Swampscott and a large crowd turned out to root.

MELROSE DEFEATED BY EVERETT HIGH

Takes Ten Innings to Decide Victory in First Suburban Championship Game.

In a game replete with sensational plays and hard hitting Everett High defeated MelroseMelrose yesterday afternoon in ten innings on her home grounds on Glendale park in the initial game of the season in the Suburban High School League. It was Everett's fifth game of the week, in which Captain Rosenthal's team scored on the old and four victories, two of which were hard fought ten-inning contests. Cram pitched his first league game for Melrose and performed well, giving his veteran rival, Captain Howard, the fight of his career. Both twirlers were effective at critical stages, especially the local man, who struck Milliken out in the tenth inning, when Melrose had two men on bases. The score:

EVERETT H. S.	MELROSE H. S.					
	r.	h.	po.	a.	e.	
Bailey, lb	0	0	9	0	0

Two-base hits—Mumford, Milliken. Sacrifice hits—Bailey, Howard, Malkasian, Connell, Rosenthal, Crump. Stolen bases—Bourn, Howard. Left on bases—Everett, 5; Melrose, 4. First base on balls—Off Howard, 1; Cram, 1; Milliken, 1. Struck out—By Howard, 1; by Cram, 1; by Milliken, 1. Hit by pitcher—By Howard, Malkasian. Passed ball—Rosenthal. Umpire—Sullivan. Time—2h. 20m. Attendance—500.

Stoneham Walloped.

Waltham High did not have to work very hard in its ever Stoneham High at the Bicycle Park playground at Waltham yesterday. The score was 16 to 2. Starting with the first man up, Waltham continued to get runs almost at will and had little trouble in retiring their opponents.

The cold wind which blew across the field seemed to take the heart out of the players and errors were plentiful on both sides.

Waltham High	7	0	0	3	2	1	2	1	0—16
Stoneham High	0	0	0	0	0	0	2	0	0—2

Batteries—Waltham, Hodgkins and Hall; Stoneham, Hall and Hall. Struck out—By Hodgkins, 2; by Hall, 2; by Hall, 2. Two base hits—Hodgkins, Hall, Hall. Three base hits—Hodgkins, Hall. Home runs—Hall, Hall. Stolen bases—Waltham, 5; Stoneham, 2. Sacrifice hits—Hodgkins, Hall, Hall. Hit by pitcher—By Hodgkins, Hall. Passed balls—Hall, Hall. Time—2:15. Attendance—300.

Easy for Woven Hose.

The Boston Woven Hose and Rubber Company defeated the Davidson Rubber Shoe Company yesterday afternoon at the Winter Hill grounds, Somerville, by a score of 17 to 5. The Woven Hose team presented a line-up of former college stars and ten game attracted much interest amongst the ball fans of the city. The score by innings:

	R.	H.	E.
Boston Woven Hose	2 4 0 0 0 5 0 5 1—17	12	4
Davidson Rubber Shoe	2 0 0 0 2 0 0 0 1—5	7	6

Batteries—Norton and Paul; Seymour and Hurley.

YALE VICTOR OVER CORNELL IN 11TH

ITHACA, N. Y., April 24.—Yale defeated Cornell to-day four to three after an 11-inning battle, which was full of sensations. A pitchers' battle was on in the seventh, both men were then knocked out of the box. Cornell tied the score in this inning by a scrambling hit by Gable, who was sent in to relieve Howes. He cleared the bases with a two-bagger.

Yale's run in the fourth resulted from hits by Fuhlbruck and Rodger. Two runs were made in the seventh on a hit by Murphy and a costly error by Rutherford. The game was in doubt to the eleventh, when Murphy scored Caldwell's error and a single by Jefferson brought in the winning tally. The score:

CORNELL.	TALE.

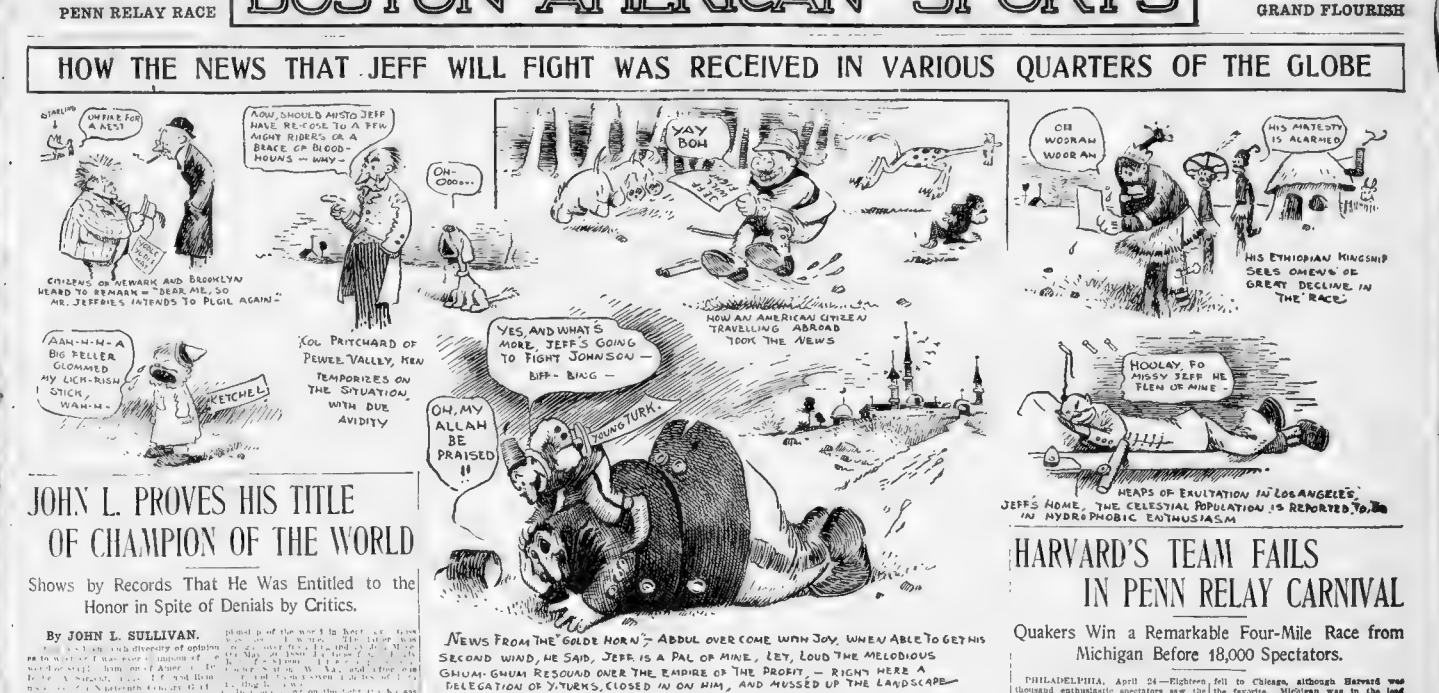
HARVARD TEAM IS BEATEN IN GREAT PENN RELAY RACE

BOSTON AMERICAN SPORTS

N. E. LEAGUE OPENS WITH GRAND FLOURISH

HOW THE NEWS THAT JEFF WILL FIGHT WAS RECEIVED IN VARIOUS QUARTERS OF THE GLOBE



JOHN L. PROVES HIS TITLE OF CHAMPION OF THE WORLD

Shows by Records That He Was Entitled to the Honor in Spite of Denials by Critics.

By JOHN L. SULLIVAN.

April 17, 1901, John Heenan fought Tom Sayers in England. The battle was for £200 and the championship of England and America. Heenan, of course, had the reputation of these champions and fearing he would lose all the pipes and the [illegible] left [illegible]

In 1849 Jem Mace beat Harry Broome. In 1861 Tom King beat Mace and claimed the belt when he subsequently gave up the fighting game to [illegible] Tom Sayers again claimed the belt. In 1860 Jem Mace and Joe Coburn fought a draw for £200 and a side and the belt. In 1863 McCool beat Tom Allen in the city here for the championship of the world. In 1872 Jem Mace drew with Joe Coburn here for the championship of the world. In 1872 Jem Mace and Joseph fought for the championship and $5,000 at Kentville, New Orleans; Mace won.

Allen Beat McCool

Tom Allen beat McCool on September 23, 1873, at Chateau Island, near St. Louis, and on November 18, same year, Jem Mace fought Tom Allen for $2,500 and the championship of the Pacific City. Allen was going to [illegible] Mace stop the fight. On September 7, 1870, Joe Goss fought Allen for $2,000 and the championship of the world in Kentucky. Goss was [illegible] Allen [illegible] Mace won.

Wnat Greenfield Said.

All Greenfield was brought from England in 1874 to defeat Goss. He was sent over as Albion's champion. On November 17 that year, in Madison Square Garden, I had Al in a [illegible] ring on the ropes and all hands [illegible] and seconds were arrested. Charley Johnson awarded the decision to me. Greenfield again met me. This time in Boston. M. Keys of San Francisco referee. That was on January 12, 1875. When Greenfield came back to life after the fourth round and he heard if I could hit hard he turned to Jack Reed and said: "Why, I could beat you, Mitchell and myself in the ring for a purse." I guess that came pretty near making me the champion of the world in spite of the fact that a lot of people do not agree with me.

Allen Beat Mace.

Tom Allen beat Mace for the championship of the world in 1875 at Boston for $2,000 and the championship belt. Mace was [illegible] Allen [illegible] Mace won.

Sullivan Beat Ryan.

I fought Paddy Ryan in Mississippi City, Miss., February 7, 1880, while it took Ryan two hours and twenty-seven minutes to [illegible] I was [illegible] Ryan [illegible] Mace [illegible] Mace [illegible] Mace

CHEAP FIGHTS KILL THE SPORT, SAYS JIM CORBETT

MUTT CHANGES HIS MIND AND EATS INSTEAD OF DINING

J. CORBETT SAYS CHEAP FIGHTS KILL SPORT

Municipal Regulations Much Needed in Tennessee to Protect Cities from Promoters.

By JAMES J. CORBETT.

Fight promoters are running wild in Tennessee. The fistic city and town in the State where there is any sport enthusiasm clubs are being formed and fights of the cheapest kind are being pulled off. I have been in touch with some of the sports down in Memphis and Nashville, and I believe that what I say is applies true.

Unless some precaution is taken the future of the game down there will not be as rosy as the fighting world thought it would be. In the first place, the law is so loose that any old person with nerve enough to go through with a fight can become a promoter. As long as ring contests, especially of the cheap kind, will do more to kill the fighting game than the anti-boxing sentiment.

Probably the best scheme to protect the cities from these cheap fights is the ban said which fighters and half starved promoters would be municipal regulations. I look to see the local authorities take a hand sooner or later, and it will be a good thing for the game.

Praise for Choynski.

In discussing the respective abilities of fighters in the light heavyweight division I was asked the other day to give my opinion as to whom I thought was the greatest little heavyweight, or words that ever donned a glove. That would be a pretty hard question for anyone to answer who has been identified and lived up in the ring game as long as I have been and known as many great fighters as I have met. However, right off the reel without much thought, I say that Joe Choynski had about as much right as any generally known as fighting middle weight man I had ever met or had ever known.

Had Joe Choynski possessed forty more pounds of weight and retained all of his natural speed and ability he would have been a wonderful man, and even as small as he was he gave some of the champions their hardest battles. If you think Choynski couldn't hit ask Jeffries or Bob Fitzsimmons. If you have an idea that old Joe was not there with the goods just ask the writer, who met his several times in his early days.

Joe Choynski came as near whipping Bob Fitzsimmons as any fighter ever did until Bob was given a cop-was ticket to Greenland by Jeffries in their 21-round battle at Boston Fitzsimmons really was out completely more than once with Choynski. Joe had a punch like a kick of the left hind foot of a Missouri mule, and he had a way of getting it into the vital spot that fooled a lot of fighters.

Great Battle in California.

The second battle I had with Choynski was fought in Benicia Bay, in California. It was in the twenty-seventh round, and the way I did it makes it one of the most remarkable in all the annals of the fighting game. We fought in the daytime, and when we started both of us were in the best of condition. It had been a lot of talk about Joe having it on me and that he would beat me. . . . . About the four or five days before the battle that the sun was going to be a factor in the battle. In fact, we were told to look down on us like the flames of a furnace. Falling across the ring and the fighters it was the shadow of a pilothouse on the boat, the only thing that could afford cover. In the fifth round I started for the pilothouse to take advantage of the shade. Choynski did. . . . . I was . . . thinking of what the shadow would do for me if we could only stay in it.

I think that I was about as far under the cover of it about two-thirds of the time, although Joe gave me more in every minute of the time. I honestly believe it helped me. . . . . I was . . . Choynski was . . . and acted . . . the . . . percent right heavyweight . . . I . . . stepped no one and took the dig with a little.

Tommy Burns, who held the title for two years, would have been one of . . . Choynski's . . . he . . . I . . . and . . . lasted less than five minutes . . . with him, and "Philadelphia Jack" O'Brien, another of the pets of the experts, . . . lets who would not have lasted long with Joe.

Ketchell is one man who might have whipped Choynski. . . . I . . . like . . . I . . . would be one of the . . . I . . . have . . . said all along that betcha I might whip any man that ever donned a glove, and I stand for he has a shift that there is mighty little defense for and I have always had a punch on a par . . . . . to . . . . . of the greatest fighters in the world every off the battery.

I wish Choynski were in his prime today and that Jack Johnson would . . . talk . . . about whooping him as he did Jeff. Oh, I want a reading the negro and Jeff would want is the use of digging up impossible comparisons. . . . . I . . . . . the grandest . . . . . I . . . . . ever brought to light and I . . . . . always pleased with Sam and the other world's famous heavyweights.

It certainly would like to see Nelson climb . . . . . and . . . McFarland. Barly is a . . . . . I . . . . . I . . . . . I would . . . . . between the friends of the two boys as to their standing. When Nelson whipped Gans twice in the manner that he did I made up my mind he was the best in the world, and I still think that he can whip any of them.

UNDER THE OLD STRAW HAT

BY C. E. VAN LOAN.

THE reign of the Pretender is over.

Sam McVey, "champion de loxe," the big black four flush of spades, is in the discard, and a seven spot high was the best he had.

McVey came from Oxnard, in California. He worked in a beet sugar factory, manicuring the biz white beets with a hoe. Some one told him he could learn to fight, and McVey believed it. He was big enough and strong enough to whip a Chihuahua bull, but he lacked the gray matter, for which there is no substitute on the market. Oxnard believed it had a champion, and after McVey had flattened out a few alleged fighters the sugar town went wild over big Sam.

About the same time Spider Kelly went out and unearthed another coming champion. This was during the period when every fight handler in the country was on the lookout for a big man to send against Jeffries. The notion prevailed that in order to beat Jeff a giant must be discovered and developed. Every fight promoter in the country had his eyes peeled for a large man.

Spider Kelly's find was large enough. He was a German named Bimblehelmer, or something like that, and for strategic purposes the Spider at once christened him "Toothpick Kelly." Bimblehelmer stood 6 feet 7 inches in his bare feet, weighed 220 pounds, and, as the Spider said, "had a wallop on um like the left hind leg of a government mew." The Toothpick abolished a few naked ale pups in a punch apiece, and Spider cast about him for a match which would allow his man to advantage. He selected McVey as the victim, and Meal Ticket McCarey of Los Angeles secured the match.

The Spider announced that after disposing of McVey his man would go after some of the other heavyweights and then challenge Jeffries for the title.

There was only one thing about Bimblehelmer which his Columbus did not know. Bimblehelmer had fits. Not the quiet kind, either. When he had a fit he had a good one. He frothed at the mouth and turned handsprings. Forty men could not hold him.

Spider Kelly arrived in Los Angeles two weeks before the fight and paraded around town with his German giant. The Toothpick had his pictures in all the papers and was touted as the coming pugilistic sensation of the age.

In his workout he showed great strength, and marvellous awkwardness. No sparring partner could be found for him, for the "Pick" had a bad habit of cutting loose with his right hand and knocking his fellow workmen into the middle of the next week. Spider drew attention to this fact, and stated that the "Pick" was doing . . . best to kill easy, but even his love taps were deadly.

On the night before the battle Bimblehelmer had a fit. He fell down two flights of stairs smashed through the floor of the gymnasium with his head, bruised himself all over and nearly broke his back. Spider was seriously annoyed. He thought Bimblehelmer should have mentioned the affliction.

And just to impress on the big German's mind the necessity for confiding in his manager and trainer, the Spider punched the slant all over the training quarters.

"You'll deceive me, will you?" said Kelly. Bang! Biff!

"You'll take it, will you you big Dutch frump!" Zam! Biff!

"S'pose you git one of them things in the ring to-morrow night!" Bing!

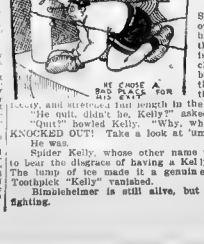
"I'll learn you to have a fit an' break trainin'!" Bang.

The advance sale was large and the battle came off as per schedule, but it was a very stiff and sore Teuton who crawled into the ring with McVey. The big negro, who looks like a soft coal gorilla, and at that time wore an immense mop of kinky wool, showed every tooth in his head when the Pick came across the ring hands. Bimblehelmer seemed to want to stand around and get acquainted with McVey, but Kelly dragged him back to his own corner and put the gloves on him.

When the bell rang McVey made one jump from his chair to the middle of the ring, and as he started from his corner he brought his right hand up from the hip. The haymaker nailed Bimblehelmer on the neck. It was a twenty-four foot ring, but the Toothpick fell all over it, and finally stopped rolling in his own corner with his head and shoulders under the lower rope.

"Git up!" said Spider Kelly, severely. "Git up, you bum! You ain't hurt!"

Bimblehelmer was not hurt, but he was very much surprised. He got over a knee to his hands and knees and looked at McVey, who was prancing around the referee and cursing in his eagerness to get at his victim.



That was all Bimblehelmer wanted to know. He deliberately turned himself around and started to crawl out of the ring on his hands and knees. He chose a bad place to make his exit.

"Quittin' on me, are you?" said Spider Kelly, at the same time fishing out a great chunk of ice from the bucket. "There never was a Kelly that quit and——" The Spider finished the sentence by bringing the chunk of ice down on the top of Bimblehelmer's head with such force that the glittering fragments flew all over the ring. Bimblehelmer collapsed in the ring, and stretched full length in the corner, where he was counted out.

"He quit, didn't he, Kelly?" asked a reporter.

"Quit?" bowled Kelly. "Why, what are you talking about? He was KNOCKED OUT! Take a look at 'um! He's out yet, ain't he?"

He was.

Spider Kelly, whose other name is Jimmy Curtin, had not been able to bear the disgrace of having a Kelly quit in the first round to a negro. The lump of ice made it a genuine knockout, and two days afterward Toothpick "Kelly" vanished.

Bimblehelmer is still alive, but outside of his fits, he does no more fighting.

RUNAWAY HORSES MAKE EXCITEMENT

Spectators Nearly in Panic at Franklin Field Speedway Matinee Races.

Thousands of spectators at the Dorchester Driving Club races at Franklin Field speedway were nearly thrown into a panic yesterday afternoon through the gallopping on duty and several in the event by crowd being mixed up with a couple of frightened horses, so that it seemed certain somebody would be killed.

The Norman owned by L. S. Morse became unmanageable by a passing automobile near the judges' stand, broke his bridle and jumped the fence with a cart behind him, colliding on the other side with another racer, Morton Chief, driven by J. T. Murphy. Mr. Murphy was thrown heavily to the ground, hurting his head and leg. Both horses then ran away. The Norman became tangled with his bridle, fell and was caught in Talbot avenue, while Morton Chief ran clear to codman square before being captured.

J. W. L., the trotting gelding owned and driven by President J. F. Littlefield, was for the second time this season the victor of a seven heat race. His win pitted against Clarbelle, who came first to the wire in a couple of heats, as did Arlita, white Hillsboro, though not getting a heat, was a strong contender in the early stages of the game.

Fred H. Bellows secured his initial hiss honors of the year with Helgamite, losing the second heat however, to Don't Let's expected that Judge Lenroot of Charleroi would make a bitter fight, but in the final heat the latter was withdrawn when such had tried to their credit. To-morrow night the driving club observes its tenth anniversary with a stag party in its club rooms. Summary:

MARYLAND OPENS UP TO AUTOISTS

Extend Privilege to Those Competing in the Races to be Held May 3-6.

The contest committee of the Motor Club of Hagerstown has secured a most important and unusual concession from the police authorities of Maryland, whereby the racing part in the reliability contest of the club to be held May 3-6, will not be required to take out a Maryland license.

The state automobile association has accepted the position of the Hagerstown committee that the cars with no additional charge to the entrance fee, and the $2 charge for the contest and the state license fee. Under these circumstances it is necessary for the Maryland contestants to pay only the regular fee of $2 for the contest. With the change in the regulations the contestants will be required to carry the number of the machine only, instead of the owner's name and address, as heretofore.

Mr. Tyler on a Vacation.

Frank A. Tyler of the Maxwell Briscoe Boston agency is taking a short vacation from business, drinking the waters and enjoying the natural and imported beauties of Palm Beach, Fla.

SAVANNAH'S AUTO RACE.

Preparations Already Under Way for Event Next Fall.

Although the 1909 Grand Prize automobile race will probably not be run until next Fall, Savannah has already started preparing for it. If that South'n city is successful in her efforts some of the fastest cars in the country will be seen there next Fall. With the chance for a record-breaking performance, the drivers will be the fastest section of the course in the state, for 8 miles, with only an eleven-foot grade from one end to the other, and will run from eight to ten miles per hour, the automobile of the future will be as good roads as any State in the Union.

NEW MOTOR CLUBROOMS.

Membership Now 250, with Many Applications to Be Considered.

The officials of the Boston Motor Club have, during the past two or three weeks, made great advancement toward the establishment of the organization, and are now reached a stage where they are in a position to make interesting announcement to the membership at large.

A meeting of the club has been called for Wednesday next. The officers feel that by taking the active membership into their confidence, giving them something besides the mere membership card and privilege of using club quarters, that the club can best succeed, and it is it is purpose to invite the opinion of the members on the most important matters that come up from time to time.

At the last meeting of the directors a number of applications were received, and the list now is said to be 250, with numerous applications yet to be acted upon.

BAY STATE AUTOMOBILE CLUB PLANS BUSY SEASON

Prominent Drivers Expected for the Race Meet of June 17—Big List of Events for That Day.

By J. C. KERRISON.

The touring committee of the Bay State Automobile Association has planned active work and will furnish several interesting events, if the present plans are carried out to a successful conclusion.

The committee is making great preparations for its race meet of June 17 next. It is expected that many of the crack drivers of the country will be present, and there is every indication that the meet will be one of the most successful ever held by the club.

Rules governing the various events will be taken up soon and a complete list of prizes will be announced. It is expected that the prizes will be of unusual value, and it will be a matter of pride for the winners to be awarded one of the handsome cups that the club will offer.

Plans are also under way for a hill climb, to be held on Beacon hill, Brookline, early in June. It will be a handicap event, open to all cars entered by members of the club. The course for this event is open to owners of the most powerful cars in the country, and some of the well-known drivers are expected to be present at the hill climb.

A 1,000 mile tour of New England is also being arranged, and there is every indication that many cars will be entered in the same.

List of Events.

The list of events decided upon by the committee is as follows:

Race for Ruby Trophy, 5 miles for stock cars to be driven by owners or their representatives, excluding cars entered for 30 or handicap, with the exception of those to be chauffeur or professional driver. Ruby for Harvard Trophy, silver cup, second prize, silver plate, third prize, bronze clock.

Five-mile race for touring cars up to and including 24 h.p., four-cylinder, to be driven by touring driver, second prize, silver plate, third prize, $100.

Five-mile race for touring cars up to and including 24 h.p., four-cylinder, to be driven by touring driver, second prize, silver plate; third prize, bronze plate.

Automobile Trade Trophy, 10-mile race for stock cars to be owned by recognized trade, baby tonneau cars excluded. First prize, trophy, second prize, silver plate, third, prize, bronze clock.

Three-mile race, for stock car roadsters or runabouts up to 30 h.p. First prize, cup, second prize, silver plate, third prize, Bay State medal.

Five-mile race, for stock car roadsters or runabouts 31 h.p. and over. First prize, cup, second prize, gold Bay State medal, third prize, gold Bay State medal, special match cup.

Plan Special Run.

The committee is arranging for a special run to Cape Cod to be held at providence in the Rhode Island Automobile Club on May 31. Those who desire to join the run should communicate with A. [illegible] Charles or W. G. Schmidt of the Touring [illegible] plans for a big endurance [illegible] Fifty miles [illegible] daily, 4 [illegible] Hyde Park [illegible] Bay State [illegible] Bay State [illegible] Bay State

'WIN FOR ME,' SAID HIS SWEETHEART

FINANCIAL

PATTEN TO STRIKE RIVALS ONCE MORE

Will Turn Attention to Wall Street Shorts After He Gets Wheat Profits

By JOSEPH PRITCHARD.

CHICAGO, April 24.—While [illegible] cuff bill was admitted to Congress, high quotations [illegible] were recorded [illegible] signed by the President. This was the market's [illegible] and a comforting stabilizer, but unsatisfactory [illegible] above treated by the samurai and Dan Patten [illegible]

The latter [illegible] to the Chicago [illegible] market-maker, no effect on their [illegible] Dan Patten signed and sent to Boston three months [illegible] Incidentally, the question of [illegible] pression—which there is nothing [illegible] ominous nature to impress. But the real [illegible] coming [illegible]

The [illegible] Monday [illegible] Leiter [illegible] all European capital, and a bundle of [illegible] Harriman [illegible] Patten [illegible] on this side. Together the selling [illegible] guineas in a single [illegible] of the campaign.

But [illegible] the [illegible] stocks the near future [illegible] Turley [illegible] [illegible] in European [illegible] former [illegible] [illegible] trade [illegible] [illegible], provided [illegible] [illegible] Harriman [illegible]

He [illegible] [illegible] not need [illegible] [illegible] Mellen [illegible] [illegible] Above [illegible] absence from business will restore him. He is overrated. For [illegible] there is an obvious [illegible] and only one.

The [illegible] decided to take it [illegible] street is surprised. Because he does the [illegible] thing. He goes as Morgan and Schiff and others have done before him—goes abroad, where he will be less accessible to financial affairs—Union, Pacific and Southern Pacific and everything with which Harriman is connected are so diversified, but [illegible].

It is at once very [illegible] and light-[illegible] mentor—[illegible] as to those who have read [illegible] [illegible] that [illegible]. It is the observation of the commentator that Harriman's [illegible] are the result of over-exertion of [illegible] [illegible] [illegible] nothing organically wrong with him. Instead of seeking rest at a long railroad journey's end, he should have done what he did three years ago—travel southward. Now—to traduce Tennyson—that he has put out to sea [illegible] is mourning [illegible] the gin bar near the stock exchange, where finance is a bet, not a science. In banking circles there is no anxiet

It is complimentary because the indisposition of other financiers had caused [illegible] and solicitude. Morgan in Ill-health or Schiff and Hill [illegible] in the pink of condition would not mean as much to the world of affairs as Harriman in [illegible] condition, which [illegible], plus. But Harriman is today America's great [illegible] force.

In respect to the railway industry it is not [illegible]. How a controversialist [illegible] [illegible] [illegible] fact that in his arrival in Chicago from [illegible] Western Lines [illegible] president of the St. Paul road [illegible] at the [illegible] greet Harriman en masse, to inquire solicitously [illegible] health.

The St. Paul [illegible] Rock [illegible] property. There is popularly supposed to be a [illegible] between the Harriman and Hill groups of railroads. And yet, [illegible] [illegible] there, very much in sympathetic evidence. Probably his presence had [illegible] sort of [illegible] probability [illegible] by the completion absence of Hill lieutenants. Not an officer not even a third assistant secretary of the Hill road, was there to pledge Harriman's health

Darling, on the other hand, is invariably busy when James J. Hill comes to town. Mr. Hill is [illegible] long ago expressed the sincere belief that the coast extension of the St. Paul would necessitate a suspension of dividends on that company's common stock. The new line would be for a long time a sucker instead of a generous feeder.

These left-hand amenities certainly signify something. Their significance is stretched when Mr. Darling announces the Pacific extension will breed not [illegible] like seven hundred miles of stubs of branches—mainly in the direction of the Hill roads.

Mr. Harriman says nothing. But it is not unlikely that he has done something to [illegible] the effectiveness [illegible] the Hockefeller earnestly wish him a long and energetic life, as long at least as Mr. Hill's.

And what [illegible] things they are, the energy and longevity of the average American industrialist. They are inestimable assets of the country's commerce, assets never computed. The indolent dividend drawer, the doubting coupon clipper, are [illegible] [illegible] [illegible] comes on or the other at forty. Probably the latter day German will soon be an exception, but he is not yet sufficiently numerous to overbalance the rule.

Lo Tsai Rentier of France has been held up, as an example of what should be done by both the classes and masses. Save strenuously until you are forty and then retire "to a life in the country."

It is obvious that is the country's curse. An army of men in their best years—their most [illegible] [illegible] drones. They have bought the government bonds—the "sweet simplicity of 2 per cent." Disraeli called them—and are content to lead a narrow and lazy existence on 5,000 francs a year or less.

This good bourgeoisie is as bad for a nation as a large standing army. Happily, the United States has neither. Men work here—not always nobly throughout—but they work as long as their physical and mental faculties [illegible] well; [illegible] too many instances. But it is [illegible] [illegible] done than [illegible]. The custom, to repeat, is a great asset commercially, which for generations Continental Europe has deprecated, but which it must some day appreciate

MOTHER IS BRIDE AT GRETNA GREEN

Lowell Woman Wife of Paul Murkland, Rich Lowell Business Man

LOWELL, April 24—Throughout the social contest for the matrimonial honors in a pretty little romance has become known in Lowell, which has just come to light that Mrs. Jean L. Sherburne, a local beauty, soprano singer and owner of one of Lowell's largest drug stores, has for two months been Mrs. Paul Murkland. It has been found out that Mrs. Sherburne, wife of the junior member of the firm of Dearborn & Sherburne, and Paul Murkland, son of James Murkland & Son, were married. The secret was increased into astonishment when it was announced that Mrs. Sherburne and young Murkland eloped to Providence and were married.

Interest in the affair increased when Judge McIntyre sitting in the Middlesex County Probate Court here, awarded the guardianship of Mrs. Murkland's little girl to her grandfather, Andrew Livingstone of Pawtuckerville, a suburb of this city.

Mrs. Murkland has for years been popular in the best social circles of the city. Until a few months ago she had been the soprano of the quartette singing in the First Universalist Church. She is thirty-five years of age.

Paul Murkland, son of the wealthy James Murkland of the firm of James Murkland & Son, has also been prominent in business and social circles. He is his father's heir and has been coached to take his father's place in the great business in this and adjoining cities. He is twenty-five years of age.

Child Goes to Grandfather.

When Mrs. Murkland's father, Andrew Livingstone, learned of the secret marriage he at once took steps to become the guardian of the child. The petition for the hearing on the probate court was filed by Attorney Frank H. Tobar. Mrs. Murkland's brothers-in-law and a police officer help to testified.

Attorney Meade M. Johnson appeared as for Mrs. Murkland, but when the hearing was opened he made no opposition to the petition for guardianship, and the [illegible] granted.

The Murkland [illegible] an elegant home in the [illegible] and at the Merrimac for [illegible] Mrs. Sherburne [illegible] Mrs. Murkland [illegible] wedding young Murkland received the [illegible] dence from [illegible] his bride. But [illegible] was the secret kept for one of the closest [illegible] guessed that he had become the head of that household.

Leaves Church Quartette.

Last May, Mrs. Murkland, who has [illegible] in opera in Boston and other large cities of the East, sang [illegible] engagement as soprano in the First Universalist church quartet. It was rumored that a coolness, very and misunderstanding between the beautiful soprano and the members of the church music committee had led to the breach.

At once Mrs. Sherburne had scores of friends [illegible] [illegible] [illegible]

F.P. 'AFFINITY' EARLE ABANDONS HUNT FOR LOST WIFE

Declares Sadly He Has No Luck in Love, and Takes Passage for Home.

HIS CHILD RUNS FROM HIM

Hart McKee Pays His Wife's Automobile Insurance, and Is Much Distressed.

By VANCE THOMPSON.

Special Correspondent Boston American.

Special Cable to Boston American.

PARIS, April 24.—Ferdinand Pinney Earle, amateurs and realists, has spent the last week scouring Paris and the country near by in search of his former wife. He told his friends in the Latin Quarter that he had discovered that his heart really belonged to his first wife "My affinity," he said, "seems like a dream to me now—a sad dream."

Earle was permitted to see his son Wednesday afternoon. The meeting took place in the private office of his father-in-law, Mr. Fleharty, the publisher in the Rue de Seine. The little

VANCE THOMPSON.

boy was amused at first by his American father's funny way of talking French, but finally fled to his grandfather.

Earle's visit to his son seems to have effected a complete reconciliation and decided to go back to New York.

Sails in Gloomy Mood.

"I will sail by the Potsdam on Saturday," he declared. "It is nothing for me to do here."

When it was suggested that he might make it up with his affinity wife, Earle replied: "I think not. Strangely enough, my love for her has vanished. She doesn't seem to have any luck in love anyway."

His former father in law says that Earle has changed greatly for the worse since his affinity eloped with and married. He does not seem to have any manhood left. The sooner he goes back the better pleased we shall be."

Regretfully and only because he wanted to get back his cream-colored silk underclothes, Hartupee McKee has paid the fugacious debts of Ferdinand Earle, the Baxter-Tevis-McKee, once his wife. The motor car was Hart's own property, but even after the separation he permitted Mrs. Tevis McKee to use it and she took the car with her to the Riviera this Winter. As she refused to pay the insurance, the company came down on Hart for the amount. Mr. McKee swore he would not pay, and left Paris on an automobile tour of his own, which extended as far as Spain.

McKee Feels Much Upset.

It was not until his return that the bailiffs got him. Armed with due legal authority they entered his hotel apartment and seized all his clothes.

What interested Paris was the bailiff's description of the wardrobe of the notorious American, whose wife accused him in a public court of refusing to take baths or change essential garments. I sent you something of the list, but here are the items in fact:

One dozen starched shirts, eight flannel shirts, fourteen pairs cotton underwear, eight pairs cream-colored silk underwear, ten pairs silk drawers, three dozen pairs of pearl-colored; fourteen dozen collars, five pairs kid gloves, fifteen cravats, white and colored; eight black cravats, eight pairs white gloves, twenty-four handkerchiefs, eight pairs socks, seventeen colored hand kerchiefs, two colored shirts, twenty two fancy waistcoats, two dozen pairs of fancy ties, three pairs shoes, two trunks, one valise, lounge suit, frock coat, dinner jackets, black overcoat, spotless cane with gilt top and umbrella with gilt mounted handle. In addition the bailiff found forty paper-covered novels.

Greatly to Hart's indignation, his wardrobe was not treated with respect. One violet colored waistcoat came back spotted and other garments looked as though they had been worn or maltreated.

Meanwhile Mrs. Tevis McKee enjoys the use of her former husband's high-powered car, which is now fifty hours old.

Spread of Roller-Skate Craze.

Chester B. Crawford, the American who is little over a year persuaded all England to go in for roller skating, has leased a site and will erect a large rink in the Avenue Victor Hugo. The floor space will be sufficient to accommodate 2,000 skaters. Heretofore Parisians have had only the artificial ice of the Palais de Glace for skating, and the opening of this new rink will be the first attempt to establish roller skating places in all the leading cities of England, Scotland and Ireland, and even two in Wales. The roller skating mania has just reached the continent and the Paris rink will open in September and simultaneously Crawford will open places in Nice, Marseilles, Bordeaux, Lyons, Biarritz, Brussels, Lille, Berlin Hamburg Vienna and Budapest.

Rich Janitor Retires.

BERLIN, April 24.—A janitor, or hall porter, who has made $12,000 a year for the past ten years, has just retired into private life to spend his declining days on the proceeds of his savings. He was janitor at the famous Lahmann Sanatorium near Dresden, and his income was almost exclusively from tips.

BERTHA KRUPP VON BOHLEN, RECONCILED WITH HER HUSBAND

RICHEST GIRL AND HUSBAND IN LOVE

Bertha Krupp von Bohlen and Spouse Reconciled After Divorce Rumors.

BERLIN, April 24.—Bertha Krupp has become reconciled with her husband, Dr. Gustav von Bohlen and Halbach.

They had been drifting apart for nearly a year, but now, it is said, they have returned to each other and the richest woman in the world" has been brought to realize that she is thoroughly in love with her husband.

The reconciliation, it is said, was brought about by the greatest personage in Europe—Emperor William himself. The Emperor was a close friend of Bertha Krupp's father, attended her wedding, and has taken a great interest in the couple.

For some time the young husband and wife had been occupying separate apartments in the Krupp mansion near the great gun works at Essen. Their estrangement was simply a case of "nerves" on both sides, the nervousness being brought on by worry over the management of the $50,000,000 fortune of the young woman. Both have given up work and worry over financial matters, and now it is expected that their happiness will be complete.

ACTRESSES FORM UNION.

Beehive Hats Must Be Furnished by Managers.

BERLIN, April 24.—At a meeting of German actresses in Berlin steps were taken to organize for mutual protection after the manner of trades unions. Over a hundred stage favorites attended.

Plenipotentiaries gathered mostly around the question of costume. It was decided to use every effort against the custom of theatre managers to compel actresses to furnish their own apparel except for historical productions. "Directoire gowns of 1900 pattern and beehive hats," argued Fraulein Hedwig Wangel, "are as legitimate a part of the stage decoration as furniture, and ought to be supplied by the management in the same way." The practice of making actresses provide their own costume was, she said, an inheritance from the old days of court theatres, when "petty actresses were the playthings of princes and cavaliers, who clothed them like queens."

JEWS PLAN BIG FESTIVAL.

Seventieth Birthday of Chief Rabbi to Be Celebrated.

LONDON April 24.—The Jewish community in this country is preparing for gorgeous festivities at the end of May, when the seventieth birthday of the Chief Rabbi, the Very Reverend Dr. Hermann Adler, is to be celebrated.

A special committee has already been formed by the United Synagogue to organize the celebrations. One of the ceremonies will be a great reception in London which will be presided over by Lord Rothschild. A popular fund is being raised among the Jews to defray the cost of the festivities.

Dr. Adler is one of the greatest men of modern Jewry.

WOMEN LEARN FENCING.

Londoners Turn to Pastime That Is Fashionable.

LONDON, April 24.—The most fashionable pastime for women at the present moment is fencing, and schools of fencing for ladies are springing up all over the West End.

Many girls' schools in all parts of the country are adding fencing to the curriculum, and the entries for the ladies' championships, established only two weeks ago, have risen to forty, compared with twenty-five last year.

The accepted costume for fencing girls consists of a short black skirt, a white shirt-waist, trimly buckled in at the waist and flat, heelless shoes. The fencing waistcoat is no longer worn.

FRANCE INVADED BY "THE AERIAL ROUTE"

German Squadrons of the Air Spy on Frontier Forts from Cloudy Heights.

HOSTILE FLEET DEMANDED

Popular Agitation Grows for Cruisers to Patrol the French Atmosphere.

(Special Cable to Boston American.)

PARIS, April 24. The French military authorities view with alarm the swift growth of the aerial fleet of Germany. Though France has long held the lead in flying machines and dirigible balloons, she has done little in the way of armed airships.

Meanwhile, it is pointed out, the recent performances of German war balloons show the imminence of the danger.

In the first week of April the Zeppelin V made a voyage of 700 kilometres; Parseval had almost an equal record, while Gross has made a trip of over fourteen hours. Now the best record of a French war balloon is a short journey from Paris to Verdun. At present the French aerial fleet is composed of the following six dirigibles: Las Republique, the Lelandre, the Ville de Paris, the Ville de Bordeaux, the Clement Bayard and the Zodiac. Three more are being built—La Patrie, Ville de Nancy and the Colonel Renard—but the military authorities admit that this fleet is wholly inadequate to fight the German aerial squadron, which is armed with formidable destructive engines and able to outrail and outstay the best French airships.

The Minister of War has issued an order by which German balloons landing on French territory may be seized and held until official duties are paid. Two more measures has done nothing to prevent the constant espionage for the Germans is revealing the exact position and strength of the French forts and terrain on the Rhine. The press has taken up the subject and there is a strong popular movement in favor of a powerful air fleet to guard and patrol the French atmosphere.

One of the distinctive features of this apparatus is that the propellers transmit the motive power by means of a differential apparatus which allows each screw to give the desired number of revolutions, maintaining always a horizontal position.

PRIMARY SCHOOL STRIKE.

French Youngsters Have Pickets and Refuse to Return.

PARIS, April 24.—The strike fever has spread pretty well over France. The latest outbreak is in Perpignan, where the pupils of a primary school have struck against "the methods and oppressions" of the schoolmaster. The chief objections to him are that he is too old, being fifty, and that he is not up in modern sports.

When satisfaction was refused their delegates, the youngsters marched out in a body. Their pickets patrolled all the approaches leading to the school to prevent students from sneaking in with their slates and books. The local authorities, wholly surprised by this sudden revolutionary movement, have found nothing better to do than to issue a proclamation to the parents requesting them to intervene, but so far they seem to be standing by the infant strikers, who range in age from eight to fourteen.

The Temps says this evening: "The strikers have as yet not resorted to violence, even to that of bent pins and a peaceful solution is hoped for."

PREDICTS GOOD TIMES.

Jacob Schiff Intrviewed in German Capital.

BERLIN, April 24.—Optimistic tidings of the American business situation are brought to Europe by Jacob H. Schiff of New York, who arrived in Germany with Mrs. Schiff for a few weeks' stay in Heidelberg prior to a pleasure journey through France and a return to America May 20. Mr. Schiff said:

"As soon as tariff revision is settled definitely America will enter upon a period of unexampled prosperity. Everybody wants the tariff revised, but the public is now interested in just what particular changes take place than in getting them made definitely at the earliest possible moment.

"Once that is done I am persuaded that the country may look forward to an era of brilliantly good times. Conditions are ripe for them in all directions."

NEW FASHIONS IN BERLIN.

Jewelled Ankles Worn by Society Women.

BERLIN, April 24.—During the past Winter season German women have been making unheard-of attempts to set new fashions, and have invented all kinds of wild freaks in their efforts to be different from the society women of other countries.

One of the most striking innovations has been jewelled anklets. The society woman first tried it at fancy dress balls, and it was found that the effects of flashing jewels on a slim, silk-covered ankle is wonderfully fetching. The snake form of anklet is the most affected.

Another fresh fadism now frequently to be seen consists of gloves of gold or silver thread.

SPAIN HAS AIRSHIP.

New Ideas in Sanchez's Bi-Plane Soon to Be Tried.

MADRID, April 24.—Even Spain means to be in the running in the attempts now being made to conquer the air. An aeroplane exhibition is to be held at Cubezais in May at which an aeroplane invented by a Spanish engineer will be on show.

The engineer is Senor Sanchez, and his apparatus is a bi-plane with mountings of steel, nickel and chrome. The wings are made of silk.

THREE PLOTS ON LIFE OF THE CZAR

Narrow Escapes for Nicholas, the Most Unhappy Man in All Europe.

MRS. TAFT VS. MODISTE

Paris Greatly Interested in the White House Wardrobe of French Fashions.

By MARQUIS DE CASTELLANE.

Special Cable to Boston American.

PARIS, April 24—(In no less authority than that of a Grand Duke I learn that unhappiest man in Europe to-day is not the Sultan of Turkey, but Nicholas II., Czar of all the Russias. The daily and nightly happenings in the Imperial court are ample cause for the state of terror in which he lives.

For instance, a few evenings ago the Czar sat down to dine with his family. The chief dish of the repast was a delicate fish called beluga. It is said to taste the food destined for the Imperial table took a handful of the soup and fell unconscious to the floor.

An antidote was promptly administered and he life was saved. A chemical analysis showed that the Czar was unhappy.

Three murderous anarchistic plots in a week. Life on the Russian throne is not, you see, a bed of roses.

Mrs. Taft's Fight for Fashion.

I have not the honor of knowing Mrs. Taft, but I believe I am interested in her aspirations, and in the aspirations also of the gilded of them. Now, I learn from the American that during the four years at the White House, she is going to try to shift the centre of gravity of fashion.

This is no slight task; but, frankly, our sympathies are all with Mrs. Taft. Our assistance is leading against the citadel where reign those absolute sovereigns, the dressmakers of Paris, who claim to monopolize fashion.

Mrs. Taft has undertaken, I understand, to break down this monopoly. In other words, she is going to destroy the fetich of fashion itself.

It is quite clear fashion exists only because the world of women follows with submission those who invents and suggests the modes. For a long time it has been the Parisian woman who has set the styles and she has never had to fear a rival. It is not too much to assure that in this duel between Mrs. Taft and the eternal Parisian, the First Lady of Your Land is conquering advance.

The time has long gone by when each country had its national dress. Even the peasants have given up their historic costumes. Today the ladies of Greece and Turkey, of Norway and Japan, wear Parisian gowns—or the nearest imitation they can get. The only way to overthrow the dominion of the French dressmakers, I fear, is to destroy in lovely woman her reverence for fashion.

Paris Welcomes Princess Loutfoullah.

Here is the latest about Prince Loutfoullah, son of Mahmoud Pahes and nephew of Abdul Hamid, who, as you know, some time ago fell in love with a beautiful Greek girl, Sophia Zographia.

The prince wanted to marry the fair Greek out of hand, but the Sultan refused his consent and threatened his nephew with exile, with prison and even with death. Love, as usual, found a way. Sophia and her mother fled at night from Constantinople in an open boat. After many adventures they reached Austrian soil. A few days later the prince joined them in Vienna. There they fled to dresseln, where they were married.

Yesterday the Turkish prince introduced his bride to Paris in a perfect fit, en grou, in one of the fashionable hotels. She is delicious. Prince Loutfoullah, exile though he be and stripped of his great possessions, is the object of no sympathy.

PARTY CIVIL WAR.

Labor Voters of England Fight Among Selves.

LONDON, April 24.—Every political party in Great Britain is suffering more or less from internal dissension, but none more than the labor party, which three years ago seemed to have an opportunity for gaining a most distinct place as the most powerful political factor in the country. To-day its various camps attack one another with the utmost fierceness, and when time can be spared from civil war they attack the Independent Labor party, which claims to be the only true representative of labor in Parliament.

At the great Easter conference in Edinburgh the revolt against the leaders was headed by a native young Socialist, Grayson, who lumped Keir Hardie and the "old gang" with the Liberal government as traitors to the cause of labor, and has since refused to speak on the same platforms with the national administrative council, which later excommunicated Grayson.

MYSTERIOUS WOMAN REMOVED FROM PHOTOGRAPH OF KING

Picture postcard that has set London tongues wagging. Note that upper portion of woman walking with King Leopold has been blacked out by the photographer. On the sand at his side her shadow can be seen. Why was her features removed from the photograph?

POSTCARD SETS TONGUES WAGGING

LONDON, April 24—Who was the mysterious woman who was photographed while walking with the King at Biarritz, and was why her face was carefully "touched out" by the photographer who put out the picture broad cast on picture postcards?

These questions are worrying many others than those who have the souvenir postcard fad, and hundreds who have never before bought the little pasteboards are sending orders to the dealer, who has been asked "indiscreetly discreet."

The photograph shows the King walking by the seashore with a woman, who has been partially removed from the picture. Was it because the photographer desired the picture of the King to stand out more clearly? Many serve this was the true reason.

"But," say those who take another view, "if this is true, why was not the lower part of the woman's figure removed?"

No one knows but the photographer, and he is too busy turning out the cards to answer questions.

LONDON PAGEANT-MAD.

Residents of Squalid Quarter to Have Royal Support.

LONDON, April 24—The squalid East End of London is going to have a pageant of its own, at last. It is to take place early next month, and the performers will all be little Whitechapel boys and girls. The pageant will not, however, pass through the streets, but instead it will be staged in the Whitechapel Art Gallery under the auspices of the famous pageant maker, Louis N. Parker, and the writer of Cockney stories, Pett-Ridge. Two of the young princesses in the Prince of Wales's family will attend it.

Pett-Ridge produced an excellent "book" of dialogue, not in rhyme, but in prose, which will be spoken by Stow, the historian of London, and a modern boy and girl of London in the twentieth century.

Children from twenty-six East End schools will take part in the performance. The music has been composed by Herr Gustav von Holst, and Miss Rosabel Watson will conduct the orchestra.

TO EXHIBIT ART.

First Exposition in History of Stockholm, Sweden.

STOCKHOLM, April 24.—The first exhibition of art handiwork and industrial art ever held in Sweden will be opened in this city June 4 under the patronage of King Gustaf.

The initiative of arranging this exhibition was taken by the Swedish Slojd society, which received much aid support from the state. The exhibition committee includes Prince Eugene as its honorary president. The chairman is A. G. Stockholm.

The exhibition is modeled, by permission of the king, in a picturesque section called the Royal Park, near the city. The land upon which the buildings are being constructed is surrounded by wooded hills sloping down to the water, which forms the chief entry to Stockholm's harbor.

In spite of the narrow confines of the plot chosen for the erection of the buildings, the architect has created structures of a character unique in practical arrangement as well as beauty.

Kaiser's Gift to Harpist.

BERLIN, April 24.—Last Winter, when the garrison church was burned, a valuable harp belonging to Zdenka Lerando was destroyed by the fire. The Kaiser has presented the player with 4,000 marks to compensate for the loss.

HAMMERSTEIN HAS MESSAGER NETTED

Special Cable to Sunday American.

PARIS, April 24.—The problematic silk hat of Oscar Hammerstein is once more one of the sights of Paris.

The New York impresario is stopping at the Hotel Continental. The news of his arrival soon spread through the operatic world and the hotel servants have been busy protecting his apartment on the sixth floor. The first few days Mr. Hammerstein gave up to a leisurely investigation of the relations of Paris, post poning work until he had recovered from the fatigue of the New York season and much brace.

He rested at Maxims one night and others at the Amoye of Montmartre. On Wednesday he began work with M. André Messager of the Paris Opera House. There have been several consultations, and there is every possibility that next season the great French composer will wield the baton at the Manhattan Opera House. Speaking of the outlook, Mr. Hammerstein said:

"Nothing is absolutely settled; we are still talking. I have one advantage over Messagere. I read all that he had to say for and against his going to New York in the American before I left home, but my arguments are all new to him."

Mr. Hammerstein has made a number of appointments to hear new singers. On Thursday he telegraphed Miss Marcel, who is still in Vienna, of a meeting will probably be arranged in Paris very soon.

"Anyway," said Mr. Hammerstein "I am going home this Summer with my grip sack full of contracts. New York can be sure that I shall get the best Europe has to give."

DIVORCEES TO REWED.

Mme. Rejane Will Again Marry Former Husband.

Special Cable to Sunday American.

PARIS, April 24—Mme Rejane, who was Mme. Porel, is to remarry her husband.

This news is practically official and the reconciliation of which "All Paris" is talking has been brought about by the tender reverence of both husband and wife.

M. Porel, who has been trying to manage the Vaudeville Theatre has to give up because of a constant lack of money. Mme. Rejane has been fighting a losing battle at the latter bearing her name, and M. Porel is going to manage her theatre for her.

So M. Porel is a new position as Mme Rejane will not have to leave her theatre. It is not only an admirable business arrangement but seems the ideal settlement of amicable relations and a new marriage is to annul the divorce which marred the career of these two artists a few years ago.

"There is nothing to bring two people together as M. Porel explained to day, 'like a run of bad business.'"

All Parisians are Rejane's well wishers in her husband.

WANT FASTER MAIL.

Londoners Ask Swifter Service by Steamship.

LONDON, April 24—A memorial signed by the leading members of the Liverpool chamber of commerce urging that the Lusitania and Mauretania be required to call at Queenstown for mail, and by New York shippers asking that Thursday delivery mails in New York would be reindered possible, since it is understood that when the Lusitania and Mauretania are running on the southern route from August to the end of the year they are due to arrive in New York after Thursday noon.

AMERICA ALONE CAN SAVE EMPIRE FROM DESOLATING WAR, SAYS STEAD

Scores Europe's Policy of Secret Diplomacy, Shuts Her Eyes to Perils and Arms Against Fictitious Foes.

PREVENTION BY BOYCOTT

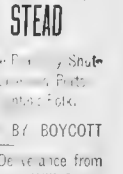
Every Line, Deviance from Leading Doom Will Come from Terrors of the Air.

By WILLIAM T. STEAD.

Special correspondent of Boston American.

Special Cable to Boston Americas.

LONDON, April 24—I have just received from the United States and am glad to find that my fear that the Old World is drifting helplessly into a war, which no one wants, but which no one has the power to stop, is not shared by my friends on the other side of the Atlantic. They appear to be inclined to regard the beginning of military and naval expenditures



WM T STEAD

as the origin rather than the consequence of the organization of the armed might of great powers to compel the disputants to refer their quarrels to arbitration. Any one who investigates such a cause would be regarded by the German-Austrian Empire as a blow levelled against their liberty of action. Rather than wait for an attack [illegible] first would be [illegible] to [illegible] first.

So the Old World stumbles forward, hypnotized to its doom.

It is incredibly evident that if deliverance is to be found, it must come from without. And it can only come from two sources—from the air or from America.

Airships Will Destroy Frontiers.

The aeroplane and airship by destroying [illegible] of [illegible] [illegible] [illegible]

36 ARE SELECTED FOR TOUR OF EUROPE AT EXPENSE OF THE BOSTON AMERICAN

WINNERS ANNOUNCED IN SUNDAY SCHOOL TEACHERS' CONTEST

With Competent Guides the Party Will Sail from Charlestown Docks Saturday Morning, May 29.

THE PRIZE WINNERS.

TOUR NO. 1.

MARY THOMPSON, Quincy ..	823,388
M. FRANK LUCAS, West Newton.	438,334
JOHN J. MULVIHILL, Waltham.	251,628
MAURICE R. FLYNN, Malden.	1,240,171
AGNES L. BEDARD, Winchester..	289,529
MARGARET M. BETTER, Revere .	547,117
LEONA KELLEY, Cambridge..	398,015
ELLA M'CRILLIS, Somerville.	545,677
ABRAHAM SIMON, Boston..	1,737,578

TOUR NO. 2.

EDITH PINEO, Hyde Park..	639,553
MARGARET HICKEY, Brookline..	417,617
JAMES M. CLIFFORD, Watertown	104,796
CARRIE E. LAWLER, Maplewood.	915,589
MRS. JAMES GIVEN, Woburn....	222,163
IDA M. EBSARY, Chelsea.	122,973
MOLLIE ELLIOTT, Cambridge.	355,631
MRS. L. H. BARNARD, Somerville	280,403
JAMES F. WINSTON, East Boston.	1,656,738

TOUR NO. 3.

CHARLOTTE SWEENEY, Quincy.	580,260
ELIZABETH BINGHAM, Brookline	275,529
FANNIE HARMON, Watertown	76,250
WINIFRED SAWYER, Melrose Highlands.	124,779
MARGARET PREST, Stoneham	200,488
ANNA MORLEY, Chelsea.	331,585
JOSEPH F. HIGGINS, Cambridge	296,612
M. FRANCES MATTIE, Somerville	269,109
PROFESSOR J. H. RIPLEY, Boston	1,319,369

TOUR No. 4.

INA M. LIDDELL, Readville,	273,117
GERTRUDE HOWE, Brookline. ...	200,990
MARY MAGEE, Watertown.	71,838
MRS. WILLIAM KENNEY, Medford	80,468
MRS. H. L. ANDREWS, Woburn...	100,947
MARGARET YEOMANS, Beachmont.	316,325
GRACE PICKLES, Cambridge...	246,147
ANNA HENNESSEY, Somerville..	247,164
HELENA TORTORELLA, Boston..	1,298,372

THERE they are—the winners in the Boston American's big European Tour contest for Sunday school teachers of Boston and suburbs!

There are the names of the thirty-six young men and women who have been chosen by public ballot as the Hub's most popular Sunday school teachers, and who by reason of their popularity will spend their vacations in Europe next Summer as guests of the Boston American!

The contest closed at midnight Monday. Great enthusiasm and an avalanche of votes characterized the finish. It was a nip and tuck struggle all the way through, and the closing moment found one candidate—the last voter—still casting Special Ballots by hundred lots. He was James F. Winston of East Boston.

Considering the size of the territory it included, the contest was the most successful ever conducted by a New England newspaper. The tabulated vote of all candidates, as given in another column, shows some huge surprises among the winners—just as we predicted weeks ago.

"Dark horses," who crept in during the last hours, captured first tours in some districts from candidates who had not been dethroned from district leadership since the contest started.

The big feature of the election was the fight in District No. 9—Boston—Abraham Simon, of Temple Ohobe Shalom, won. With a whirlwind stride at the finish, he landed first place in as pretty a newspaper election as was ever fought. His strength was an ample testimonial of his popularity, as it was of the other young men and women who raced with him.

James F. Winston, East Boston's popular young candidate in the contest, finished second. His fight was gallant. His friends were legion. They backed him with SPECIAL BALLOTS to a man. Professor J. H. Ripley of the First Presbyterian Church, and Miss Helena Tortorella of the Church of Our Lady of Pompeii, finished third and fourth, respectively, and the vote polled by each of them was tremendous.

Miss Mary Thompson of No. 47 Main street, Quincy, won the big prize in District No. 1, Milton, Quincy and Hyde Park. This was one of the districts in which the surprises occurred. Miss Edith Pineo, who finished second, had held the lead in the district since the contest started, and it was only an avalanche of SPECIAL BALLOTS that dethroned her at the finish.

Miss Ina M. Liddell, with a giant effort at the last moment, took fourth place from Mrs. Anna M. Bither. Miss Charlotte Sweeney finished third. All four candidates polled a big vote, and each of them was backed by a host of friends and acquaintances.

There was another surprise in District No. 2, Newton and Brookline. M. Frank Lucas of West Newton jumped from the bottom of the district to the top and took first place from Miss Margaret Hickey of Brookline. Miss Hickey finished a good second; Miss Elizabeth Bingham, third, and Miss Gertrude Howe, fourth.

John J. Mulvihill had things all his own way in the Waltham and Watertown district. He won in an easy finish. Second place went to James M. Clifford. Entering in the last weeks of the contest, Miss Fannie Harmon of Watertown ran third.

Malden, one of the big features of the district was the battle between Maurice R. Flynn of Sacred Heart Church, Malden, and Miss Carrie E. Lawler of Maplewood Baptist Church. It was a fight for first place, with honors about even until the last. Then Mr. Flynn stepped in, and with the backing of a host of friends in Malden, Medford and Melrose, practically walked away with the honors.

Miss Lawler made a petite fight, and finished a good second. Malden plans to make the following during the week.

Great surprise will be occasioned in Woburn, Wakefield and Stoneham by the contest raised in District No. 5 of Margaret Prest from the leadership. After holding first place all the way through Miss Prest went down under an onslaught of special ballots from the friends of Mrs. [illegible] and Miss Agnes L. Bedard [illegible] applause.

Both Miss Bedard and Mrs. Given had held their victory carefully. Their effective work was done in the closing hours, and while Miss Prest's friends were getting ready to celebrate her victory, the young women were polling votes by thousand lots. Miss Bedard won, Mrs. Given finished second; Miss Prest third and Miss H. L. Andrews fourth.

The much sorrowed little chance in the standing in district No. 6, Revere, Revere and Chelsea. Miss Margaret M. Better belongs to first place. Miss Ida Ebsary of Chelsea, Miss Anna Morley of Chelsea, and Miss Margaret Yeomans of Beachmont battled for position, finishing in the order named.

Miss Leona Kelley, the popular young teacher in the Blessed Sacrament Church, Cambridge, won the honors in District No. 7. She defeated Miss Mollie Elliott in a lively finish. Joseph F. Higgins won third [illegible] and Miss Grace Irene Pickles, district [illegible] fourth.

In District No. 8, Somerville, Miss Ella McCrillis had things quite her own way. She won by a large vote. Mrs. H. L. Barnard took second tour, Miss M. Frances Mattie third tour and Miss Anna Hennessey fourth. The voting was fast at the [illegible].

The winners will sail for Europe aboard the S. S. Cymric, leaving Charlestown Saturday morning, May 29, at 6 a. m. All the arrangements for the tours have been completed and everything possible has been done for the safety and comfort of the tourists while they are away.

Complete information regarding tours, baggage, accommodations, etc., will be furnished to candidates upon personal application to the European Tour Department on the fifth floor of the Boston American building, Nos. 80-82 Summer street.

HERE IS STANDING OF EACH CANDIDATE

Here is the tabulated standing of the candidates, showing the total vote polled by each up to the close—midnight last Monday:

DISTRICT NO. 1.

Mary Thompson, Quincy..	823,388
Edith Pineo, Hyde Park..	639,553
Charlotte Sweeney, Quincy	580,260
Ina M. Liddell, Readville	273,117
Miss Anna L. Bither, Hyde Park	332,952
August Viden, Quincy	21,710
Mary Deacon, West Quincy	16,524
Mrs. George Seville, Quincy	3,044
Lizzie Bell Stearns, Hyde Park	1,000

DISTRICT NO. 2.

(Newton and Brookline).

M. Frank Lucas, West Newton	438,334
Margaret Hickey, Brookline	417,617
Elizabeth Bingham, Brookline	275,529
Gertrude Howe, Brookline.	200,990
Mary Edwards, Newton Centre	124,914
Matilda McGilley, Brookline	25,780
Mrs. Charles Fletcher, Newton	1,800

DISTRICT NO. 3.

(Waltham and Watertown.)

John J. Mulvihill, Waltham	251,628
James M. Clifford, Watertown	104,796
Fannie L. Harmon, Watertown	76,250
Mary Magee, Watertown..	71,838

STARTS MOVE FOR NOISELESS FOURTH

Springfield Association Asks Aldermen to Make Nation's Holiday a Safe One.

SPRINGFIELD, April 24.—The first step in a general movement toward a noiseless and safe Fourth of July, has just been taken by the Independence Day Association of this city which has petitioned the Board of Aldermen to cut down the [illegible] which the firing of explosives may be permitted on the Nation's gala day.

The Board of Aldermen passed an ordinance permitting the firing of explosives [illegible] at 3 o'clock on the morning of the Fourth. The Independence Day Association petitioned the Board to amend this [illegible] making the time for the beginning of firing entirely a matter for the discretion of the [illegible] Association. [illegible] Board will [illegible] to the dealers [illegible] Springfield in regard to the [illegible] which will prohibit parties from [illegible] Association in a petition to the Board of Aldermen read the [illegible] a law which will prohibit parties from [illegible] and firing off of giant crackers [illegible] and [illegible] of sparks and [illegible] and the firing of blank cartridges [illegible] produce lockjaw.

[illegible] to make the Fourth of July [illegible] and [illegible] the [illegible] of [illegible] and [illegible] the [illegible] of [illegible] and [illegible] the [illegible] of

UNVEIL IRISH CROSS FOR HERO PIONEERS

Defence of Tipperary Homes Recalled in Oration by Devlin.

LED THE WAY TO VICTORY

Thousands Cheer Tributes to the Heroes of Ballycohey.

[illegible]

DUBLIN, Ap[illegible] A feature of the celebration of the [illegible] Tipperary [illegible] the unveiling of a Celtic cross to the memory of the late Michael Davitt, who was born in Straide, County Mayo, in 1846. The cross was erected on the site of the cabin in which Davitt was born, and the ceremony was performed by Michael Davitt, brother of the late Michael Davitt, and [illegible] Parnell. [illegible] Dillon Croke [illegible] Archbishop of Cashel, and [illegible] Archbishop of Dublin, [illegible] Bishop of Clonfert, [illegible] Bishop of Ossory, [illegible] Bishop of Limerick, [illegible] Bishop of Killaloe, [illegible] Bishop of Kilmore, [illegible] Bishop of Ardagh, [illegible] Bishop of Clonmacnoise, [illegible] Bishop of Elphin, [illegible] Bishop of Achonry, [illegible] Bishop of Tuam, [illegible] Bishop of Galway, [illegible] Bishop of Clonfert, [illegible] Bishop of Kilmacduagh, [illegible] Bishop of Kilfenora, [illegible] Bishop of Killala, [illegible] Bishop of Ardagh, [illegible] Bishop of Clonmacnoise, [illegible] Bishop of Elphin, [illegible] Bishop of Achonry, [illegible] Bishop of Tuam, [illegible] Bishop of Galway, [illegible] Bishop of Clonfert, [illegible] Bishop of Kilmacduagh, [illegible] Bishop of Kilfenora, [illegible] Bishop of Killala.

Michael Davitt, as spokesman for the family of the late Davitt, selected Mr. John Dillon for the honor of unveiling the cross. The refusal to accept the invitation of the Lord Mayor of Dublin to attend the ceremony was [illegible] fearless leader took occasion to [illegible] a bitter [illegible] the [illegible] forces of the Crown and the landlords.

Wore Vest of Mail

Before [illegible] Mr. Dillon [illegible] Davitt [illegible] Mr. Dillon [illegible] Mr. Dillon [illegible] Mr. Dillon

GRACE PICKLES, Cambridge.....	246,147
ANNA HENNESSEY, Somerville..	247,166
HELENA TORTORELLA, Boston..	1,298,379

THERE they are—the winners in the Boston American's big European Tour contest for Sunday school teachers of Boston and suburbs!

There are the names of the thirty-six young men and women who have been chosen by public ballot as the Hub's most popular Sunday school teachers, and who by reason of their popularity will spend their vacations in Europe next Summer as guests of the Boston American!

The contest closed at midnight Monday. Great enthusiasm and an avalanche of votes characterized the finish. It was a nip and tuck struggle all the way through, and the closing moment found one candidate—the last voter—still casting Special Ballots by hundred lots. He was James F. Winston of East Boston.

Considering the size of the territory it included, the contest was the most successful ever conducted by a New England newspaper. The tabulated vote of all candidates, as given in another column, shows some huge surprises among the winners—just as was predicted weeks ago.

"Dark horses," who crept in during the last hours, captured first tours in some districts from candidates who had not been dethroned from district leadership since the contest started.

The big feature of the election was the fight in District No. 9—Boston. Abraham Simon, of Temple Ohabei Shalom, won. With a whirlwind stride at the finish, he landed first place in as pretty a newspaper election as was ever fought. His strength was an ample testimonial of his popularity, as it was of the other young men and women who raced with him.

James F. Winston, East Boston's popular young candidate in the contest, finished second. His fight was gallant. His friends were legion. They backed him with SPECIAL BALLOTS to a man. Professor J. H. Ripley of the First Presbyterian Church, and Miss Helena Tortorella of the Church of Our Lady of Pompeii, finished third and fourth, respectively, and the vote polled by each of them was tremendous.

Miss Mary Thompson of No. 47 Main street, Quincy, won the big prize in District No. 1, Milton, Quincy and Hyde Park. This was one of the districts in which the surprises occurred. Miss Edith Pineo, who finished second, had held the lead in the district since the contest started, and it was only an avalanche of SPECIAL BALLOTS that dethroned her at the finish.

Miss Ina M. Liddell, with a giant effort at the last moment, took fourth place from Mrs. Anna M. Bither. Miss Charlotte Sweeney finished third. All four candidates polled a big vote, and each of them was backed by a host of friends and acquaintances.

There was another surprise in District No. 2, Newton and Brookline. M. Frank Lucas of West Newton jumped from the bottom of the district to the top and took first place from Miss Margaret Hickey of Brookline. Miss Hickey finished a good second; Miss Elizabeth Bingham, third, and Miss Gertrude Howe, fourth.

John J. Mulvihill had things all his own way in the Waltham and Watertown district. He won in an easy finish. Second place went to James M. Clifford. Entering in the last weeks of the contest, Miss Fannie Harmon of Watertown nosed out Miss Winifred Sawyer for third.

Out in Malden, one of the big features of the contest was the battle between Maurice J. Flynn of Sacred Heart Church, Malden, and Miss Carrie E. Lawler of Maplewood Baptist Church. It was a fight for first place, with honors about even until the last. Then Mr. Flynn stepped in, and with the backing of a host of friends in Malden, Medford and Melrose, he virtually walked away with the district.

Miss Lawler made a pretty fight, and finished a good second. Malden plans to celebrate the victory during the week.

Great surprise will be occasioned in Woburn, Winchester and Stoneham by the defeatsuffered in District No. 3 of Margaret T. Prest from the leadership. After holding first place all the way through Miss Prest went down under an onslaught of special ballots from the friends of Mrs. James Given and Miss Agnes L. Bedard, the latter a new candidate.

Both Miss Bedard and Mrs. Given had planned their victory carefully. Their entire work was done in the closing hours, and while Miss Prest's friends were getting ready to celebrate her victory, the other young women were polling votes by thousand lots. Miss Bedard won, Mrs. Given finished second; Miss Prest third, and Mrs. H. L. Andrews fourth.

The finish showed little change in the standing in District No. 6, Everett, Revere and Chelsea. Miss Margaret M. Better clung to first place. Miss Ida Ebsary of Chelsea, Miss Anna Morley of Chelsea, and Miss Margaret Yeomans of Beachmont battled for position, finishing in the order named.

Miss Leona Kelley, the popular young teacher in the Blessed Sacrament Church, Cambridge, won the honors in District No. 7. She defeated Miss Mollie Elliott in a lively finish. Joseph F. Higgins won third tour and Miss Grace Irene Pickles, daughter of Rev. F. M. Pickles of Cambridge, fourth.

In District No. 8, Somerville, Miss Ella McCrillis had things quite her own way. She won by a large vote. Mrs. H. L. Barnard took second tour, Miss M. Frances Mattie third tour and Miss Anna Hennessey fourth. The voting was fast at the finish.

The winners will sail for Europe aboard the S. S. Cymric, from Charlestown Saturday morning, May 29, at 6 a. m. All the arrangements for the tours have been completed and everything possible has been done for the safety and comfort of the tourists while they are away.

Complete information regarding tours, baggage, accommodations, etc., will be furnished to candidates upon personal application to the European Tour Department on the fifth floor of the Boston American building, Nos. 80-82 Summer street.

HERE IS STANDING OF EACH CANDIDATE

Here is the tabulated standing of the candidates, showing the total vote polled by each up to the close—midnight last Monday

DISTRICT NO. 1.

Mary Thompson, Quincy....	823,388

STARTS MOVE FOR NOISELESS FOURTH

Springfield Association Asks Aldermen to Make Nation's Holiday a Safe One.

SPRINGFIELD, April 24.—The first step in a general movement toward a noiseless and safe Fourth of July, has just been taken by the Independence Day Association of this city which has petitioned the Board of Aldermen to cut down the time during which the firing of explosives shall be permitted on the Nation's gala day.

The Board of Aldermen passed an ordinance permitting the firing of explosives to begin at 8 o'clock on the morning of the Fourth. The Independence Day Association petitions the Board to amend this ordinance making the time for the beginning of the racket to be 10 o'clock. This is being extensively signed in the business section of this city.

In order the accomplish the end sought after, more general co-operation is necessary, the Springfield Improvement Association is to co-operate with the Independence Day Association in a petition to the Board of Aldermen next October. It proposes a law which will prohibit entirely the sale and firing off of great crackers, the blind eyes and tear off fingers and hands, and the firing of blank cartridges which so often produce lockjaw.

There is no intention to make the Fourth a day without recreation and harmless noise, for the sale of small firecrackers is not to be prohibited nor the firing of toy pistols and small torpedoes. It is the intention of the association to substitute a patriotic and historical demonstration for the dangerous racket of the present Fourth of July celebrations which result in injury and death to so many.

HERE ARE THE PLACES THAT WILL BE VISITED BY AMERICAN'S GUESTS

TOUR No. 1.

Saturday, May 29.—Depart from Boston aboard S. S. Cymric, twin screw, 13,096 tons, from company's pier at Charlestown, 6 a. m.

P., [illegible] Dillon and Michael Davitt [illegible] Tipperary [illegible] Hon. T. D. Sullivan [illegible] Dublin [illegible] Dillon [illegible] Dublin [illegible] Dillon [illegible] Dublin [illegible] Dillon

THE JOURNAL OF A NEGLECTED WIFE

Synopsis of Preceding Chapters.

The wife in the story, after forgiving an unfaithful husband, finds that he has not changed. She leaves him, and, with the help of a friend, secures a position as governess of three children. Her employer, Mr. Hunter, is a widower, and she finds that he is a man of high character. Soon after her arrival at his home, Mrs. Hunter's sister, Miss Chandler, arrives on a visit. She is a beautiful woman, and Mr. Hunter is evidently greatly attracted by her. Miss Chandler, however, is engaged to a man named Ralph Bolton, who is a friend of Mr. Hunter's. Bolton is a man of high character, and Miss Chandler is evidently in love with him. Bolton, however, is not in love with Miss Chandler, and he tells her so. Miss Chandler, however, is determined to marry Bolton, and she tells him so. Bolton, however, is not in love with her

HOWARD

AT THE OLD — THIS WEEK

BOSTON'S BRIGHTEST, BIGGEST and BEST BURLESQUES

?

Yes, there's a big question before the house for the patrons to answer this week at the old Howard. Phroso, it's great! what a show it is! the finest number of girls in the whole business! We are passing around in the dark on this great mystery question, but you can be sure of a real big time if you will keep the happiness secret as that we can do the "Transvaal or Columbus" act and discover a few things at the same time. Whether it is for or against us is for you to decide. That little matter, trimmed of grotesque glare, is where we promised to tell you. Phroso, Morning, Noon and Night? Comment will follow a few days hence on how we honestly put you wise to a number of things that are not down on the official score card. If what's in, we're looking for, and plenty of them, what's new or coming your way with a smile, when the business lights of the old Howard is all right in short order. Must a man, has ever been found out that he was really the real he struck the Bohemian afew shop—that's the answer, so take a course of the best treatment yourself.

SMOKING ALLOWED
WONDER OF WONDERS

PHROSO

When folks tell you, there's nothing new where you are, there is hitting the wrong kind of dope. Phroso knows that assertion higher than a weird kite. Phroso moves and moves a human being and yet adventure declare that no human being can do the stuff. Others declare it is a target life that [illegible] mechanics. Then. Whatever it is, it's what it appears, and we are obliged to pass it on as the most marvelous mystery of the age. Get your ballot in thinking order, either afternoon or night and see if you can solve the mystery

MORNING, NOON and NIGHT

M. M. Theise has reunited together a rapid group of gaiety generators who have got the dot and dash over them to a science. The summer their squirrels will have a hunch that you're not out to do their vocations, and those who are in the know on the [illegible] Howard [illegible] [illegible] [illegible]

PRIZE TO DEVELOP CANDIDATES' STRENGTH

THE great voting race to select schoolboys and schoolgirls of New England for the Boston American's magnificent vacation tour prizes has only just started.

A special prize of $100.00 in gold is offered for the leaders in vote-getting during the week beginning to-morrow. It should serve to bring many a "dark horse" into the contest and will, undoubtedly, develop some startling activity among the candidates, their friends, and their relatives.

Boys and girls who join now may jump into the lead at once. Voting will continue until school closes, and the first of the weekly special prizes offered to-day should serve as an incentive to the boys and girls to get out and do their best. Standing of candidates in the race may change during the week.

Pick Own Escorts.

Four boys will be picked to race around the world against the record of sixty and one-half days now held by Frank G. Fitzmorris of Chicago. Four girls also will be chosen to tour the capitals of Europe. Faculty members will serve as chaperoning escorts to be selected by the winning boys and girls.

New York Worlds Fair Tour Free.

EACH OF THE WINNERS WILL BE PERMITTED TO SAME HIS OR HER OWN LOCALITY OR PERMIT A MEMBER OF THE IMMEDIATE FAMILY TO ONE OF THE MEMBERS ON THE FAMILY OF THE WINNERS, PERSONAL OR TEACHER, TO ACCOMPANY THE WORLD.

All will be selected by the readers of the Boston American. The entire contest is a question of industry and policy on the part of the contestants. Intelligent work in a district should not only pile up a good vote in that district in short order, but in the end, if the first will send with the final, also be made.

The vote value of the paid subscriber subscriptions will positively remain unchanged throughout the contest. In other words, your subscriptions, if turned in to-day, will receive the prompt delivery of the papers to your friends and patrons. This is as much to your interest, as it is to the interest of the Boston American.

Do not hold up your votes. Get a good line on your field at once, and then your work will be carried out as mapped out before the time of expiration. In no case will the American be responsible for votes that are received and not credited to the contestant's name and the voters in the event of failure to receive credit for the same, but it is important that the bona fide coupons should be properly filled in.

Swarm at Headquarters.

The headquarters of the Around the World Department are open to all boys and girl candidates these days. Subscription-getting and voting will be the order of business from now on. Any boy or girl who wishes to contestants may call into the contest subscription department. A large force of clerks is kept busy from 8:30 in the morning until late at night crediting the votes to which subscriptions pledge entitle contestants.

And the Around the World Editor does not forget to see the boys and girls and bids them to his room to talk and discuss various points in the contest.

Glad that you came, boys and girls, you and your mothers, too. You are cordially invited to return every day of the week. Let us help you pile up votes. In addition to helping you pile up votes, we are ready to give you advice about how best to utilize your time and efforts.

Those of you that live in territory far away from Boston write to the Around the World Editor. Ask questions. Find out about the various problems that may arise from time to time, and he will be glad to answer either through the columns of the American or by mail.

Remember this contest is not confined to the school children of any one section or city or locality. Any boy or girl of fourteen years old or over, in good standing in public or private school, day or night school, high or grammar school, university, Sunday or parochial school, is eligible. This offer is for the school children of the States of Massachusetts, Maine, New Hampshire, Vermont, Rhode Island and that part of Connecticut which is east of the Connecticut River.

Today the Boston American offers $100 in gold to be divided in special prizes to schoolboys and girls securing the largest number of votes by paid-in-advance subscriptions during the week beginning Monday morning, April 26, and ending at midnight Saturday, May 1. Subscriptions mailed and showing the postmark of May the 1st will be counted in the computation of the winners of these special prizes.

Remember competitions have not closed. A new contestant entering today or the next and still win the lowest vote today has absolutely the same opportunity to secure one of these prizes as the contestant who now leads the voting list. These prizes are for you and YOU CAN WIN. It will pay you to get your mind to WORK. WORK, WORK.

Get busy today. If you have not yet qualified as a nominee in this contest send in your nominations.

$100 IN GOLD FOR THE SCHOOL BOYS AND GIRLS

THE BOSTON AMERICAN offers $50 in gold to the boys and girls who obtain the largest number of votes through paid-in-advance subscriptions in the School Contest for the free vacation tours from April 26th to May 1st.

This is the first weekly grand special prize offer of the American's Travel Contest for the race Around the Earth, Tours to Europe and travel journeys in America. Individual vote coupons will not count.

REMEMBER, that a new contestant entering the race to-day, or the boy or girl with the lowest vote to-day, has the same opportunity to secure one of these prizes as the contestant who now leads the voting list. These prizes are offered for the largest number of votes (by means of paid-in-advance subscriptions) secured during the week of April 26th to May 1st, inclusive.

The prize of $50 to the girls will be divided in exactly the same manner as the $50 is divided in prizes for boys, as follows:

FIRST PRIZES—$20 to the girl and to the boy securing the largest number of votes by subscriptions from April 26th to May 1st.

SECOND PRIZES—$10 to the girl and to the boy securing the next largest number of votes by subscriptions from April 26th to May 1st.

THIRD PRIZES—$5 to the girl and to the boy securing the next largest number of votes by subscriptions from April 26th to May 1st.

FOURTH PRIZES—$5 to the girl and to the boy securing the next largest number of votes by subscriptions from April 26th to May 1st.

FIFTH PRIZES—$5 to the girl and to the boy securing the next largest number of votes by subscriptions from April 26th to May 1st.

SIXTH PRIZES—$5 to the girl and boy securing the next largest number of votes by subscriptions from April 26th to May 1st.

In case of a tie for any prizes offered a prize identical in character with that tied for will be given to each of the persons so tieing.

WONDERFUL TRAVELS FREE.

FOR SCHOOLBOYS

Fourteen years of age and over.

FOUR FIRST PRIZES.

A Race Around the World. Two teams of two boys each, one East, one West, will try to break the present World's Record.

TWENTY-FIVE OTHER PRIZES.

Twenty-five other boys will be sent in a Special Pullman to New York, Washington and Niagara Falls.

FOR SCHOOLGIRLS

Fourteen years of age and over.

FOUR FIRST PRIZES.

A Trip to Europe for each of four girls to be selected. They will visit all points of interest and travel first class by sea and land.

TWENTY-FIVE OTHER PRIZES.

Twenty-five other girls will be sent in a special Pullman to New York, Washington and Niagara Falls.

Each of the winners will be permitted to name one adult to accompany them. The AMERICAN will pay all expenses on these tours.

HERE ARE ANSWERS TO Q

MANY of the letters being received by the Around-the-World Editor will prove interesting to you and the answers may serve to settle some doubt that is lingering in your mind. Read them. Following are some of the letters received:

Around the World Editor
Will the value of subscriptions be the same all through this contest?
HARRY RUDNICK
Yes. Positively.

Around the World Editor
Enclosed find 110 votes. Please send the subscription blanks for the daily and Sunday AMERICAN. Please state when I've scored 2000 votes over in Boston for vacation.
JOSEPH S. BARRY
No. 66 Auburn street, Manchester, N H
Book sent you. Subscriptions are for the Sunday American only. School closes latter part of June.

Around the World Editor
Please tell me wether the voter's name is to be placed I have got both there started I have sent in about 250 votes will do and I'd like the voter's name on them.
MRS E M PENNEY
No. 120 Walnut avenue, Revere.
Votes should be signed by the voters.

Around the World Editor
Will you inform me whether the paper comes in shortly. I have some more subscriptions which I will forward to you when I receive an answer.
HERMAN O GOFFING.
No. 11 Vine street, Portland, Me.
Papers will be delivered through regular agent. Hurry subscriptions.

Around the World Editor
Enclosed please find 100 votes for William Rhodes, No. 264 Middlesex street, Lowell, Mass. When will my picture be printed?
WM RHODES
No. 264 Middlesex street, Lowell, Mass.
Picture will be printed in its turn.

Around the World Editor:
You will find enclosed ninety coupons in my favor. I hope I may yet stand some chance of winning.
OTTO H CARLSON.
No. 58 Norway street, Boston.
You have every chance to win.

Around the World Editor:
Correction has been made.

Around the World Editor
Enclosed please find 135 votes which I have collected from some of my friends. I am changing boys' votes for girls and we shall continue to try to be the winners. Wait till I get my subscriptions

BOYS AND GIRLS TO SEE MANY QUEER SIGHTS

THE great educational value of the magnificent vacation tours offered free by the BOSTON AMERICAN to the school children of New England are apparently only just beginning to be realized. The fortunate winners of these prizes will see and hear many things that they have never read of.

The rules of politeness in Japan will prove particularly interesting. Japanese politeness is a characteristic which all schoolboys are more or less familiar, but few know the strictness to govern the attitude of Yankee [illegible] and children toward foreign visitors has been adopted.

These rules upon politeness were issued by the Home Office, and took upon such comprehensive matters that they are sure to be noted by visitors from New England. Here are a few of them, for instance:

Rules of Politeness.

"No one should hang around foreigners on the streets or when the latter are [illegible] going.

"Merchants should not overcharge when foreigners make purchases.

"Foreigners' dogs, when taken out on street, should not be molested by stoning, growling or by encouraging dogs with other dogs.

"Foreigners should be very kindly and courteously treated, and when foreigners come to the government offices, suitable sitting accommodations should be allowed them.

"No insulting remarks or jokes should be made against foreigners' customs, manners or conversation.

Don't Call Names.

"Such words as ketojin, akabige, ijin should not be spoken in the streets or public places. Ketojin and akabige are contemptuous terms for foreigners. The latter literally means 'red-haired devil,' and the word for 'different person.'

"Nobody should gaze unnecessarily at foreigners' faces or point their fingers at foreigners.

"Those who are studying foreign language should not accost foreigners, when it is unnecessary, merely for the purpose of practice. If they are an ambitious people and will leave anything to practice English.

"Foreigners ages should not be asked except in cases of absolute necessity.

"The idea should be eradicated that foreigners always give money to beggars for the mere asking.

"When foreigners look at their watches it should be remembered that they have other pressing business to attend to."

There is much in the wonderful journey around the world to interest the American schoolboys, and there is equally as much to interest the girls in their tours of the European capitals.

There are many spots of historical, religious and artistic interest for both the boys and the girls, no matter where they go. Carefully guarded and chaperoned by escorts of their own selection, they will be given an experience in wanderings.

It is up to your own efforts, boys and girls, and that of your friends to win one of these prizes. That the majority of those who have entered the contest appreciate the tremendous opportunity is shown by the interest displayed in securing subscriptions and collecting votes.

SOCIETY BEGINS EARLY EXODUS TO SEA AND COUNTRY

Noted Boston Social Leaders Choose Many Charming Gowns to Dazzle Crowds at Coming Functions.

By Elizabeth Elliott.

AFTER a perfect whirlwind of gaiety during the holiday festivities, the gentler dances, the more exclusive and luncheons members of smart society in the Hub are left weary and eager for the woods and [illegible]

Many have [illegible] ural exodus [illegible] leave of the city now will enjoy a brief respite from social demands, plunging into the sea of summer gayeties at its fashionable [illegible]

Weddings the coming week will make practically the last of the [illegible] fairs in town and then the city will be deserted as far as society is concerned.

In the meantime in the way, dress is the uppermost thought in the minds of both maids and matrons of leisure. Wherever they assemble, be it reception, afternoon [illegible] which is to be [illegible] a vital [illegible]

By [illegible] as those who [illegible] their own in the [illegible]

Not since the famous Worth began his study of cloud and flower and leaf and insect for delicate color [illegible] more thought [illegible] subtle skill [illegible] season [illegible] Boston society woman in gowns was first made apparent, and upon that occasion she fairly eyed herself and suggested the speculation that the society woman of our country set wrong sought of the art of dress.

The marriage woman in the Boston social set [illegible] in which she can easily afford to [illegible] who need no longer [illegible] daring and expensive [illegible]

Her [illegible] being [illegible] them, and [illegible] for her.

The [illegible] appears to [illegible] built of [illegible]

Then there is Mrs. Guy Norris, maiden [illegible] the wonder and delight of Washington, where [illegible] Winter—as well as Boston, which claims her as one of its very best gowned society women. She revels in [illegible] rivaling rainbows in their delicate hues. And Mrs. S. Reed Anthony, whose creations in the softest of satins and most expensive of laces are always a wonder. And Miss Margaret Thomas, whose tropical coloring is always set off to the best possible advantage by the deepest of the pastel shades of yellow, rose and blue; Dorothy Forbes, who is adopting the softest toned chiffons; Mrs. J. Grant Forbes, Miss Leslie Bradley, whose marvelously wrought white and dainty blue creations set off to perfection her blonde beauty, and Miss Mary Josephine Amory, whose gowns all bear the Worth trade mark and who has the most distinctively fashionable wardrobe of any girl in town.

And these are but a few of the hosts of Boston women and girls who are setting the new standard and cultivating that individuality which is the very essence of what is to be the most fashionable in dress this season.

SUPERFLUOUS HAIR

Doctors Say There Is a Harmless, Safe and Sure Way to Remove It

Dr. Starbuck says—I Feel Justified in Making the Assertion That It Is the Only Successful Method of Removing Hair

Every woman [illegible] superfluous hair will undoubtedly be glad to know that there is one positive and logical method of getting rid of this most annoying and embarrassing disfigurement.

The [illegible] professors [illegible] destroys hair [illegible] are many [illegible] claim to do [illegible] attended [illegible] removing [illegible] by using a [illegible] and pomades [illegible] pastes and [illegible] odies which [illegible] the same way [illegible] ing the hair [illegible] heavier than [illegible]

As far as [illegible] is converted [illegible] factory, [illegible] scars and [illegible] last for [illegible] the Nessler [illegible]

Dr. Miracle [illegible] inconvenience [illegible] The method [illegible] should not be [illegible] that of the [illegible] are advertised [illegible] newspapers.

Don't forget [illegible] worthless concoctions [illegible] to remove the hair.

Remember, Dr. Miracle [illegible] the only method for removing [illegible] hair without [illegible] dorsed by physicians, [illegible] naturopaths, medical [illegible] and progressive [illegible] masseuses.

We will send [illegible] upon [illegible] sealed envelope [illegible] for book, [illegible] containing [illegible] as [illegible] synonyms of promin[illegible] surgeons, [illegible] nails and [illegible] principal [illegible] Any [illegible] should read [illegible] book or [illegible] anything. It treats [illegible] subject exhaustively. Write to the DR. MIRACLE CHEMICAL CO., Desk 302, 1265 Park avenue, New York, [illegible] saying you want this booklet, and it will be mailed sealed at once.

[illegible] first time Tuesday afternoon at the Hotel [illegible] throughout it proved most [illegible] and interesting. Among the patrons and patronesses, most of whom were present, were:

Governor and Mrs. Roger [illegible], Mayor and Mrs. George A. Hibbard [illegible], and Mrs. Maxwell, Dr. Arthur A. Sykes [illegible] and Mrs. Thomas Allen, Mrs. Esther Ames, Sr., Professor and Mrs. Dana P. Bartlett, Professor and Mrs. Silas Bates, Professor and Mrs. John Bigelow, Jr., Professor and Mrs. Alfred E. Burton, Professor and Mrs. Francis W. Channel, Mrs. Alexander F. Chamberlain, Professor and Mrs. Charles E. A. Currier, Professor and Mrs. Denis De Leon, Professor and Mrs. Denis R. Dean, Mr. and Mrs. Frederick P. [illegible] Mr. and Mrs. Henry Ivers Bird and Mrs. Carrie Church, Jr., Mr. and Mrs. Wm. A. Bird, Revel Bowman, Mr. and Mrs. Francis H. Brown, Mr. and Mrs. Wolfe Hewston [illegible] Mr. and Mrs. Francis A. Brooks, Mr. and Mrs. Arthur [illegible] Mr. and Mrs. Robert Peabody and Mr. and Mrs. James B. Richardson, Professor and Mrs. Francis G. Peabody, Professor and Mrs. Arthur [illegible] Mr. and Mrs. Frederick P. [illegible] Mr. and Mrs. Wm. Endicott, Jr., and Mrs. Endicott, Miss Endicott, Miss Mary Endicott, Miss Rose Endicott, Miss Pauline Endicott, Miss Ethel

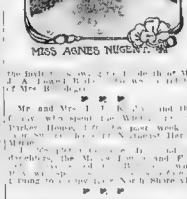
Events of the Week In Boston Society

SOCIAL AFFAIRS

MISS LUCILLE PARKER.

MISS MARGARET COGAN.

MRS. BELLE YEATON.



MISS AGNES NUGENT.

One of the most [illegible] Newport season and [illegible] Events [illegible] Mrs. [illegible] Gear [illegible] congregation was [illegible] The marriage will take [illegible] Miss Wharton [illegible] Theodore Hague, Harvard '98 [illegible] best man, and the matron of honor will be Miss Wharton's sister, Mrs. John B. Velie of Brookline. There are [illegible] wheels and no bridesmaids. The wedding will be made only [illegible] friends being asked to the ceremony and breakfast.

The Boston Branch [illegible] Anthony Home Happy Memories Association [illegible] tion, concerning [illegible] present to the Memorial Hall [illegible] an appropriate testimonial of the esteem in which the late [illegible] Harris was held by [illegible]

To raise substantial sums for [illegible] of affection from lovers of [illegible] and other friends in Boston a concert [illegible] arranged for Monday evening, May [illegible] Rooms at the New Colonial Theatre. Club, Charles Hall Building, [illegible] square. Songs from [illegible] Ireland, will be read by Lizzie Hoyt, [illegible] Waring, Irish songs of Lucy Smith will be sung by Misses Turner.

The assisting artists are Miss Edith [illegible] Castle, contralto [illegible] known in Boston, William Wheeler [illegible] comes from New York [illegible] engagement [illegible] should attract [illegible] his pupilage Mr. [illegible] lore songs of the [illegible] in Gaelic. Mr. Mart Kang the [illegible] who also comes from New York [illegible] engagement [illegible] Mrs. Blanche [illegible] soprano, and Miss Elsie Lawrence, reader complete this extremely interesting program.

The patronesses are Mrs. Ira A. Wood Howe, Mrs. Roger Wolcott, Mrs. Arthur Burnham, Mrs. [illegible] Joseph B. Bay [illegible] Mrs. [illegible] nor, Mrs. Edward L. [illegible] Wallis, Mrs. John Boyd, Mrs. H. H. [illegible] and many others.

Among the most important [illegible] Boston weddings this week will be that of Miss Helen Stevens Coolidge, daughter of John Gardner Coolidge, which will take place Tuesday at North Andover. Miss Coolidge's parents made her home with Mr. Coolidge's parents, Mr. and Mrs. [illegible] Coolidge of Beacon street and [illegible] on one of the best [illegible]

Mr. Coolidge, who recently [illegible] from a position [illegible] at Nicaragua is a member of the Somerset and various [illegible] and is a Harvard '93 man. His [illegible] are J. Randolph Coolidge [illegible] Cary Coolidge and Howard Peters [illegible] sides, who married Edith Lawrence. His mother is a sister of the late [illegible]

The wedding will be a home affair and exceedingly small. Mr. and Mrs. Coolidge, upon the conclusion of their bridal [illegible] will reside in Boston.

Mrs. Larz Anderson, Mrs. [illegible] Mrs. John Quincy Adams, Mrs. Edward D. Brandegee, Mrs. Robert Treat Paine, Mrs. Bayard Thayer, Mrs. William Appleton, Mrs. Henry Cabot Lodge, Mrs. John L. Gardner, Mrs. Arthur [illegible] Mrs. [illegible] Peabody, Mrs. Knyvet Soare, Mrs. J. Livingston Cragin, Mrs. [illegible] Hall, Mrs. Robert Trent Paine, Jr., were in the [illegible] the subscription [illegible] musicales at the Tavern the last of which was given Friday afternoon by the Favorite Trio, assisted by Mr. [illegible] soloist at Trinity, drew a large and fashionable audience. The concerts were given for the benefit of the surgical tuberculosis department of the New England Peabody Home for Crippled Children.

Mr. and Mrs. Edward D. Brandegee of Faulkner Farm, Jamaica Plain, are to join the Massachusetts Summer colony at [illegible] the first week in May. [illegible] Mrs. H. [illegible]

Mr. and Mrs. [illegible] Mrs. [illegible] Mrs. [illegible]

What Is Doing in Boston Theatres

VAUDEVILLE bills are a strong feature on the local stage this week. At Keith's Theatre Andrew Mack heads the bill in a new sketch. Eddie Foy, back in vaudeville, comes to the Orpheum.

David Warfield at the Majestic [illegible] precedes "The Mu[illegible] and such a run on [illegible] here.

"Black Beauty," dramatized from the famous story of a noble horse, is seen at the Grand Opera House. The Bowdoin Square Theatre offers "The Little Church Around the Corner," and [illegible] Square Theatre, "The Globe has the second week of [illegible] with a strong bill.

"On Watch" begins its final week at the Boston Theatre and the Four Cohans of Fifty begins an [illegible] week at the Colonial. Marie Cahill is seen at the Hollis, likewise "The Servant in the House" at the Tremont, and "The Traveling Salesman" at the Park.

Austin & Stone's Museum has a new stage show and curios. The motion picture houses also [illegible] bills. For burlesque there are the Vanity Fair Doodle Girls at the Columbia, the Sam Ton Ton Girls at the Gaiety and "Merry Rosebuds" at the Howard Athenaeum.

Andrew Mack on Big Keith Bill

Andrew Mack, the popular Irish comedian and singer, heads the strong bill at Keith's Theatre this week. He appears in a sketch with especially for him. He is supported by an excellent company and sings some of his well-known songs. Mr. Mack's [illegible] real delight.

Another feature of the [illegible] Hazzard who has come from [illegible] vaudeville and who will put on a monologue which has highly amused New York audiences.

Charles F. Semon, the "Narrow Fellow" will be seen and heard playing strange instruments, singing songs and indulging in numerous mirth-provoking antics.

Others on the bill will include the Reno Sisters in their roaring act, Bothner and Boswell, who skate on real ice; Bissett and Crawford, John P. Rowkes, just back from Africa, Amoe and Effie Connelly, and the Mario Trio.

Warfield Shifts to "The Music Master."

After one week of his new play, "A Grand Army Man" at the Majestic Theatre, David Warfield changes to morrow to his classic, "The Music Master," which [illegible] have loved for its pathos and deep human interest.

There is no need to describe this drama of Herr von Hartog, his sweet daughter and the other characters which seem to live and breathe in the Belasco production. Let it suffice to say that the same cast will be seen as the one seen here before "The Music Master" reaches the height of a few days ago and the appearance of Mr. Warfield in his famous role of Von Hartog will be welcomed here again.

Eddie Foy Leads in Orpheum Vaudeville.

Eddie Foy has jumped into vaudeville again. Hamlet says and all. But he's still another Hamlet on the vaudeville stage, making his entrance [illegible] a freight car at bill of repartee with a stuttering [illegible].

A local favorite on the Orpheum bill is Carrie Scott, comedienne of the Boston ladies, who makes [illegible] while debut this week in a monologue.

An imported act of more [illegible] whose singing of a song [illegible] asked in the writing bill which puzzles [illegible] is

The Five Juggling Jordans will [illegible] to Boston with their distortion [illegible] their new act which [illegible] bring [illegible] All We Do's [illegible] animals hold [illegible] Burroughs Trans-continental [illegible] Burroughs Trans-continental [illegible] Harvey and Lee, Belmont and Weingarten, and other strong acts will be in [illegible] bill.

"Black Beauty" at Grand Opera House

"Black Beauty," one of the most beautiful stories ever written, has been dramatized and will be presented at the Grand Opera House this week. [illegible] the play [illegible] Anna Sewell as an object lesson in kindness to dumb brutes and was drama[illegible] and final week at the Colonial Theatre

WEEK'S ATTRACTIONS AT BOSTON THEATRES

Austin & Stone's Museum—Stage shows and curios.
Boston — "On Warious" (final week).
Bowdoin Square—"The Little Church Around the Corner."
Castle Square — "A Runaway Girl."

CHANCES TO MAKE MONEY OFTEN LOST

Real Estate Investors and Owners Let Opportunities Get Away from Them.

NEED HELP TO CLOSE DEALS

Require Publicity and the Assistance of Reliable, Wideawake Realty Brokers.

"I WISH I had known that that property was for sale. I would have been willing to pay more for it than was been sold for."

How many times in the course of a year does one hear such an expression of regret! How many times does a somewhat well-to-do investor awaken too late to an opportunity that would have more than satisfied him in every particular!

A short time ago a desirable piece of property changed hands for a consideration in the neighborhood of $40,000. The purchaser has been offered a profit of $1000 to turn the deed over to a man who didn't know the property was on the market. The purchaser, however, realizes that he has an investment that will net him better by per cent, and of course is not going to sell.

In this instance it is no surprise to the seller that he did not know the property was on the market. It had never been advertised and had not been put in the hands of a reliable broker. The owner decided to when the proper time appeared and had a purchaser.

Missed a Chance.

Many such cases prove that had he placed this property in the hands of a real estate broker he would have received more for it as the real estate operator would be quick to realize the extra revenue of the numerous sales of that property and would have gotten a big deal out of it.

On the other hand, while we have been the instance of the loss of dollars to the owner who had the property with the broker, there are scores of instances where the owner could know of extraordinary prices that he would get if he had a buyer. Many a piece of property changed hands and then it was found that the buyer had known of it and would have been willing to pay more for it.

If the owner and dealers to invest will only realize the personal service dealer has to offer he would not be so often disappointed. The fact is that no one is able to dispose of anything to great advantage unless he is willing to pay for it. The owner was on the market, but as a general rule the real estate broker is in a position to know and does know what property can be had and what cannot be purchased.

Making of Bargains.

While the dealer will surely endeavor to get all he can for a property, as the greater the price the greater his commission, yet he also operates the other way. That is, if a prospective investor will tell him what he wants and about how much he wants to pay for it, leave it to the dealer to strike a good a bargain for that customer as he will for the other.

The reason for this is that in the interest of the dealer getting a good price for a piece of property listed with him, that person is going to give closer attention to that dealer if the occasion presents itself, while the dealer who offers the better bargain for the other fellow, also makes a friend of a future client.

Occasionally a man will run across a real proposition to which he will give a deal that is, in which he can buy or sell without the aid of a dealer, but the average investor finds it to his advantage to seek the aid and advice of a man whose business it is to know what can be purchased and what is desirable. Then the prospective investor won't have to say "I wished he know that that property was for sale."

1909 TO BE RECORD REAL ESTATE YEAR

Many New Buildings Are Planned for Boston and Its Many Suburbs.

What one element contributes most to the successful carrying on of a large volume of business?

This may appear a strange question, yet it is one that proves interesting when it is analyzed.

One might answer that the greatest element is the general prosperity of the community, for without prosperous conditions generally there is not a large volume of business.

Dealers May Be Factor.

Another answer, however, and one which has much merit, is that the community of progressive dealers in all branches and lines of building materials is greatly responsible for it.

The men firms and corporations that handle lumber, brick, glass, cement and the dozens of other articles that enter into the construction of a building is well aware of the value of the dealer as a necessary matter to.

They follow closely the trend of business and the outlook for building and they generally are able to judge according to what the demand for materials will be. And would the dealers combine and say no sales, they invariably manage to meet the demand without serious delay.

Ready for Busy Year.

For this reason, then, the dealers in builders' supplies could be looked on as one of the important factors in building circles. That the dealers in this city are prepared for a busy year is evidenced by the large stocks on hand and other preparations they have made for a record year.

There is reason for referring to 1909 as a record year, for it will undoubtedly be one of the greatest building years in the city's history. This is based largely on the fact that during the month just past has shown a big increase over the records of the past few years.

At present the sound of the hammer and the ring of the mason's trowel can be heard on every hand. Many new buildings are being erected in the city proper, and all the suburbs show a marked increase in building operations.

With industrial conditions generally improving, building receives additional impetus, so altogether the outlook in good both for the supply dealers and the city in general.

$5000 FARM OF 25 ACRES AND MODERN TEN-ROOM HOUSE AT DERRY, N.H. ON THE MARKET THROUGH CLAIRE, MOORE & CO. NO. 244 WASHINGTON ST.

BRISK SALES IN REAL ESTATE IN THE CITY AND SUBURBS

Since the advent of the spring season trading in real estate has taken a decided spurt, and while the business done in the city proper has been reasonably good dealers in all parts of the city and suburbs report an unusually brisk business in smaller properties.

Each day long lists of conveyances are placed on record in the office of the Register of Deeds, and in almost every one the price paid for the property was considered good.

The suburbs are showing particularly strong. The Back Bay and South End are also having a large measure of business, and the latter district has been very strong in sales during the past week.

The present strong tone of the realty market is expected to hold good and even increase during the next few weeks, as the demand for property is on the increase, rather than otherwise.

Sale in the Back Bay.

The three-story and front brick residence and 2817 square feet of land at No. 113 Mountfort street, near St. Mary's street, Back Bay, all assessed for $16,000, has been sold by Frederick S. Howard to Edward J. Thompson. The land is assessed for $5,000.

In the South End the three-story and basement wood-front brick house and 1,000 square feet of land at No. 240 West Canton street, corner of Clarendon street, have been sold by Mary A. Pierce to Dr. L. Celine. The property is taxed on a total valuation of $7,100, of which $4,000 is on the land.

In the same section of the city A. P. Dyson has sold to Rosa Rodman the three-story brick house and 830 feet of land, taxed on a total valuation of $2,500, at No. 4 Medford court, Washington street. The land is assessed for $1,400.

Property Changes Hands.

Two more parcels in the block situated on Boylston street, between Dalton street, avenue and Hemenway street, Back Bay, have been disposed of through the office of Joseph D. Billsworth, Devens, re Building. He has sold for William H. Wood man and A. Wilbert Sturtevant the lot of land at Nos. 1112 and 1116 Boylston street, taxed for $42,000, to Elbert P. Hovey for investment. The property is improved by two three and one-half story and brick houses occupying 4440 square feet of land, the latter assessed for $2,000.

ONE ROOF TO COVER 176 FAMILY HOMES

On the upper west side of Manhattan Island is arising what is to be, when completed, the largest apartment house in the world.

It will be [illegible] and will contain 176 separate apartments. It will be [illegible] high and will cover a plot of ground [illegible] square feet in area.

The entire roof, which will be [illegible] square feet in area, will be of steel and concrete construction, and will be [illegible] proof against fire.

Large Open Court.

The centre of the building will be occupied by a court [illegible] square feet in area, which will be [illegible] feet wide. Into this court will open the windows of all the rooms in the building, which will be [illegible] feet wide.

Proof Against Fire.

The terra cotta tile which will be used for all floors and partitions will be subjected to a heat of 2,200 degrees Fahrenheit in the process of manufacture, so that it is proof against the hottest fire. Thus, it is said, if a fire should start in the building it would not spread beyond the room where it started.

The apartment house will have its own plant of refrigeration and electric lighting. It may have a roof garden.

Choice Real Estate Offerings on These Pages

YOURS IS THE OPPORTUNITY—YOURS WILL BE THE PROFITS

And in aiding you to do this we will achieve OUR aim, which is Primarily to Demonstrate to

BOSTON INVESTORS that the methods we have so successfully applied in Havana will return equal profits in Boston **HOME REAL ESTATE**

TWO WEEKS AGO NEXT TUESDAY we first announced to the Boston investing public that the COMMONWEALTH AVENUE TRUST was offering its securities for subscription, and, as the first of its Boston activities, had given contracts for 52 MODEL HOMES, to be erected at once on the beautiful plat bounded by Commonwealth Avenue, Wallingford Road and Leamington Road, in the Aberdeen District, Boston, to be sold at $4,750 each, on liberal terms. TODAY our real estate offices are THE BUSIEST IN THE WHOLE CITY of Boston. The first 52 homes are nearly all sold. It seems certain now that the Trust can fulfill its hope of building 250 HOUSES BEFORE SNOW FLIES THIS YEAR. And the stock in the Commonwealth Avenue Trust is being rapidly subscribed.

Of course you do not have to take our word for this. We stand ready to prove ALL our statements on THIS OR ANY OTHER subject. If you will call at our offices we will give you the names of men—many of them leading, conservative business men of Boston—who have subscribed and paid for this stock.

$10,000 REWARD

I hereby offer $10,000 to any person who can show a single instance in all my real estate experience in Cuba (where I am the largest real estate dealer in the city of Havana), where I failed to *Double the money of Investors Associated with me*, inside of one year.

The opportunity in Boston to make money in real estate is not equalled in any city in this country. Of that I am convinced, and I confidently believe that what I have done in Cuba I shall do here. J. E. BARLOW.

We offer, FOR IMMMEDIATE PUBLIC SUBSCRIPTION, a limited allotment of this stock in any amount. Capitalized at $500,000, the Commonwealth Avenue Trust has $250,000 in 6 per cent. preferred stock, of a par value of $10 per share, and $250,000 in common stock of a par value of $5 per share. For a brief time we offer the 6 per cent. preferred stock at par, and with every share subscribed we will give, AS A BONUS, one share of common stock.

We are in Boston to stay. The best way of assuring this is to make for all those associated with us SPEEDY AND CERTAIN PROFITS. Your opportunity for sharing in these earnings is at hand.

$1,000,000 IN THREE YEARS

The entire capitalization of the Commonwealth Avenue Trust is $500,000. Much of the Common Stock, which is one-half the total, is being given as a bonus under our special, limited offer. The net working capital of the Trust should be something over $300,000.

I firmly expect, basing my opinion on my study of the situation, my knowledge of the real estate business and my past experience, that on Commonwealth Avenue, Boston, alone, I will help those who now associate themselves with me to make *one million dollars in profits within the next three years.* J. E. BARLOW.

Every house we build and every lot of land upon which it is built will be for the home buyer A DISTINCT BARGAIN. That is why they are selling so fast.

And yet, because of the price at which we secured the land, and the magnitude of our operations, we shall make a PROFIT OF $1000 UPON EACH AND EVERY HOUSE.

Do you realize what this means? If we build and sell but 200 houses this year the profits will be $200,000. Take from this $75,000—a large estimate—for operation, advertising, etc., and the NET PROFIT IS $125,000. Of this $12,000 would be paid in dividends upon preferred stock. The balance—$113,000—would represent THE YEAR'S EARNINGS OF THE COMMON STOCK.

NOTHING SUCCEEDS LIKE SUCCESS

If you don't believe it, call at our office. See what class of people—and how many of them—are investing in this security and purchasing homes among our first park of houses.

Appeals to Those of Wealth and Those Alike of Moderate Means

The offer of stock in the Commonweath Avenue Trust under present conditions is one to appeal to all classes of investors.

It appeals to the wealthy because nowhere else in the field of conservative real estate investment can the subscriber hope to secure a greater return from his money. No, nor can he really expect so great a return even in the realms of hazardous, gambling speculation.

It appeals to the investor of moderate means because the par value of the shares—$10 for preferred stock and $5 for common stock—enables him to subscribe to a limited number of shares, while his assurance is as great as that of his more wealthy neighbor that his holdings will earn the same high percentage of profit and his interests will be just as carefully and faithfully conserved.

The opportunity, under the present offer, is naturally too attractive to last long.

4% or Many Times That

Do you know men and women who have prospered by dealing in steadily improving real estate?

Which is better, 4 per cent. in a bank or many times that in Boston real estate?

We believe our common stock, although its par value is one-half that of the preferred stock, will within one year be worth twice as much—that it will earn 20 or 25 per cent. and more, and still leave a comfortable surplus in the treasury.

Opportunity seldom knocks at your door a second time. If you desire to heed the summons and profit by it you will do well not to delay, but call at once. If inconvenient to call, write us for Booklet C.

J. E. BARLOW & CO., 16 STATE ST., BOSTON

During repairs to the Devonshire Building, the State Street entrance is closed. Enter at 194 Washington or 29 Devonshire Streets.

Choice Real Estate Offerings on These Pages

YOURS IS THE OPPORTUNITY—YOURS WILL BE THE PROFITS

And in aiding you to do this we will achieve OUR aim, which is Primarily to Demonstrate to

BOSTON INVESTORS that the methods we have so successfully applied in Havana will return equal profits in Boston **HOME REAL ESTATE**

TWO WEEKS AGO NEXT TUESDAY we first announced to the Boston investing public that the COMMONWEALTH AVENUE TRUST was offering its securities for subscription, and, as the first of its Boston activities, had given contracts for 52 MODEL HOMES, to be erected at once on the beautiful plat bounded by Commonwealth Avenue, Wallingford Road and Leamington Road, in the Aberdeen District, Boston, to be sold at $4,750 each, on liberal terms. TODAY our real estate offices are THE BUSIEST IN THE WHOLE CITY of Boston. The first 52 homes are nearly all sold. It seems certain now that the Trust can fulfill its hope of building 250 HOUSES BEFORE SNOW FLIES THIS YEAR. And the stock in the Commonwealth Avenue Trust is being rapidly subscribed.

Of course you do not have to take our word for this. We stand ready to prove ALL our statements on THIS OR ANY OTHER subject. If you will call at our offices we will give you the names of men—many of them leading, conservative business men of Boston—who have subscribed and paid for this stock.

$10,000 REWARD

I hereby offer $10,000 to any person who can show a single instance in all my real estate experience in Cuba (where I am the largest real estate dealer in the city of Havana), where I failed to *Double the money of Investors Associated with me, inside of one year.*

The opportunity in Boston to make money in real estate is not equalled in any city in this country. Of that I am convinced, and I confidently believe that what I have done in Cuba I shall do here. J. E. BARLOW.

We offer, FOR IMMMEDIATE PUBLIC SUBSCRIPTION, a limited allotment of this stock in any amount. Capitalized at $500,000, the Commonwealth Avenue Trust has $250,000 in 6 per cent. preferred stock, of a par value of $10 per share, and $250,000 in common stock of a par value of $5 per share. For a brief time we offer the 6 per cent. preferred stock at par, and with every share subscribed we will give, AS A BONUS, one share of common stock.

We are in Boston to stay. The best way of assuring this is to make for all those associated with us SPEEDY AND CERTAIN PROFITS. Your opportunity for sharing in these earnings is at hand.

$1,000,000 IN THREE YEARS

The entire capitalization of the Commonwealth Avenue Trust is $500,000. Much of the Common Stock, which is one-half the total, is being given as a bonus under our special, limited offer. The net working capital of the Trust should be something over $200,000.

I firmly expect, basing my opinion on my study of the situation, my knowledge of the real estate business and my past experience, that the Commonwealth Avenue, Boston, alone, I will help those who now associate themselves with me to make *one million dollars profits within the next three years.* J. E. BARLOW.

Every house we build and every lot of land upon which it is built will be for the home buyer A DISTINCT BARGAIN. That is why they are selling so fast.

And yet, because of the price at which we secured the land, and the magnitude of our operations, we shall make a PROFIT OF $1000 UPON EACH AND EVERY HOUSE.

Do you realize what this means? If we build and sell but 200 houses this year the profits will be $200,000. Take from this $75,000—a large estimate—for operation, advertising, etc., and the NET PROFIT IS $125,000. Of this $12,000 would be paid in dividends upon preferred stock. The balance—$113,000—would represent THE YEAR'S EARNINGS OF THE COMMON STOCK.

NOTHING SUCCEEDS LIKE SUCCESS

☞ If you don't believe it, call at our office. See what class of people—and how many of them—are investing in this security and purchasing homes among our first park of houses.

Appeals to Those of Wealth and Those Alike of Moderate Means

The offer of stock in the Commonwealth Avenue Trust under present conditions is one to appeal to all classes of investors.

It appeals to the wealthy because nowhere else in the field of conservative real estate investment can the subscriber hope to secure a greater return from his money. No, nor can he really expect so great a return even in the realms of hazardous, gambling speculation.

It appeals to the investor of moderate means because the par value of the shares—$10 for preferred stock and $5 for common stock—enables him to subscribe to a limited number of shares, while his assurance is as great as that of his more wealthy neighbor that his holdings will earn the same high percentage of profit and his interests will be just as carefully and faithfully conserved.

The opportunity, under the present offer, is naturally too attractive to last long.

4% or Many Times That

Do you know men and women who have prospered by dealing in steadily improving real estate?

Which is better, 4 per cent. in a bank or many times that in Boston real estate?

We believe our common stock, although its par value is one-half that of the preferred stock, will within one year be worth twice as much—that it will earn 20 or 25 per cent. and more, and still leave a comfortable surplus in the treasury.

Opportunity seldom knocks at your door a second time. If you desire to heed the summons and profit by it you will do well not to delay, but call at once. If inconvenient to call, write us for Booklet C.

THE CHRONIC FAILURE—BY HERBERT KAUFMAN

He journeys through life with his head butting into the *clouds* and his *feet* dragging through the *quagmire*. He's a *trance medium*, a *schemer*, a *visionary*, a chaser of the *"will-o-the-wisp"*. He rushes on without seeing the *road*, and, like a *charging bull*, he doesn't know that there's a *stone wall* ahead of him until he batters himself full of *bumps*. He's searching for "X"—the great *unknown quantity*, the *twentieth dimension*, the secret of the ancients, the magic formula of the *alchemist* which will change the *lead* of *incompetency* into the *gold* of *results*.

He *deludes* himself with the *fool idea* that he can get *wealth* without getting down to *hard tacks*.

He builds weird ladders to the *fairy-land* of his *fancy*, but the *trouble* with his ladders is that they have *no rungs*. He tries to *climb* up on the steps of *theory*—and his progress is just as *rapid* as that of a sprinter who attempts to lower the hundred-yard record on a *tread-mill*.

He's imbued with *ideals* instead of *ideas*. His whole career is an endless series of *rehearsals* which never eventuate into *performances*. He's all right as far as he *goes*—but he's short on *practical* mileage; and Fate always kicks him off at a deserted *water-tank* half way between *Start* and *Finish*.

His brain is so jammed with *illusions* that there isn't room for *conclusions*. He never learns that a man must buy a *full ticket* to go the *full journey*—that he must rear a *stairway* to the *upper stories*.

His bridges end in *midstream*—they never reach the *other side*. He sets off down the *thoroughfare*, and before he has fairly *started*, the first *crossroad* catches his attention and off he goes, without a *moment's consideration* as to where he'll *land*.

He isn't lazy—he's merely *hazy*. The amount of time and energy that he fritters away is *tremendous*—and it doesn't *count* because it isn't *concentrated*—it *escapes* in all directions. He's a human *tea-kettle* blowing his steam from a *dozen spouts*—he's filled with *force*, but he doesn't *drive* anything with it. He has the *power* to make things *spin*, but he doesn't *harness* it *sanely*—his driving belt is so *loose* that when he *does* hitch it on to a *wheel*, it *immediately* slips off.

He's the *busiest* builder in town, but he shows no results. His foundations are *too shallow* to hold his *walls*. And when he *does* dig them *deep* enough, his walls are never *evened up* when he starts in to *roof*. He's a carpenter without a *spirit level* and a *plumb line*—a constructor without a *working diagram*. He's first cousin to a *water bucket* with a *hole* in the bottom—no matter how much *energy* he pumps into himself, it's *wasted*.

He's the *Chronic Failure*—the man with *every* sense but *common sense*. He figures only the chances for *success*, but doesn't contemplate the percentage *against* him. He doesn't look for the things which are likely to go *wrong*. He's a *bad general*—he's content to consider how he can *win*, but not where he can *lose*.

He's usually *honest*. He intends to be straight, but he isn't honest to *himself*, and his *self*-dishonesty involves *everyone* whose confidence he *gains*, and so he *seems* dishonest to them.

All around him are *average* men, with fewer *natural* gifts. They *attain* and they retain because they take the time to *think* before they *start* and to *finish* what they begin. They don't *bother* with "X"—they know its *equivalent—they attempt but one task at a time and carry it out.*

The Real Wonder of the World - The Mind of Man

It Has Created All the Wonders of the World, and Will Raise the Race to Its Heaven-Appointed Destiny.

HERE are two great wonders of the world, each devised by a still greater wonder—the mind of man.

Thousands of years ago the Sphinx was carved from the solid rock and rounded out to form by masses of masonry, lifted to position no man now living knows how.

In a few years more tourists may be whirling about it in their aeroplanes or soaring above the still more wonderful Pyramids that rise from the face of the desert a quarter of a mile away.

In the long centuries that stretch between the building of the Sphinx and the launching of the first successful aeroplane human progress has been slow, but it has been certain, and to compass it countless millions of hands have toiled and countless millions of minds have thought and planned, and perhaps perished, never dreaming that they had really done anything for the benefit of generations destined to live thousands of years in the future.

From the point of view of the modern engineer the Sphinx and the Pyramids have ceased to be wonders.

If a king desired a monument so great and so enduring that his memory might never perish from the earth, a modern contractor would undertake to build it without a thought as to mechanical obstacles. There are three buildings in New York taller and more wonderful than any Pyramid. There are many cathedrals scattered over Europe more remarkable than the Sphinx, which was an early tribute of a people to the religious feeling that is the common human inheritance.

But in the day before the Pyramids were piled upward by toiling swarms of slaves, and before a master imagination saw the Sphinx in the ledge of rock from which it was afterward fashioned, human intelligence was but little developed. And, as to-day, it required men with big brains, men hundreds of years in advance of their time, to achieve these miracles—for they were miracles then—more marvellous to the little people of the time than are the most astonishing achievements of present day scientists and thinkers.

The real progress of all the ages has been in the development of the human mind. The Sphinx and Pyramids on the desert, the ruins of ancient Greece and Rome, the beautiful churches that have risen wherever Christianity has gone before, all are but the records of human achievement—the outward and visible signs of the constantly increasing power of the human brain.

For centuries mechanical genius, always growing, was expressed in building, and in little else. Then it was turned toward forms of locomotion, and steam on sea and land brought men nearer together and interested new minds in problems whose solution has given the world its marvellous mechanical progress.

The aeroplane, the wireless telegraph, the printing press, the telephone and the myriad machines employed in manufacturing have all of them been slow developments, one brain taking up the work where another had left it off, only commenced, carrying it as far as was possible in the span of one brief lifetime, then leaving it for others and still others to carry to completion.

It is the hunger of the mind to conquer, in peace as well as in war—to triumph over resisting nature, as well as over unprogressive humanity—that has brought about its steady development.

The designer on the designers of the Sphinx had to overcome the stubbornness of rock and the power of gravitation in order to carry out their purpose, and as there was no steam, no derricks and no dynamite to help them, their success required thought.

As they thought they grew mentally. When the Sphinx was built the man who finished the job was equipped for a bigger one. And his successor, profiting by his knowledge and experience, could do still bigger work.

Thus progress would have been sure and rapid had not the human propensity to quarrel and fight resulted in wars which swept away all mechanical knowledge and all but the most enduring examples of mechanical skill.

But after every devastating war the men who fought with their brains again attacked the problem of conquering the elements and wresting from Nature her closely guarded secrets, and another period of progress ensued

It has been slow work, for destruction is far more easily accomplished than construction.

The tribes that swept down over Rome, caring nothing for its buildings beyond the loot that they contained, undid in a little while a work that had taken centuries—building on the results of other centuries—to accomplish.

Fortunately, education has progressed so far that there is no danger of another lapse into savagery.

Any nation conquering another would use and profit by its progress, rather than destroy all evidences of it.

The peoples of the world have learned that knowledge is the one most important possession, and to conserve it instead of to destroy it.

Japan, after years of feudal warfare and two-handed-sword men, suddenly discovered that it was a little, unimportant, feeble nation simply because it had neglected to study the world's progress, chiefly in the art of war.

So the Japanese set about studying means of warfare and battleships and fortifications, and it now has an important part among the family of nations, and is in a position to make trouble in the future.

Japan's progress seems miraculous to the hasty observer. How could any nation accomplish in a few years what it has taken other nations centuries to accomplish? How could their minds suddenly develop the powers that had come to the minds of Western men only by long and tedious evolution?

But the progress that has transformed the little yellow Japs is not Japanese progress. It is Occidental progress, merely borrowed by them and used after it had been developed through ages by other nations.

The Japanese mind is naturally imitative, and it was quick to see and steal a civilization more useful to its success among the nations than its own.

It is the same way with any advance in science or civilization. Send a scientist back to first principles and make him find out his facts for himself, and he will do but little in his lifetime. But open to him the books that hold the accumulated knowledge of mankind gathered since the beginning of knowledge, and, if he has imagination of his own, he will add something to the general store.

To-day we fancy we have made marvellous advances over the days of the Pyramids, and mechanically we have. We are on the brink of discoveries still more astounding than that of wireless telegraphy.

With the perfection of a means to send power through the air, as wireless messages are now sent, the flying marvel will be accomplished.

It will not be long befor a man sitting in his own home can hear and SEE everything that transpires on the stage of a distant theatre.

Everywhere minds, developed by constant study and enriched by past experience, are working, selfishly, as they imagine, to do new wonders, which will be of far more value to humanity than to the originating brain, however well that may be rewarded.

WE HAVE PROGRESSED

And it is the brain of man that has brought about all progress—in mechanics, in government, in sympathy with our fellows, as well as in art, which is only a broad understanding of the beauty that is about us.

But we can learn, by studying development from the days of the Sphinx to the day of the aeroplane, that only continued, earnest thought has brought about development, and that only here and there have minds been found great enough to be of real aid to advancement.

To-day education has multiplied their number, and the habit of thought has become more widely diffused, so that we are going ahead faster than at any time in the history of the world

But the future stretches on ahead, an infinitely vaster expanse than the past, and with possibilities that no man can foresee.

To-day, as you rest for to-morrow's renewal of your labors, it will pay you to think of YOUR part in what has been done, and how you can play an important part in what is to be done in the future.

For, after all, the only men and women worthy to enjoy the increased comfort and intelligence and knowledge of the human race are those who have helped to make them what they are, or who are going to help make them greater for future generations.

Cloak Room Tales of Gen. "Joe" Shelby, Marshal.

By Alfred Henry Lewis

It was in those days when Providence had given us Grover Cleveland for President a second time. His coming was the signal for a mighty scramble of office-hunters, since the democracy was as thin of flank and starved as were those seven lean kine of the dreaming Pharaoh.

To make his own life easy and set statesmen quarrelling with one another was Cleveland's way with himself. Mr. Cleveland, to that end, let the sundry Democrats of House and Senate [illegible] get [illegible] and [illegible] each [illegible] of [illegible] the [illegible] classes of [illegible] the [illegible] regular [illegible] [illegible] [illegible]

Curious New Discoveries About Planting Trees — by Prof. H. J. Lester

Showing the Enormous Advantage of Packing the Soil Tightly in Tree-Planting; A Gain of 400 Per Cent in Three Years Over the Old Method.

Contrast Between Planting in Earth and in Sand—In the Latter Instance, the Tree Puts Forth Extra Roots in Search of Nourishment.

Is Our Earth Alive—Has It a Soul?

By Prof. Garrett P. Ser

WE are living on the back of a monstrous globular creature, which we call the earth, and that creature, instead of being a senseless ball of rock and soil and water, is as conscious as we are, but in a larger way.

The power of seeing [illegible] feeling and smelling which we [illegible] together with the other animals, is only a part of the universal sensation of the living [illegible] on whose surface we all dwell. The earth sees through our eyes, and hears through our ears, but the impressions made upon it are broader than for us, and when we do it is only from the earth's point of view, like the perishing and changing of the cells that consti[illegible] body.

Such are the astonishing views maintained by certain philosophers who think that the most recent discoveries of science, instead of contradicting, really sustain them. According to those thinkers the earth and its sister planets are divine beings inhabiting the ether. The earth lives on for millions of years, instinct with living forms which minister to it, unstinted and unchanged by their ephemeral existence, just as we are undisturbed by the life and death of the protoplasmic elements within our blood and nerves. The sun sends the earth heat and light, it floats easily in the ether, glowing with beauty from pole to pole; it sees its sisters, and feels their attractions and their electric pulses, and it [illegible] of arms or feet or hands or [illegible] for all that it needs [illegible] supplied without any effort [illegible].

These views were first developed in detail by the [illegible] Professor [illegible] but our well-known [illegible] has just restated [illegible] Journal.

What [illegible] fascinating to the imagination [illegible] ground for, we [illegible] important to know. [illegible] proved it as one [illegible].

Instead [illegible] picture of the earth [illegible] mind [illegible] body, [illegible] of any animal is [illegible] aggravation [illegible] earth a restful and tranquil thing compared with the animals she supports.

One [illegible] refers to the theory on the ground that [illegible] perfect to the square [illegible] inanimate things that constitute the earth. How compare ourselves with a ball of rock? But the philosopher smiles wisely, and replies that the earth possesses, more perfectly than we each and all of the marks of superiority which we think belong only to ourselves. It is the narrowness of our vision that blinds us. She is self-sufficing in a million respects in which we are not. All the things on which we externally depend, such as air, water, plant and animal food, shelter, etc., are [illegible] within her resettlement parts. We depend on her for almost everything, she on us for but a small portion of her history.

This is not an anthropomorphic view of the earth; i. e., it does not pretend that our planet is simply a huge, differently made and it does not [illegible] earth [illegible] like any animal further than in possessing consciousness.

"Long ago," says Professor [illegible] in his statement of Fechner's views, "the earth was called an animal, but a [illegible] higher class of being than other animals, or an animal, not only quantitatively greater, like a vaster and more awkward whale or elephant, but a being whose enormous size requires an altogether different plan of life."

The theory goes into many interesting details, for instance it [illegible] science that complexity of [illegible] leading to unity of design is an indication of superiority, and we point to the complexity of the human body as proving our higher rank. But to this it is [illegible] that the human body [illegible] its total complexity, the earth far exceeds any animal organism, "for she includes all in herself, along with an infinite number of things which our organisms fail to include."

Again, we count it as a proof of superiority that our bodies develop from within instead of being fashioned from without, but science shows that the whole history of the earth has developed from within. It is like the development of the wonderful egg stimulated by the sun's heat to its cycles of evolutionary change."

We are even told that our animal organization is a sign of our inferiority to the earth, and that the need we have of moving about stretching our limbs bending our bodies, and so on, is a proof of our defect. Our legs are no better than crutches with whose aid we go about hunting for the things which are essential to us, but the earth, like the earth, we do not possess within ourselves.

"But the earth is no such cripple; why should she, who possesses within herself the things we painfully pursue, have limbs? Should she mince a small part of herself? What need has she of eyes, nose, ears? As we are a part of the earth our organs are her organs. She brings forth living beings of countless kinds upon her surface, and their multitudinous conscious relations with each other she takes up into her life, as a more general consciousness of life."

We must not we are told, put too far, too literally the analogy with our operations in the [illegible] undisturbed being. There must be difference as well as resemblances. Such [illegible] as she already performs [illegible] as we should not [illegible] to set [illegible] again outside of us [illegible] some way.

Why look for anything resembling lungs in the [illegible] of which [illegible] she [illegible] breathes [illegible] atmosphere?" she, too, has a circulation, but she needs no heart to keep it moving.

"How she rejoices in her steady motion through the ether, playing about the life-sustaining sun!"

because the sun does that for her by lifting the clouds into the sky and supplying springs and rivers.

Yet we [illegible] consciousness is locked to the brain, we think, [illegible] we are—but where is the earth's brain?

"The earth," replies the philosopher, "performs the brain's functions in an enstance. Polarization, interference, absorption awaken sensibilities in matter of which our senses are too coarse to take any note."

An example of polarization is the power of Iceland spar of imparting to a beam of light passing through it certain extraordinary properties not possessed by ordinary light; an example of interference is the neutralization of two light waves when, by reflection or otherwise, they are superposed in a way that the crest of one falls upon the trough of another, an example of absorption is the extinction of light falling upon a totally black body. The theory supposes that such phenomena as these awaken sensibilities in the substances of the earth of which we are unaware. There are thousands of electro-magnetic phenomena that might be included in the same category.

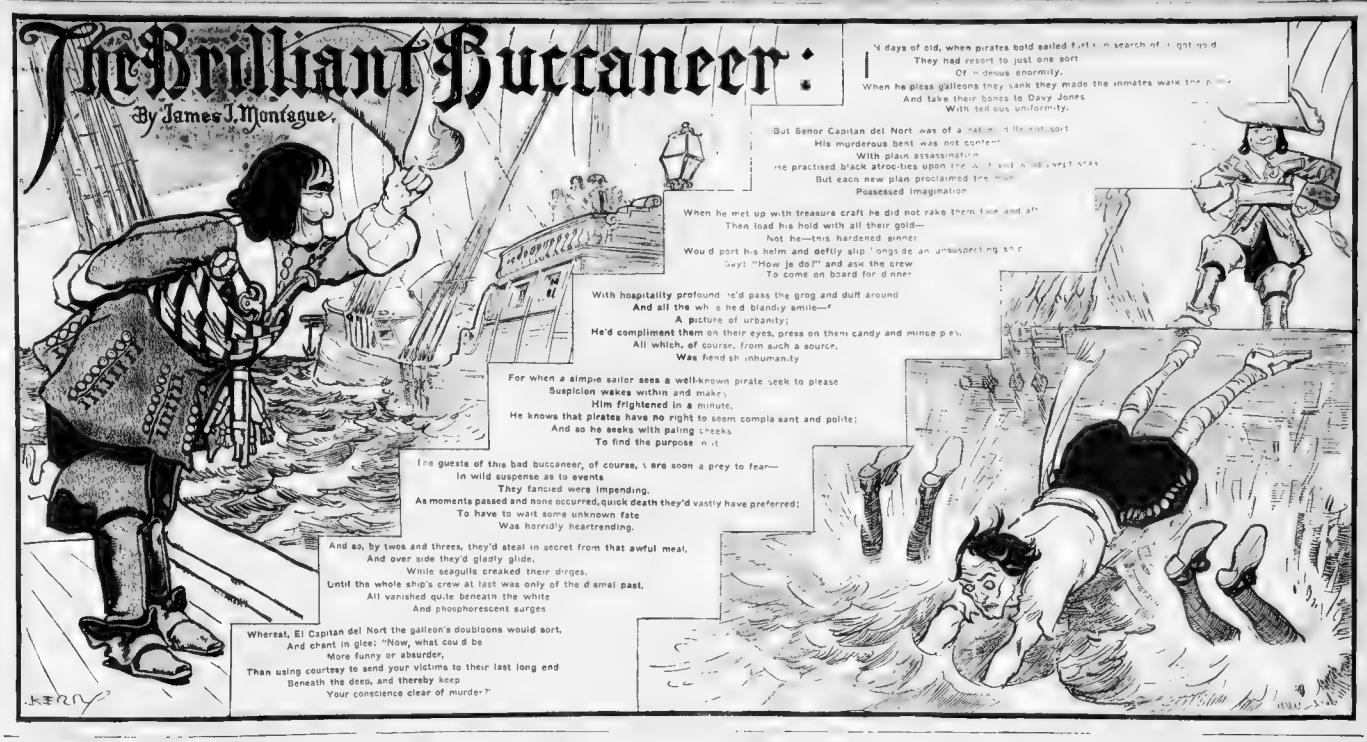
A most fascinating branch of this extraordinary speculation is that which deals with the way in which the earth is supposed to integrate the operations of the sensory organs of the comparatively [illegible] animal creatures that it [illegible] on the surface. Our individual persons, says the philosopher, are [illegible] sensory organs for the perceptive life as long as our own life lasts. It absorbs our perceptions into its larger sphere and [illegible] them with the other data there.

"When one of us dies, it is as if [illegible] of the world were closed, but the [illegible] and conscious relations that [illegible] themselves round the perception of [illegible] person remain in the larger earth-life [illegible] as eyes and form new relations and grow and develop throughout [illegible] future, just as our own last thought may [illegible] in new creations and develop a whole [illegible].

The difficulty, perhaps, is how the earth combines in the multitudinous perceptions [illegible] all kinds. Our experience of [illegible] and [illegible] of [illegible] and [illegible] and [illegible] and

The Brilliant Buccaneer:

By James J. Montague.



In days of old, when pirates bold sailed forth in search of what got nod
They had resort to just one sort
Of murderous enormity.
When he piles galleons they sank they made the inmates walk the plank
And take their bones to Davy Jones
With tedious uniformity.
But Senor Capitan del Nort was of a rather different sort
His murderous bent was not content
With plain assassination
He practised black atrocities upon the Spanish Main and West seas
But each new plan proclaimed the man
Possessed imagination
When he met up with treasure craft he did not rake them fore and aft
Then load his hold with all their gold—
Not he—this hardened sinner
Would port his helm and deftly slip 'ongside an unsuspecting ship
Sayt "How je do?" and ask the crew
To come on board for dinner
With hospitality profound he'd pass the grog and duff around
And all the while he'd blandly smile—
A picture of urbanity;
He'd compliment them on their eyes, press on them candy and mince pies.
All which, of course, from such a source,
Was fiendish inhumanity
For when a simple sailor sees a well-known pirate seek to please
Suspicion wakes within and makes
Him frightened in a minute.
He knows that pirates have no right to seem compliasant and polite;
And so he seeks with paling cheeks
To find the purpose in it
The guests of this bad buccaneer, of course, were soon a prey to fear—
In wild suspense as to events
They fancied were impending.
As moments passed and none occurred, quick death they'd vastly have preferred;
To have to wait some unknown fate
Was horribly heartrending.
And so, by twos and threes, they'd steal in secret from that awful meal,
And over side they'd gladly glide,
While seagulls creaked their dirges.
Until the whole ship's crew at last was only of the dismal past,
All vanished quite beneath the white
And phosphorescent surges
Whereat, El Capitan del Nort the galleon's doubloons would sort,
And chant in glee: "Now, what could be
More funny or absurder,
Than using courtesy to send your victims to their last long end
Beneath the deep, and thereby keep
Your conscience clear of murder?"
KERRY

What is the Law? By Ella Wheeler Wilcox

WHAT is "karma?" is often asked by intelligent people. And since more than one-half the people of the earth believe in karma, it is a question which should be answered for the benefit of the other half.

Karma is the *law of cause and effect.*

The pupil who will not study and neglects his opportunities, and disobeys the rules of the school, does not pass on examination day; he is put back and is given a lower place in the next school year than his more studious classmate. That is "karma." It is the law of *old-fate justice.*

The pupil who has studied and is enabled to pass, and is advanced to a higher class, also moves up under the law of karma. He has made "good karma," while the other has made "bad karma." Yet if the latter scholar realizes his mistake, and acknowledges the justice of his reduced rank, he can change his bad karma into a blessing, by great diligence and determined effort, and overcome his seeming misfortune and reach the goal for which he set forth. But he must bear his just punishment before-hand.

He can never achieve this by crying out against the laws of the school and declaring that he has yet to submit in the dispensing of favors, or trying to put obstacles in the way of others who are ahead of him. Some of the most practical, brilliant and wisest minds of earth have believed and taught that human beings live many lives, and that each one of us occupies the position brought about by the karma he made in previous existences, here or on other planets. And as the great majority of grown men and women today have no recollection of the times they neglected their studies in childhood, or the names of the teachers under whom they studied, so few seem to remember the old lives and the old mistakes. But those who seek find this memory and knowledge. And as the people who did not learn the rule of three or the laws of common fractions in youth, are handicapped by that lack of science in their manhood, so are we compelled by the actions we have forgotten or ignorant of.

Even often ignorant of the fact, each human being and all creatures and intelligences in the universe have each his appointed function to perform, and each is a part in the great machinery for the working out of the law of karma. Each has his place, whether in the capacity of a cogwheel, a pin, or a cog.

This is so whether he or it be conscious or unconscious of the fact. However insignificant a part one may seem to play, consciously, when he or she starts the entire machinery of karma into operation involving all other parts.

"Accordingly as one performs well the part which is his to fill, so he becomes aware of the working of the law, then he takes a more important part. When proved to be just, having freed himself from the consequences of his own thoughts and actions, he is fitted to be entrusted with the administration of the karma of a nation, race or world.

"There are intelligences who act as the generals of the law of karma in its action through the worlds, ruled by some angels and archangels.

"All are concerned in the carrying out of the law of karma, for there is unity through the universe and karma preserves the unity in its relentlessly just operation.

"We may call on these great intelligences by such names as we prefer, but they answer us only when we know how to call upon them, and then they can only answer to the call which we know how to give and according to the nature of the call. They can show no favor nor dislike, even if we have knowledge and the right to call upon them. *They take notice of and call upon men when men dare to act justly, unselfishly and for the good of all.* When such men are ready, the intelligent agents of the karma may require of them to serve in the capacity for which their thought and work has fitted them."

Whatever our karma may be, we have in our power to turn it into a blessing, and to stride forward on the great march to the original Source from which we all came and to which all must return.

But we must waste no time in rebellious thought, in resentment at fate or circumstance. We must use our present hours to have ourselves make it what it is—an angel in disguise.

Edward Carpenter gave a wonderful symbol of what karma is in "Toward Democracy, as follows:

And so at last I saw action appear before me—magnificent, fully formed
Feet first, with shining limbs, he glanced down from above among the

THE sun may be clouded, yet ever the sun
Will sweep on its course till the cycle is run;
And when into chaos the systems are hurled,
Again shall the Builder reshape a new world.

Your path may be clouded, uncertain your goal
Move on, for the edict is fixed for your soul
And though it may lead into darkness of night
The torch of the Builder shall give it new light

You were, and you will be; know this while you are:
Your spirit has traveled both long and afar
It came from the Source, to the Source it returns,
The spark that was lighted eternally burns.

It slept in the jewel, it leaped in the wave
It roamed in the forest, it rose from the grave,
It took on strange garbs for long eons of years,
And now in the soul of yourself it appears.

From body to body your spirit speeds on,
It seeks a new form when the old one is gone,
And the form that it finds is the fabric you wrought
On the loom of the mind with the fibre of thought

As dew is drawn upward, in rain to descend,
Your thoughts drift away and in destiny blend.
You cannot escape them, or pity, or greed,
Or anger or strife, they fashion your fate

Your life will reflect all the thoughts of your now
The law is unerring—no blood can atone,
The structure you rear you must live in alone.
Somewhere on some planet, sometime and somehow,
From cycle to cycle, through time and through space

You meet with your long ago self never keep pace.
And a deed you ask for and all you desire,
Must come at your bidding as flames out of fire.

You are your own devil, you are your own God
You fashioned the paths that your footsteps have trod,
And no one can save you from error or sin
Until you shall hark to the spirit within.

Once at to that voice and all tumult is done,
Your life is the life of the Infinite One,
In the hurrying race you are conscious of pause,
With love for the purpose and love for the cause.

bushes, and stood there erect, tall skinned, with nostrils dilated with pas-
(In the burning, intolerable sunlight he stood and I in the shade of the bushes)—
Fierce and seathing the influence of his eyes, and a spiritual dream-like dreamers (As I said—a hard by and it as it with a (like thunder) —
I love the magnetic influence of his dusky flesh; his great foot, well-formed, was planted firm in the sand— with spreading toes—
"Come out," he said to me, "I command, "Let thou afraid to
And I answered not, but sprang upon him and smote him.
And he smote me a thousand times, and brushed and scorched and slew me as with sharp flames.
And I was glad, for my body lay there dead; and I sprang upon him

again with another body;
And he turned upon me and smote me a thousand times and slew that body;
And I was glad and sprang upon him again with another and another and again another,
And each time as I took on yielded to him, and were like cinctures of flame upon me, but I flung them off,
And the pains which I endured in one body were powers which I wielded in the next; and I grew in strength, till at last I stood before him complete, with a body like his own, equal in might—exultant and free.
Then he stood and said, "I love thee."
And lo! his form changed, and he leaned backward and drew me upon him
And bore me up into the air, and I raised me over the sea, and trees and the ocean, and round the curve of the earth under the moon
Till we stood [illegible]

He [illegible] is found in the lines, "And the pains which I had endured in one body were powers which I wielded in the next."

[illegible] been well [illegible] this above may [illegible] mind diligent pupil and the [illegible] the next year at school, of [illegible]

[illegible] important place in the next incarnation, even [illegible] reward in the

When we have [illegible] source and are [illegible] without mortal [illegible] forms.

[illegible] lessons here, and how we transmute pain into power, depends the number of times we must return before the period of "peace absolute, bliss absolute and real absolute" is obtained.

[illegible] we are making karma [illegible] feeling the effect of [illegible]

[illegible] in change the law, say [illegible] ing of the lazy pupil will [illegible] ation day with honors. [illegible] lard of his examination pa- [illegible] judged and placed in the next [illegible]

[illegible] efforts depends the overcoming [illegible] old errors and sins of commission and [illegible]

The law of karma is just, divine and beautiful.

To one who investigates it, in all its phases, it must stand as the only explanation of the startling contrasts, and seeming incongruities, which are [illegible] visible, and the only answer to [illegible] problems. God is a God of Love and Justice only as He takes His world by the law of karma.

And no hysterical, emotional and illogical creed can inspire an earnest soul with such deep [illegible] ter and such a [illegible] and perfected [illegible] another, as a [illegible] comprehension of this [illegible] law of [illegible] karma makes the human [illegible] sacrifices of a present [illegible] every thought, word and act and its Divine kinship to the One Great Cause.

Glory to God in the Highest!

How We Came To Have Eyes and Ears — By C. F. Marshall M.D.B.Sc.

WHEN we consider the extremely complicated structure of the eye and the ear, when we examine by dissection their various parts, and see the great differentiation these parts have attained it is difficult at first sight to believe that these organs are each developed from a part of the skin. Yet the science of embryology teaches us that this is the case, and that the essential parts of the eye and ear are simply modified parts of the epiblast or skin of the embryo. Further we can, by comparison with the lower animals, trace these organs backwards as more and more being rudimentary, till finally, in the lowest animals, they are not represented at all.

Sound and light are both due to vibrations communicated to the brain by special sense organs and by an intervening medium. Sound vibrations are slow, travelling only at the rate of 1,100 feet per second, and require a solid or liquid as a medium to transmit them, they cannot travel in a vacuum. Light vibrations travel much quicker, and are transmitted by an invisible hypothetical medium. Light can travel in a vacuum, it is different from sound.

The skin is sensitive to vibrations, and in the lower animals, in which there are no organs of sight or hearing, vibrations can be felt by the skin. Thus Darwin showed that the earth worm, when placed on a piano, was sensitive to the vibrations, but had no appreciation of different sounds. It would clearly be an advantage to an animal to have some parts of the skin modified to appreciate vibrations more acutely, and to be sensitive to the vibrations of sound or light. An animal thus provided would be able better to escape its enemies and to obtain food.

Thus by evolution have arisen the eye and the ear. Certain cells of the skin were more sensitive than their fellows to vibrations of light and sound, and the animals possessing this advantage had a better chance of surviving than the others, and so transmitted the peculiarity to their offspring, in which it was intensified. These cells became more and more modified as we pass upwards in the animal kingdom till the elaborate structures of the ear and eye of man are attained.

We have seen that the ear from certain cells of the epiblast, or skin, becoming modified so as to better appreciate vibrations of sound. Let us see what this modification consists of. The simplest form of ear is that found in certain jelly-fish or medusae. This is a small sac, sometimes open to the exterior, sometimes closed, and consisting of modified epithelial cells. Many of these cells are provided with a hair-like process at their free surfaces; at their deeper surfaces they are connected with nerve filaments connected with the nervous system. The sac is filled with fluid and contains calcareous particles, called otoliths. Vibrations of sound falling on this organ are transmitted by the fluid contained in it to the hair-like processes of the cells, aided, perhaps, by the calcareous otoliths, and thence, by the nerve filaments connected with the cells, to the nervous system.

Here we have all the essentials of an organ of hearing, and the complicated ear of the higher animals, including man, is but the early stages of development [illegible] sealed by embryology [illegible] from the epiblast [illegible] in the higher animals, becomes much convoluted and differentiated, and is known as the labyrinth ear. This is too complicated to consider [illegible] but it will suffice to [illegible] the labyrinth [illegible] bule, or vestibule, there are three semi-circular canals [illegible] ches.

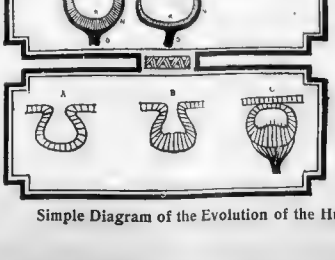
The eye is also developed from a modification of the cells of the epiblast. The evolution of the eye is well shown in the molluscs, and several animals of this group are known which represent the several stages in the evolution of the eye. The simplest form of the eye in this group is simply a small pit [illegible] cells [illegible] the apex [illegible] the bottom [illegible] Nautilus is provided with a [illegible] (Patella), where the pit is deeper and the [illegible] is developed.

The next stage consists in narrowing of the opening of the [illegible] consequently [illegible] and [illegible] part of the [illegible] is found in Haliotis [illegible] ria, in which animal a lens is developed. By the lens a much more distinct image is obtained by focussing the rays of light on the sensitive cells (or retina). In [illegible] the [illegible] the cuttlefish, [illegible] more perfect resembling superficially [illegible] of the vertebrate animals in having [illegible] and eyelids, and a protective [illegible] round the sensitive portion. It is interesting to note [illegible] fetish during its development [illegible] pupil to the adult [illegible] corresponding to [illegible] evolution of the eye met with in the adult animals we have [illegible]

The essential part of the [illegible] the choroid coat, developed from the skin, [illegible] retina is formed by an involution, or pitting in, of a patch of epiblast; the lens is formed by a deposit of cuticular matter. In the vertebrate eye the development is different, the retina is developed as an outgrowth from part of the brain, instead being formed from an involution of epiblast. This difference, though apparently so great, is, in reality, not so, for the brain itself is developed from the epiblast of the embryo and so the retina is, after all, a modified piece of epiblast.

In conclusion it is necessary to state that the nervous system and brain [illegible] with the sense organs, for without a nervous centre capable of appreciating sensations of light and sound the eye and ear would be useless. It is the brain which is the seat of the sensations of sound and light, as of all other sensations. The eye and ear are simply accessory organs which transmit the vibrations of light and sound to the brain.

Stages in the Evolution of the Eye in Molluscs.



A.—A Simple Involution of the Skin.
B.—Narrowing of the Mouth of the Pit.
C.—Further Narrowing of Pit. Presence of a Definite Optic Nerve (D) and Nervous Layer (N) Surrounding the Sensitive Cells, or Retina (R).
D.—Closure of Pit, Forming a Sac. Development of Lens (L).
E.—Formation of Cornea (C) and Iris (I).

A.—Forming of the Pit in the Skin.
B.—The Canal Taking Shape.
C.—Extension of the Auditory Nerve to the Brain.

LIKE LUCKY LITTLE CINDERELLA!

HOW A VERY POOR, BUT WONDERFULLY BEAUTIFUL, LITTLE STREET CHESTNUT SELLER BECAME THE PRINCESS OF KAPURTHALA, WITH MORE MONEY THAN SHE CAN SPEND.

HIS HIGHNESS THE MAHARAJAH OF KAPURTHALA

ANITA DELGADO, NOW THE REIGNING PRINCESS OF KAPURSTHALA.

ONE of the most remarkable romances of our time—indeed, it reads like a story from an old book of fairy tales—is the marriage of the Maharajah of Kapurthala, a reigning Prince of India, to Anita Delgado, a lovely Spanish girl

Anita Delgado's family belonged to the poorest of the poor. At one time she struggled for a miserable living by selling roast chestnuts on a street corner in Malaga She experienced every misery and humiliation that falls to the lot of a poor girl in one of the poorest European countries

Like Cinderella in the fairy tale, she was whisked away from a life of misery, where she was the drudge and wage earner of the family, and immediately transformed into a real princess, not merely the holder of an empty title, such as many American girls have given great fortunes for, but the wife of a sovereign who rules over a great State

It is only a few years since the Princess was selling hot chestnuts at five for a cent Then she found an additional way of earning pennies by dancing to the music of a barrel organ in the street. She was usually accompanied by her sister Victoria

Recently the family moved to Madrid, hoping to make more money from Anita's beauty and talents Soon after going there Anita danced on the top of a table in an obscure restaurant, with such exquisite grace and abandon that she created a sensation. The proprietor engaged her to dance, and the place became celebrated Then the Maharajah, who had come to Madrid to visit King Alfonso, and who always sees the interesting and curious sights wherever he goes, went to the little restaurant.

The moment he saw Anita he was smitten with her wonderful beauty and fell passionately in love with her In another day he proposed and was accepted. Papa Delgado, enraged at the prospect of having his breadwinner taken away from him, threatened to kill the Maharajah, but was calmed with a present of $30,000.

Without a moment's loss of time the wedding was solemnized, and the new Princess, whose title in India is "Ranee," went away to her new dominions She is a perfect type of Spanish beauty, a truly royal specimen of womanhood She is tall and generously developed, and her hips and torso are especially fine. Her eyes have the languorous expression and smouldering fire that are among the greatest charms of the Spanish type. According to the latest cable news from

"Alimony"—In Three Monologues.

Being a Triple Discourse Upon the Amazing Predicament of Sculptor Hinton Perry, Who Has Gone to Jail to Avoid It.

Mrs. Perry No. 1, Who Has Been Awarded the Alimony.

The Cast.

[illegible] who just won't pay [illegible] for the faults in its [illegible]

[illegible] Alimony is legal.

[illegible] was as much to his [illegible]

[illegible] of American [illegible] married again. He has [illegible] Mrs. Perry No. 2. The [illegible] of the first family. Mr [illegible] alternatives of [illegible] a six months term in Ludlow Street Jail or raising the money some way, goes to jail. Why is to blame for Mr. Perry's situation?

Enter Mrs. Perry No. 1.

"Why [illegible] husband and I [illegible] hardships and disappointments. But I [illegible] first met. He had the artistic temperament, of course, but then I didn't know what that carried with it. What is the artistic temperament? I would hate to say in the only terms in which it can really be defined. Never, never get into the power of the [illegible] Alimony [illegible] But then, [illegible] wives and daughters we [illegible] that wasn't the [illegible] what is right. At [illegible] I trust I [illegible] the judge [illegible] But I don't [illegible] that, Rosalie," [illegible] tall, and built [illegible] to me that he [illegible] "Has a man [illegible] duty is bound [illegible] wife and has [illegible] again if he is not wholly sure he can take care of both families? In all countries where polygamy is practiced no man will take a second wife unless he knows he can support [illegible] Is it [illegible] He is the father of [illegible] other moral rule for the enlightened [illegible] I lived at least a [illegible]

Mrs. Perry No. 2. Who Deplores Her Husband's Trip to Jail. But Thinks He Is Right. From a Painting by Roland Hinton Perry.

Little Gwendolyn Perry, the Daughter of the Sculptor by Mrs. Perr No. 1. From a Bust by Her Father.

And This Is How Mrs. Perry Would Look in Ludlow Street Jail, If He Had to Work Upon His Famous Statue of Pennsylvania Now at Harrisburg.

Now Appears Mrs. Perry No. 2.

"Will I let my husband go to jail, ladies and gentlemen, if he [illegible] Of course. Now, I'm going to be real [illegible] for a minute or two, and after that real [illegible]

[illegible] No matter how earnestly we pleaded for time, Mrs. Perry ignored [illegible] the court awarded her or she would invoke the court's power to secure [illegible] —but have it she would. Can you [illegible] Why?" As a general [illegible] I admit that the ideals of [illegible] and to be divorced with a [illegible] moral and [illegible] [illegible] of decisions to the [illegible] [illegible] years after the divorce. But [illegible] the circumstances are such, so far as the former wife is concerned, [illegible] the general rule doesn't apply.

"There were two ways open to us—borrow the money or have Holland to jail. Why didn't he accept assistance from his friends? Oh, there [illegible] who offered, never [illegible] Loftus, one of our dearest, [illegible] his way from England but Mr. Perry doesn't want to use his friends' means to keep them. He [illegible] Mr. Perry might in a few months have [illegible] himself again in arrears, and [illegible] we would have all our [illegible] No, though it is very hard for me [illegible] after this humiliation which [illegible] husband's incarceration means, it is [illegible] the only way to secure immunity.

"For everybody I am sorry—but if [illegible] the law is the law and alimony is what it [illegible] has to meet the situation in the only way [illegible]

Miss Cecilia Loftus, Who Has Offered Assistance from England to the Perry's.

"What has happened! Let me tell [illegible] [illegible] anxiously.

And Now Speaks Mr. Perry.

"We have met the enemy and [illegible] great reliance is to be sought not [illegible] we are theirs.' So might [illegible] much in the duty which her husband [illegible] I paraphrase, my friends, [illegible] was her as in his love for her. W[illegible] that famous message sent by my [illegible] an abject lies in keeping love alive [illegible] namesake Commodore Oliver Hazard [illegible] "When love dies the sin the duty v[illegible] Perry, which fitly describes my pres- [illegible] still exist, it will be an [illegible] one [illegible] ent situation [illegible] here. That is all plain [illegible]

"What shall I say of alimony to [illegible] "I have not tried, however, to subr[illegible] out? This: Alimony is the remedy [illegible] my duty to my former wife. I have [illegible] of civilization for the faults in its [illegible] simply been unable to observe it. Of [illegible] marriage customs. But it isn't a good [illegible] course, I might not have married again [illegible] remedy. If it were would I be here? [illegible] but that would be carrying alimony a [illegible]

"I must say that for a jail Ludlow [illegible] little too far. I realize that I am in [illegible] street is not unbearable. Really, I [illegible] the position now, and worse, of being [illegible] get along very comfortably and find [illegible] unmarried. It is that is only temporary [illegible] the other prisoners most agreeable. [illegible] "If [illegible] me to jail, Mrs. Perry No [illegible] Our social intercourses will help to pass [illegible] to [illegible] mind, every claim she [illegible] the time away for all of us. Even [illegible] has. That is clearly what the law in[illegible] the jail library is not too bad as a [illegible] tends, and I am standing on the law [illegible] studio, and our little games of bowls [illegible] But what benefit will accrue by mak[illegible] and cards aid us. I imagine the old [illegible] ing [illegible] to jail? If I get in arrears [illegible] Tombs prison was rather like this [illegible] past [illegible] my whole [illegible] my move[illegible]

"Still I lose six months of my life. [illegible] next week [illegible] tried, how can I be [illegible] Why?" [illegible] expected to meet my obligations when [illegible]

"Let us consider the question of [illegible] I am fettered?" That is where the law [illegible] alimony. There is no doubt of my [illegible] is short [illegible] duty to my daughter; that was in no [illegible] "Believe me, it is in no spirit of re[illegible] way affected by the divorce. The obli- [illegible] venge that I have decided to remain her[illegible] gation a father owes a child can never [illegible] from me. I immure myself for future [illegible] be diminished short of misconduct on the [illegible] persecution, free of the persecution. Why, [illegible] part of the child. I wasn't [illegible] a week before Mrs [illegible]

"But what do I consider my duty to my [illegible] Perry No. 1 put in her first order tearing [illegible] former wife? The law has defined it— [illegible] me from my bride. Was that not cruel? [illegible] to maintain and support her. If a man [illegible] Was that the act of a woman who is fair [illegible] provides less willingly for a former wife [illegible] and honorable? [illegible] for whom his love has ceased than he did [illegible] "My duty to Gwendolyn I will always [illegible] before they drifted apart is not that [illegible] acknowledge. But when I am free now, [illegible] only human? Yet his duty to provide [illegible] I am free [illegible] for her cannot be ignored. It is true [illegible]

"I do not believe in alimony in a case [illegible]

"Yet we talk of the duty to provide for [illegible] like [illegible] I'd [illegible] to love in jail. Back to the [illegible] wife, but in the happy home, the wife's [illegible] cell I will go."

A Lucky Little Cinderella!

(Continued from Preceding Page.)

India, the other native princes refuse to [illegible] is encrusted with rubies and diamonds. [illegible] personalities the Maharajah's low-born [illegible] His state robes are of exquisite colors [illegible] wife, but they will not hurt her as long [illegible] and [illegible] with pearls and diamonds. [illegible] as she is supreme in Kapurthala.

Kapurthala, the Maharajah's country, [illegible] His capital also called Kapurthala [illegible] is a large and populous native State in [illegible] a handsome city, and there he pos[illegible] India, adjoining the British province [illegible] sesses a gorgeous palace of fantastic [illegible] of the Punjab. His title "Maharajah" [illegible] Oriental splendor [illegible] means "Supreme Prince." Within the [illegible] Of the Princes realm 600 square [illegible] borders of his state the Maharajah is [illegible] miles are his personal property, and [illegible] absolute, but the British Government [illegible] all its inhabitants pay rent to him as [illegible] of India takes charge of his foreign [illegible] well as the liberal taxes, which they [illegible] relations. He is highly regarded by [illegible] pay in common with the rest of the in[illegible] the British, because his father aided [illegible] habitants of the country. [illegible] them during the Indian Mutiny, and he [illegible] In this private domain the Maharajah [illegible] received a high decoration from Queen [illegible] has a great tiger preserve, a mountain [illegible] Victoria. [illegible] palace, a lake with luxurious houses [illegible] He possesses [illegible] and [illegible] boats and other wonders which are [illegible] and [illegible] [illegible] of the finest jewels [illegible] only known by report to the outside [illegible] in the world. He wears a turban that [illegible] world. The former chestnut seller is [illegible] now enjoying these Oriental delights.

A ROYAL "RAKE'S PROGRESS"

How the "Worst Boy in Europe" (the Crown Prince of Servia) Has Murdered Men, Struck the Archbishop, Horsewhipped the Premier, Flaunted Himself With Women and Gone From Bad to Worse Until at Last He Has Been Deposed and Exiled.

THE career of [illegible] George of [illegible] deserves [illegible] gress.

He has been [illegible] worst boy in [illegible] gan" and "[illegible]

With every [illegible] handsome [illegible] and privile[illegible] from bad [illegible] ness, cru[illegible] der, until a[illegible] from his [illegible] country.

For several [illegible] have been [illegible] disgraceful [illegible] Prince. He [illegible] men by the [illegible] him as prince[illegible] derous [illegible] beyond the [illegible] Prince.

The Crown [illegible] cently been [illegible] newspapers [illegible] eanest he at[illegible] father's [illegible] middle of [illegible] named Kolak[illegible] endeavored [illegible] unseemly [illegible] crazy. Crow[illegible] savagely in [illegible] and finally k[illegible] down a prag[illegible] steps.

The poor vale[illegible] hospital in a[illegible] fering from a[illegible] ribs and very [illegible] Having a tough [illegible] ed some w[illegible] finally died.

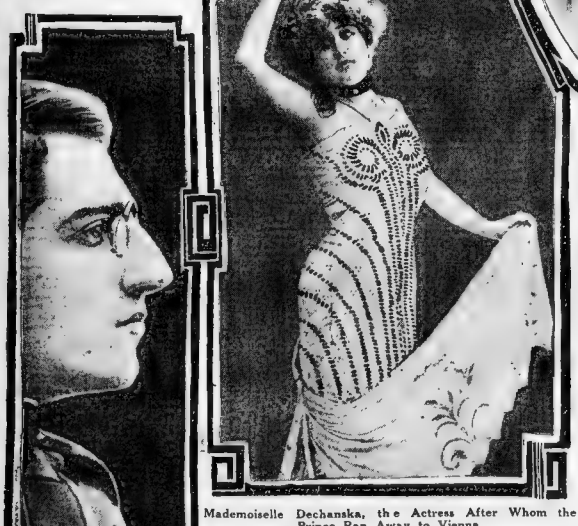
The news of [illegible] spread among [illegible] fierce indig[illegible] male per[illegible] and King Peter realized that he must take desperate action with his ungovernable son. The King, the Prime Minister, the commander-in-chief of the army and other important personages lectured the Crown Prince and [illegible]

"Thus the oldest son of the King was deprived of his rights to the crown of Servia and ignominously kicked out of the country."

[illegible] Mademoiselle Floriacz, Whom the Prince Serenaded in the Streets of Belgrade at Two o'Clock in the Morning.

[illegible] Crown Prince George, Who Is a Daring Horseman, on His Favorite Charger.

The Crown Prince's Wild, Willful and Pugnacious Countenance.



Mademoiselle Dechanska, the Actress After Whom the Prince Ran Away to Vienna.

promising physically. He was a tall, [illegible] bony, powerful youth with a big head, [illegible] ugly face and a wild eye. The [illegible] Master [illegible] has taken [illegible] him. [illegible] bring a [illegible] lesson. When he tried [illegible] to [illegible] fencing, the pupil [illegible] broke two of his instructor's ribs and nearly killed him.

At his mental studies he was less [illegible] apt. He tore up his books, cursed his tutor and broke away from lessons to meet one or other of his charmers. For this conduct the King in person [illegible] welted him unmercifully with a rawhide whip. This effected no lasting improvement, and the unhappy Major Levasseur was forced to resign.

When the Major went to bid adieu [illegible] what was going on, he caused the police to escort the actress across the [illegible] Prince [illegible] settled in Vienna and the [illegible] him with the Prince [illegible] consulting Sandow. The King sent his [illegible] to [illegible] tuant with a force of police. The [illegible] napped the Prince and brought him back three days later. Mademoiselle Dechanska was found dead by the banks of the Danube under circumstances that indicated that she had been murdered.

Soon after this the Prince committed one of his most shocking crimes. There was a cult [illegible] resided his admiration in the Convent of the Trinity, near Belgrade. With three companions, in the small hours of the morning, he drove to the convent and attempted to batter in the door. With his sword he killed two porters who attempted to drive him away. He also ran a faithful waiter through the body. At last the Mother Superior herself appeared and said, "Prince, you shall not advance another step except over my dead body."

Then, abashed by her stern and saintly presence, he went away.

The Crown Prince is credited with having kicked, slapped or otherwise insulted nearly all the high dignitaries in Servia. The Servians are a fighting people and did not accept kicking pleasantly. The Crown Prince would have lost his life before this but for his rank.

The Prince was in the habit of going late to the solemn services in the Cathedral of Belgrade and entering in a noisy, disorderly and irreverent manner. The Archbishop of Belgrade sternly told the prince after service that he must come [illegible] good time or not at all. [illegible] with anger, the Prince told the venerable prelate to go to a different climate and then struck him in the eye.

The question of confining the Prince in a sanitarium on account of his outrageous actions had been discussed in the newspapers, and it was said that Prime Minister Pasics favored this action. Hearing this, the Prince broke into the Prime Minister's room with a riding whip and began to lash him, crying:

"You dog! You intend to confine me, your future master; I'll kill you! I'll thrash you to death, you canaille!"

The Prime Minister defended himself as well as he could by holding a leather [illegible] behind him, while crying for help.

On several occasions King Peter, who is a vigorous man, had chastised the Prince himself with a whip. He proposed to do so after this assault on the Prime Minister; but the Prince leaped at him, knocked him down and started to dance on his father until it was necessary for outsiders to rescue the exalted person.

The Crown Prince has had innumerable love affairs besides the one first mentioned. One day, while the King was making a solemn state and religious procession from his palace to the cathedral, he was horrified to meet his son intoxicated and lolling in a carriage with one of his favorites. On seeing the King in his state robes the drunken Crown Prince called: "What an old idiot you look!"

He was intensely devoted for a time to a [illegible] fluffy actress, Mademoiselle Dzardzevitch, who was starring in Belgrade. He is particularly fond of variety actresses of the stout type, with blonde hair. With one of them, Fraulein Keller, he repeatedly supped in public at the principal restaurant of Belgrade, there, by putting royalty in a most undignified light. Another flame was a Hungarian girl named Floriacz, who played the musical glasses. One night he serenaded her, disturbing the sleep of the best people of Belgrade. When the police tried to move him on he threatened them with a revolver.

He was turned out of the municipal music hall of Belgrade for throwing champagne bottles at the leader of the orchestra and climbing over the footlights to make love to Madame Beyla.

One of his chasers in higher society was Madame Lazitch, wife of an army officer. It is believed that he secretly contracted a false marriage with the daughter of a general.

One of the wealthiest men of Belgrade was quietly smoking a cigarette one day in a cafe, the customary occupation of a Servian gentleman. The Crown Prince, who is very proud of his marksmanship, took aim. He missed the cigarette, but shattered the citizen's jaw.

He has repeatedly assaulted the soldiers under his orders. He made nineteen young recruits undress, break the ice of the Danube and bathe in it. Several of them died as a result. When Captain Dunjics, of the Palace Guard, accidentally failed to see him, the Prince asked:

"Why the —— don't you salute?"

"I did not see your Highness," apologized the Captain.

Salute, dog, and don't bark," retorted the Prince.

One of the Crown Prince's innumerable offenses has consisted in reforming absurdly and flippantly in newspaper interviews to the rulers of Europe. The Czar of Russia, whom he visited and who is supposed to be Servia's great friend, he described as an imbecile, a stuffed doll, a man without a single idea in his head. He said the German Emperor had plenty of energy, but no sense.

Young Man, Beware of the Coquette.

THERE is no doubt that Washington Irving knew what he was talking about when he said—

"He who keeps undisputed sway over the heart of a coquette is, indeed, a hero."

Never confuse a flirt with a coquette. They are as different as chalk and cheese. A flirt is a harmless creature, who flirts just for the sake of flirting, and has no serious intention. A coquette is a dangerous person who deliberately trifles with a man's affections.

The coquette is the callous sporting woman who kills for the sake of killing, and, having killed, leaves the game on the moorland to rot.

When the coquette tires of single blessedness, she tampers with matrimony, and plays upon the vanity of a man until she persuades him to propose. Her self-consciousness is tickled by the submissiveness of man, and she breaks the hearts of at least half a dozen before she finally consents to take one "for better or for worse." A month after the "nuptial feast," the man commences to repent and kick himself.

Coquettes provide plenty of work for judge and lawyer, for they inevitably pay a visit to the Divorce Court! Bah! Coquettes should be hounded out of society, and marriages with them forbidden by the State.

Imagine a girl who is pretty, and fully aware of the fact. Follow her downstairs in the morning, and hear how she complains of the "same old breakfast." Take her out to lunch at the most fashionable restaurant in town, and see how she eyes the gowns of other women. Satisfy her longing for "something decent to wear," and take her to the most expensive costumier, and then note how she complains that she is still looking for a dressmaker who "knows her business."

She makes new friends, spends all her time at social functions, has boxes at theatres (for which her husband pays), and her one aim in life is to satisfy her craving for novelty. Matrimony is no ban to her, but rather an aperatif to surreptitious love-making.

If a man falls in love with a coquette, let him be on his guard; let him go big-game shooting in Central Africa, or let him live alone in the desert—but never, never let him marry her!

My Secrets of Beauty

No. 17—The Beauty in Business—by Mme. Lina Cavalieri, the Most Famous Living Beauty.

"To encourage the growth of the eyelashes she will do well to brush them upward, night and morning, with an eyelash brush, and clip the ends carefully when the eyelashes seem weak."

ME. LINA CAVALIERI the great Italian beauty and prima donna, believes that every woman is in some degree beautiful, and that it is her duty to preserve her beauty. Her valuable beauty secrets she has been revealing each week to readers of this newspaper. Next week she will tell women who wish to be beautiful "How to Rest." She will also answer some of the many questions asked by interested readers of this department, giving recipes for cosmetics, some of which are of her own invention

NOT for the business girl is the extra hour's nap in the morning; not for her the siesta at midday; nor the automobile spin in the park; nor the daily massage; nor the daily treatment by the beauty doctor.

For her eight hours in the big hive downtown, for her close air and crowded quarters, the dust of downtown streets, the noise of that part of town where Toil is king.

What shall she do to preserve her beauties against all those foes to the clear complexion, the bright eyes, the thick and lustrous hair, the spring-ing step, the erect and supple figure?

"To keep it clean it should be brushed thoroughly at least once a day."

First she must not become over tired, for fatigue is one of the enemies of beauty. If she does become tired she must rest as speedily and comfortably as possible.

She must keep well, for ill health is another foe of beauty.

She must wear comfortable clothing and loose shoes, for constriction of any part of the body impairs the circulation, and the effect of defective circulation is beauty marred.

She must not submit to the results of sedentary habits. She must so plan her life that she will have regular exercise in the open air. She must have regular and wholesome meals. She must deny her appetite and forego what is toothsome for what is nourishing.

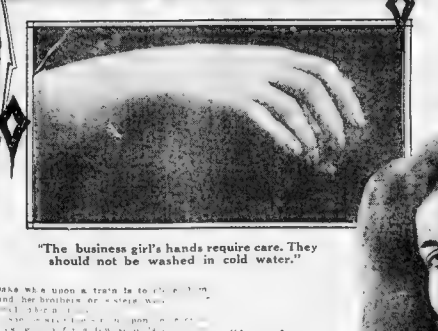
She must guard against colds, for colds are robbers of beauty. She must keep her feet dry and her body warm.

She must do her work well, but feel no too much the burden of her business cares. For the worried or discontented expression is a blemish of beauty.

The greatest menace to a business girl's beauty is that of eye strain. The danger that this eyestrain will produce wrinkles between her eyebrows, will inflame the lids and cause the eyelashes to fall out, and will dim the brightness of the eyes and produce the tired expression of the old age of those who are decimated by age or overwork is great.

These tendencies she must balance by greater care than the woman in her home gives to her eyes. Since the strain during business hours is excessive she should add to that the further strain of reading trains or by lamplight. This will cause some intellectuals to cry out "Lina Cavalieri would empty our girls' heads." No, but the purpose of these girls is to reveal beauty secrets, and one of the secrets of beauty is to keep the eyes bright and soft and not red.

Therefore, I repeat that the business must not read on the moving train. Nor must she read by lamplight. The best use she can make of her eyes for beauty's



"The business girl's hands require care. They should not be washed in cold water."

"A good way to dry the hair is again the most natural way. Sunshine and soft towels are all that are needed."

How the Smartest Whip in the "400" Won the Beauty of Baltimore.

IN the middle of the month the City of the Orioles was forced to yield up perhaps its greatest beauty, and the fairest flower of the South will be transplanted to New York. T. Suffern Tailer—"Tommy" Tailer as the lucky few who gathered this f[illegible] May more aptly bring it home with [illegible] does not err extravagantly in [illegible] comparing the bride of "Tommy" Tailer to [illegible] Miss Harriet Brown has been [illegible] of two Winters in Maryland and the [illegible] season. A mere glance at her portrait [illegible] convince you of her just claim to admiration.

If this picture were to [illegible]dently become instinct with life and step out before you, you would see a woman tall, [illegible] and very stately. Many there are who call her "regal." And she comes very naturally by [illegible] noble attributes, through her mother [illegible] from the old Montague stock of Virginia, and it is from her mother that she inherits her rare beauty. She has a low, broad forehead, splendid soft eyes and an exquisitely chiselled nose. Her mouth is moulded in lovely lines and her smile, which is very winning, is continually playing about her lips. As for the rest, her complexion and her teeth are dazzling. It is her rich complexion which has made her so often and so naturally likened to the rose. Wild rides in the open autumn air, first over the roads of Maryland and the fields of Virginia, have kept her cheeks delicately carmine and her lips like coral. The heartless in New York's "400" are to have a formidable rival when she becomes Mrs. T. Suffern Tailer, and takes her place in the Diamond Horseshoe at the opera, and her position at cotillions within Tuxedo walls.

People who have not seen her and who remember are wondering how she will compare with that other bride of Tommy Tailer's, the dark-eyed Maude Lorillard, now Mrs. Cecil Baring, who made her début in society and the announcement of her engagement at the same time, when she was only just eighteen. This marriage of T. Suffern Tailer and Miss Brown has awakened vivid interest in New York society.

The love of horses may be said to be the chief community of interest between them. For years "Tommy" Tailer has been recognised as one of the most brilliant whips in New York. Always having plenty of money and not much to do but spend it, he seized the main distinction of his career—apart from capturing two of the most desirable heiresses and beauties in America—by driving a coach in England in a manner that the most expert coaching gentlemen of London had never beheld. He successfully tooled a coach in a famous race with a titled Englishman, and came out half a mile ahead, and he made better time and carried his precious freight over stiffer roads than ever attempted before.

Of late years he has confined his coaching efforts to his own country, and has made some very good records between New York and Philadelphia. Every pleasant day in Springtime sees "Tommy" Tailer sitting upon the box seat smartly handling the reins over four horses and swinging the great [illegible] of his drag around the curves up by the Harlem River and along the Hudson.

It was thus gayly caparisoned, with just the exact number of buttons on his coaching coat, and with [illegible] at the jasper he sported in his coat lapel, and in the perfect mode of hat and scarf and gloves and with the correctest swishing of his snapping whip, that "Tommy" Tailer first appeared in a [illegible] smartest glory before the eyes of the Beauty of Baltimore while she was on a chance visit to New York. And from the day she caught the dazzling vision of "Tommy" Tailer and [illegible] scamp over the brilliant handling of his ribbons, all memory of big, blond "Billy" Whitridge, of Baltimore, was forgotten; all recollection of handsome Walter Abell, whose family for generations has moulded Maryland sentiment through the sun, grew dim; the long list of devotees who had danced such fervent attendance ever since her coming out, were seen as in a mist darkly.

An old wag of the Coaching Club said of the shipwreck of "Tommy" Tailer's first marriage: "When Tommy Tailer married Maude he settled down with her at Tuxedo and ran a drag and drove with occasional trips to Europe, where again they drove and drove and drove, apparently thinking he was fulfilling his destiny by driving and she seemingly satisfied at first that he drove so well. Finally he drove her to distraction and then to divorce."

Mrs. T. Suffern Tailer, Who Was Miss Harriet Brown, the Beauty of Baltimore.

The Jolly Going Away Coach With the Dashing Miss Sylvia Driving; the Bride Is at Her Left, the Bridegroom Is Just Behind the Bride. Mr. Roger Williams Is to Be Noticed Peeping From the Back Seat.

Five Charming and

How His Best Man and Chum Fell in Love With H

FROM an artistic point of view nothing could have exceeded the beauty of the wedding morning of Miss Evelyn Violet Brocklebank, the very pretty young daughter of Sir Thomas Brocklebank, of Irton Hall, Cumberland, England, when she became the bride of young George Westinghouse, the son of Pittsburg's multi-millionaire inventor. It was a charming ending to the beginning of one of the really most romantic transatlantic love affairs with which Cupid has entertained us in a long time. And Cupid evidently was in his most mischievous mood and the spirit of romance roundabout infectious, for at these jolly nuptials another little international affair of the heart saw its beginning. And before the parting guests were fairly roped every one was wondering if the best man and the bride's twin sister—well, it all happened this way:

A beautiful morning it was indeed, that 4th of March, and frosty which set everybody's blood a-tingling. Except for the drive between the hall and the church, the unstained snow covered the whole of the countryside and the splendid park, until it looked like a glorified Christmas card under the pale primrose sunshine. It made a novel but exquisite background to the bridal procession as it drove to the little village church.

The reception afterward at the old hall was one of the merriest of gatherings and the breakfast a merry bridal feast. And the life of the party was the lively twin sister of the bride, Miss Sylvia Brocklebank, who looks so much like Violet that the two can be hardly told apart by strangers.

Now Miss Sylvia, be it known is an expert, dashing horsewoman, and, in spite of the cold, nipping air outside, would not be deterred from carrying out her original intention of herself driving the young couple the six miles across the country, which lay between the railway station and the hall. And all the countryside turned out to cheer the coach-and-four as it drove at a spanking pace through the park and out on the high road. Just as you may see it, by the photograph impressed on these pages, the spirited Miss Sylvia handling the reins with all the skill which only last year won her a prize at the great Horse Show in England.

But before Miss Sylvia had dashed upstairs to don her coaching coat and her rakish high hat, this enterprising young lady had been laughingly bustling about attending to all the necessary minutiae of the "going away," as befitted her role as maid of honor. You may see her here as the camera caught her pinning the bride's old slippers to the back of the carriage.

The bride and the bridegroom had just climbed up on the coach, humas and good wishes were ringing in the air, and every one was waiting for the whip, when up lifted a window, just overhead, a girlish figure filled it for a second and from her hand she hurled one of the bridal slippers at the party on the coach—for luck.

It hit the lucky, happy bridegroom squarely on the shoulder.

Now everybody knows that whoever of a nuptial party hits the bridegroom with a shoe will be married within the year. And everybody at Violet Brocklebank's "going away" began to rail Sylvia and felicitate her as she picked up the reins.

And, luckily for her, it was perhaps that Mr. Charles Roger Williams, the best man of the bridegroom, who had travelled 'way across the Atlantic to see him married, was seated behind her back. For it is a fact that Miss Sylvia's cheeks were crimson. Some, of course, attributed this to Jack Frost, of Cumberland, others more wisely to Roger Williams, U. S. A.

No one who had eyes for anything but the bride had failed to notice the predilection that Mr. Williams had for always being somehow in Sylvia's sweet neighborhood, nor the acquirered tete-a-tete between this tall, sedate and smooth-faced young American and the fair Sylvia, which one was constantly happening upon. At the barn festival, on all the rides and drives and during the dancing after dinner somehow it came about that young Williams was always the most attentive cavalier to Miss Violet's bewitching twin.

His chum had fascinated the pretty Violet—why should not the same thing happen in the case of pretty Miss Sylvia? He, too, was very rich—was he not the son of Charles H. Williams, the president and treasurer of the United States Rapid Fire Gun and Powder Company, and quite desirable? What more natural, then, all things considered, that the house guests for this wedding should unanimously allot him to Miss Sylvia—for she would surely be married within one year?

Young Westinghouse would be delighted to have it fall so, as would his bride. He and Westinghouse were fellow students in the Scientific Department of Yale for two years, eight years ago, and have always remained dear pals. While Williams's business duties are in Derby, Conn., he spends much of his time in Pittsburg, where his family have many interests. The home of the Williams family is a handsome one on the Wooster Street Heights of Shelton.

Now, Cupid having regaled us with the interesting romance of George Westinghouse and Evelyn Violet Brocklebank, we must anticipate another between the chum and the twin.

When Miss Violet Brocklebank caught her first glimpse of the man who, after a most romantic courtship, was to be her future husband, he was the most unromantic person to look upon. Handsome and manly enough he was, but whatever in his physical attractions—they were sufficiently hidden to the casual observer by a greasy jumper and most unbecoming overalls. Then, too, his face and hands were smeared with oil and he was perspiring over a commonplace lathing machine in a solar factory.

Young Westinghouse was deeply immersed in his work, so deeply that he didn't happen to notice the presence of strangers, till consciousness of some commotion among his fellows caused him to lift up his head, and there, within a dozen feet of him, was a vision of dainty loveliness such as it seemed to him he had never beheld before in all his days. She was an exquisite thing to look at as she stood there, gingerly and gracefully holding up her flimsy skirts from the grease and cinders of the floor, and so fair to contemplate that it was at least a moment before he realized that there was another a woman with her older and somewhat ill at her ease in all this uninteresting machinery, eyeing the scene somewhat disdainfully with her lorgnon.

After another minute the humor of the situation struck the grimy young machinist, and, true to the spirit of the past, he drew his dirty sleeve across his face, making it grimier and greasier than ever. Then, with a curious smile, he went on with his work again.

Miss Brocklebank looked puzzled for a second, and, as if about to pass on through the factory, she suddenly turned to her mother and said impulsively:

"Mamma, isn't he *perfectly* stunning?"

"Who, my dear?" she asked in turn, somewhat

How the Countess

LITTLE BOY BROOKE has come home from the war, and Warwick Castle is ablaze with light. Little Boy Brooke had won his spurs for bravery on the battlefield. Mother of Little Boy Brooke is hugging him to her breast with tears of joy. Little Boy Brooke had run away from school to fight for his Queen when she made her call for volunteers to save England's honor in the Boer War. Little Boy Brooke, though but seventeen, had served valiantly on the field of battle and had been signally honored by his country for his courage. And now Little Boy Brooke has come back home again, and the old Warwick Castle is ablaze with candles and full of joy.

It's a pretty story of boyish patriotism and so very human. When the lad got back to England and was led into his mother's arms, no wonder she wept both for joy and for pride. Boy as he was he had so distinguished himself in the campaign that he had been nobly rewarded with a commission in the Royal Horse Guards Regiment, the crack regiment of the service.

Little Lord Brooke, the hero of the Warwicks, was at Sandhurst when the call to the military college at Sandhurst when the war broke out. He begged to be let go and volunteer for service, but he was resolutely forbidden, not only on account of his tender age (he was but seventeen), but also because, save for his delicate little two-year-old brother, he was the only heir to his father's honors and estates.

The lad could no longer stand it when he heard of the early reversals that befell the British arms, and when his father issued her appeals for more volunteers he deliberately cut out from school, ran away to London, and then to sell his little aristocratic fur coat, his scarf pins and his gold-mounted cane. With the proceeds he bought a second-class ticket for the Cape and shipped for the seat of war.

Now, the King Insists That Little Marjorie M

THERE'S a lovely little "high-born lady" in England whose heart is very heavy these days. It's the heart of the famously lovely Lady Marjorie Manners. The King of England will not permit young Prince Arthur of Connaught—the one man she loves—to marry her. And the young Prince doesn't want to marry any one else but Marjorie. There's a fervent young rival in the field in the person of the Marquis of Stafford, son and heir to the great Duke of Sutherland, who, like Prince Arthur, is ardent to marry Marjorie, but Marjorie doesn't want to marry him. The Duchess of Sutherland doesn't want little Marjorie because she hasn't any money, and it's because she hasn't any money that the King doesn't want her for the Prince. Lady Marjorie's mamma, the Duchess of Rutland, of course insists that Marjorie must accept young Stafford, and, practically, "it is commanded in the name of the King" that the Duchess of Sutherland had better insist on the arrangement too.

"It will ease a somewhat embarrassing situation all around," suggests King Edward—and, so, between them all, they are arranging for the final disposition of poor little Lady Marjorie as if the feelings of her own little heart were of no more consequence than the beatings of a wood-tick.

And poor little Marjorie has waited so long, and so hopelessly! She is now twenty-and years old, and, after so much constancy and heartache, to be bartered off to a boy of nineteen years because she is in the way of a king's ambition.

Unhappy little Marjorie! What counts a loyal little girl's soul in a ticker like this, when she's poor as a church mouse. Alas! is the glint of her glorious hair, and all her silver is in her—voice.

But treasurers' souls like these are not the kind of material that must come with his bride to fill the empty exchequer of a poor-enough prince, so Marjorie, it is arranged, will have to be parceled off to a moneyed young peer—who has the good sense, by the way, to adore her even though she does not care at all for him.

Marjorie Manners is distinctly pretty and has been extraordinarily popular in London society ever since her launching. She is a small little brunette, with a wistful look in her great, big brown eyes, has small delicate features, a perfect little mouth and soft, brown curly hair. In the tableaux given for charity in the Imperial Theatre, where she appeared as a Velasquez portrait, she was a striking success. Grouped as she was by J. D. Shannon, the beauty, who has also made a study of Lady Marjorie, she quite amused society people who pay

Probably no girl of the p[illegible] has been more painted than [illegible] mother has made pencil and [illegible] her in every conceivable pos[illegible] apart from the painting all[illegible] several other sketches. Unusual Romances.

His Bride's Twin

...pleased at there being anything stunning in ...h a hole.

"Why, that workman just over there, with his ...irt half turned. Just look at that head and ...ha..."

"Nonsense, my child. All those mechanics are ...t like that—very muscular, dirty and all that ...s of thing. Let us make haste."

"Just a minute, mamma, please," urged the ...ng girl. "I think I'd really like to talk to ...m. Here in the States everything is so dif... that there's nothing shocking in it. And ...re he's a very intelligent type."

"...ncy, Violet," exclaimed her mother; "the ...a is too droll. What do you wish to talk to ...r workman for. You are not going to ...ite a book on your American impressions, are ...u?"

"...h, he's such an unusual type."

"...u mustn't keep you from your labor any ...re," said mamma. "You have been most ...d and explained everything to us with—you— ...e with great intelligence!—— "And we ...n't forget to ask this young—ah, this very ...e young man his name," interjected Miss ...let.

"...orge," put in George. "Just 'George.' All ...y fellows call me 'George,' lady," added ...e, falling back into his role.

"...m sure you have been most obliging and ...l George," continued Mrs. Brocklebank, "and ...I must reward you with a little snuff money—oh, I hope you do not drink," she rambled. "Here's a bright, new one—a dollar, as you call it. Drink is such a curse to the workingmen.

"No? He's against the rules? Oh, dear me, dear me. What a pity." Then, with most affable condescension

"Then you may be pleased to reflect that it is the wife and daughter of Sir Thomas Brocklebank, of England, to whom you have been so attentive on the occasion of their visit to the great Westinghouse works. If I should meet Mr. Westinghouse or his son, Mr. George—to whom we have letters—I shall be pleased to recommend you to their notice. Mr. Westinghouse not in town? Oh, that's too bad. Come, Violet."

"And I wish to shake hands with you," said Miss Violet, effusively.

"Oh, no, lady. That will spoil your gloves."

He gave his hands a wipe on his overalls, for she insisted, and they shook hands. Evelyn Brocklebank has always kept these gloves.

Then the visitors went away. And the Westinghouse factory seemed very blank and cheerless all that day to the grey young mechanic at his lathe.

* * * * * *

"Miss Brocklebank, permit me to present my young American friend, Mr. George Westinghouse. You must have heard of him from our various American friends—the young man, who, as soon as he was graduated from college, put on overalls and went directly to work in his father's factories like a common workman."

The young man bowed low. Miss Brocklebank, for the life of her, couldn't prevent the color from leaping into her face.

The scene was in England, the home of the young girl, and the stranger—how happened it that he was there? What had brought him, of all places, just to Liverpool? Perhaps the reader will easily enough conjecture. Why not England, as well as the Riviera, any way, if a man has plenty of money and can go where he chose? And where was a pleasanter place to spend a week-end than within the hospitable gates of Sir Thomas Brocklebank, and the chance of hearing again the sweet voice of Sir Thomas Brocklebank's daughter?

"I'll try it anyway," reasoned young Westinghouse, after a simple social strategy which procured him the invitation. "Will she recognize me, I wonder? No, no. I'm sure she can't. But only to see her again!"

The pink spread to her shell-like ears.

"Oh, Mr. Westinghouse, how could you? What must you think of us?"

"Most beautiful it was, lady," he answered, simply. She had to laugh. So did Westinghouse, Mrs. Brocklebank, when her turn came for the enlightenment, raised her lorgnon, dropped it again and could only murmur, "Fancy!"

And now, out of the honey of this romance there has sprung the sweet little idyl of Violet's twin sister and her husband's chum. According to the old prophecy, it will have one year to tenderly be nurtured and matured.

...of Warwick's Boy Turns Socialist, Too—In Love

...ussed really, though very anxious at the ... time, over the splendid spirit displayed by ...boy, instead of making any attempts to com... his return, his parents took steps to have ...ttached to the staff of General French, and ...an age when most English youths are still ...ool, he found himself, hardly eighteen, not ...with his commission in the most splendid ...ps of the British Army, but likewise with ...norable mention in the war dispatches, a ...ign and a war medal to his record.

...e is the sort of stuff that makes good, true ...s as well as good, true soldiers. And when ... Miss Elfrida Eden heard all about how ...e Boy Brooke had come a hero, and how he ...run away from school to fight for his Queen. ...l how he had been so royally rewarded for his ...rage, she cried out, in her girlish enthusiasm: ..., I love that boy. I would rather have him ... my husband than the Prince."

...hat was nearly ten years ago now.

...f little Miss Eden cherished this day dream ... the time she was growing up through pina... and short frocks into maidenhood and ...ng womanhood, her heart must have ached ...times as she learned of young Brooke after- ...e out in the gay world. For she must have ...d all the rumors connecting his name with ... Reid, the American Ambassador's daugh... whom he, was said to have met in the ...e while out for a bear hunt, and later must ...e learned how they were "arranging" a ...h between His Lordship and the great Amer... heiress. Ah, she had the gold, heaps of it, ...t would regild the coronet and the castle ...t would fairly shimmer! Alas!, and had very unsatisfactory prospects for the future, and as the monarch thought he could impose an insuperable obstacle to the match when he diplomatically naught, as a necessity to his royal consent, must assure him that he could control a yearly income of $20,000.

The wily King knew that the Rutland family could not possibly furnish such a dot, but with all his ripe experience in such matters he failed here to reckon with Cupid and Love's ingenuity.

Prince Arthur ran right off to his Lady Marjorie, and with a sinking heart told her of his cruel uncle's ultimatum. So these two poor crushed young sports of Fate put their heads together and—

The Prince called on the King again. This was his answer. He agreed to His Majesty's terms readily and dutifully. But as there is no free cash lying around loose in the Manners treasury just now, Lady Marjorie proposed to open a lingerie shop in Bond street. Proper y conducted, with the title of the proprietor publicly displayed and, the circumstances of the case publicly advertised, Romeo and Juliet had not the slightest doubt that the Royal and Rutland Arms linen establishment would yield up much, much more than $20,000.

The King turned white, then red, then royal purple with apoplectic rage, and the Duchess of Rutland was commanded summarily to instantly stifle all such nonsense in poor little Marjorie's brain and forbid her to ever see Prince Arthur. Then they sent him all around the world, and maneuvered him away with the

army and in one way and another with royal power they crushed the hearts of the young lovers and broke up their little paradise of dreams.

Miss Elfrida Eden

How an Old Witch Foretold Exactly Muriel White's Love Story.

CHERE is a pretty story told of Miss Muriel White, the daughter of Henry White, the American Ambassador to France, who is going to marry Count Herrman Scherr-Thoss, of Germany, when the acacias are all in bloom in Paris.

While she was quite a little girl and her father was an attache of our Embassy in London, she and little Lady Peggy Primrose, one of the daughters of the Earl of Rosebery, were inseparable chums. Lady Peggy was a most constant guest in Miss Muriel's playroom, where they used to read and take tea together, and often, as children will, dreamed of the far-off future when they should be grown up and what the great, gay world would have in store for them. And sometimes they would dream of the ideal Prince Charming who would one day come along just as in the fairy tales and snatch them from the prosaic world of governesses and lessons, and the tedious learning of deportment, and carry them off to an enchanted palace, where all day long it would be nothing but leisure and pleasure and an infinitude of sweetmeats.

And one day, in a spirit of frolic, while they were outing at the seashore, one said to the other, "Let's have our fortune told." For an old gypsy hag had pitched her tent just at the entrance to the Strand.

"I see in your hand," beautiful lady," she crooned to the little Lady Peggy, "a prince and a beautiful musician, with a long golden mustache and golden hair and blue eyes, who will marry you in a few years."

"And my prince, what will he be like?" urged the little impatient Muriel.

"He will have acres and acres of land and a great big castle and retainers, and he will be a valiant soldier, and will come a-wooing you on a prancing white steed. And he will carry you away to a far-off country, where there are dark, endless forests. That is your fate, fair lady."

Curiously enough, as the Countess de Montsaulnin, an old friend of Muriel White, with a memory, has pointed out, the gypsy's prophecy has come true, for the lover of the American Ambassador's daughter is the heir to vast estates and is both a soldier and a horseman. Besides being Count Herrman Scherr-Thoss, of the Royal Prussian Cuirassiers, he is the eldest son of Count Scherr-Thoss, of Dobrau, in Prussian Silesia, hereditary peer of Prussia and a large landed proprietor, with "a great big castle."

The Prussian soldier was first attracted, and very naturally, by the fair face and hair of this dainty transplanted American, and then allured by her unusual charm of repose.

"Why I had been led to believe that all American fraulein were almost boisterous and unduly exhilarated, but she is actually demure. And," added the Count, as he was confiding his impressions to the Countess de Montsaulnin, "she is actually the most charming listener of all the girls I have ever talked to. She really inspires a man to bring out in his conversation the very best that is in him. Her engaging smile of interest would draw out the dullest man."

This rare characteristic of Miss White has been noticed in her always. It has been said of her that "a timid man has no fear of her, and a brilliant man makes his best mots just to see her face illumine with its smile." To have earned this tribute means, of course, that Miss White has tact—a priceless possession. And in the case of Miss Muriel it allured to her the man who soon afterward asked her to be his wife.

The family of the Count are very devout Catholics and ardent supporters of the Church in Silesia. The pope has already given a dispensation for the Count's marriage with a Protestant and the Kaiser his approval of the Count's selection of a foreigner. Miss White, on her part, agrees that the wedding ceremony shall be in perfect accord with the rites of the Catholic Church, and that all children shall be brought up in their fathers faith. And if any are born it will happen oddly enough that these noble little Catholics in far away Silesia will have flowing in their veins the blood of old Peter Stuyvesant, that stanch Dutch Protestant, New York's famous and testy last Dutch Governor, who died in the Bowery, and some of whose blood is still held in the family of Miss White's mother. She was Margaret Rutherford, of New York, and is a direct descendant of the pig-legged old Peter.

LOST HER LIFE AMONG THE LEPERS FOR THE MAN SHE LOVED

Their Hut Among the Lepers.

Pathetic Ending on the Dreary Rock of Molokai of an Extraordinary Romance of Renunciation Which Showed What a Woman Will Sacrifice for Love.

"NELLIE is dead."

These three simple words received only the other day from the lonely, dreary rock of Molokai in the Pacific where the lepers are, serve as the brief obituary of an American romance unparalleled perhaps in modern love stories. And a lonely grave somewhere among the Pacific Islands completes a record of a noble heart and marks the end to an act of supreme renunciation.

When in the late Summer of 1906 Miss Nellie Mandara White, a niece of ex-Secretary of the Navy and ex-Governor of Massachusetts John D. Long and an heiress to millions, married Dr. Walter R. Brinkerhoff, of Honolulu, to all intents society in the several cities was horrified to put it mildly. Not at her marriage with the daring young pathologist, mind you, but because, to live with and be with the man she loved she had decided to renounce all the comforts and luxuries which she had been brought up all her kindred all her friends all the more years of existence. He had determined in the enthusiasm of his calling to devote his life and his work to the cure if possible, if not, to the care of the lepers of Molokai. Rather than be separated from him, she had determined that her place was by his side. They saw that when her family bade her their farewells, it was like goodbye at a grave. Society declared

Those Shocking Hats

And How They Have Provoked the "400," Disturbed Ministers of the Gospel, Caused Death, and Even Made a Horse Eat One of Them.

A GIGANTIC FEATHER CREATION

A HUGE FLOWER-TRIMMED HAT.

Bringing Home an Easter "Peach Basket" Monstrosity.

"WELL, if that's really true, I'll EAT MY HAT!" exclaimed Mrs. John H. Hanan, as she reached up, pulled out the hat pins, brought her "peach-basket" chapeau within range of her lips and bit off a large pink pansy and ate it.

This was the most remarkable of all the remarkable events caused by those atrocities of millinery, the Easter hats of 1909.

Mrs. John H. Hanan is the wife and beautiful wife of a manufacturer of Brooklyn, New York. She was giving a tea at the Hotel Belmont an Easter tea. There were one hundred guests. The favors were exquisite Paris confections, sugar confections in a double sense, for they were miniature reproductions of those strange shapes and colorings for which women and the profligate of those women are paying fancy prices, Easter hats—in candy. The favors were the latest models in hats, but came from the confectioner.

The guests had gossiped and ate and eaten their way through the afternoon. In a quarter of an hour there would be the mix of departure among the guests. Each one was secretly wondering how she could carry home the odd favors. It would be the acme of rudeness to leave them behind. As they were too large to carry in their gold or silver chatelaines. There was, of course, no such instrument as a gown in a Directoire gown present. It would be undignified to go to their carriages twirling the strange objects from the gloved fingers. What should be done? Mrs. Hanan foresaw the dilemma of her guests. Somewhat like that other hostess of delightful presence of mind, who, when she saw a Western millionaire guest drink from his finger-bowl, did the same, she hastily made a wager with her neighbor. "Well, if that's really true," she insisted, "I'll eat my hat."

The reputed statement being proved true, Mrs. Hahan, to the astonishment of the guests about her, bit off and ate the pansy from her hat brim and did it. Then she drew a candied violet from a tuft that clustered above her pink right ear and daintily devoured that. Nothing loth, on nibbling at her chapeau, upon a lark, in a gale of soft-toned feminine laughter, the guests did the same, and ate the hats on the tables instead of the hats on their heads. They munched brown chocolate hats, pink and white peppermint hats and green pistache hats. And they left the Belmont with the Easter hats, as were the sweetmeats of the three little maids in the opera, tucked away in their little insides.

A peach basket hat is the cause of a

"On this beautiful Easter morn, let us resolve to have a wider vision."
SMALL VOICE—"Amen!"

"Then she drew a candied violet from a tuft that clustered above her pink right ear and daintily devoured that."

A Cherry Hat Just Like This the Horse Tried to Eat.

name of millinery. Others were at the point of rebellion against the arrogant edicts of men who had something to sell and believed that all women would buy if they were but told that these strange creations were the last out.

"But Mrs. Fish has said we wouldn't wear the hats" they said when the story passed from lip to lip. "We will show her that her word is not final. We will do as we like, or rather we will do as we do not like. Why should she assume dictatorship?"

One man was arrested for rudely staring beneath a strange woman's hat. He swore in court he was merely giving a timid glance beneath its brim to see whether its wearer was his wife.

One wee woman intoxicated with the vanity of the season and wearing her new fruit-laden Easter hat stood on the coping of a flat-roofed house, waved her hands to her playmates and fell into the yard beneath. She was crushed to death. Little Bertha Brown, aged eight, was a victim of a peach basket hat.

A great oculist has uttered his warning against the big hats overloaded with trimmings. "They are the gates to blindness," cried Dr. George A. Suker, of Chicago, to the Chicago Medical Society.

A hotel proprietor complains bitterly about them, calling them "convenient screens behind which woman hide." He says that women guests who wear these hats cannot be effectively "paged." The pages cannot recognize the familiar faces of the guests under the

screening hats, and women cruelly and wickedly permit the pages to shriek their names at their very elbows while they enjoy security under the disguising hats.

"It's an excellent way to hide from undesirable callers, but it demoralizes our system and doubles the work of our office force," complains the assistant manager of the Manhattan Hotel in New York.

Bob, the bay horse driven by Charles Hoff, of Bayonne, N. J., grew restive and his owner reined him up sharply. They were aboard the ferryboat Public Service, and a few of Bob's vigorous bounds would have hurled them into the waters of Kill von Kull, between Bergen Point and Staten Island.

But Bob continued restless. His owner stepped from the runabout and examined his roadsters hoofs. Inspected his harness. All seemed right so far as externals were concerned, yet Bob was plainly nervous. In a moment there were screams from the women. Bob, literally taking the bit between his teeth, and disdaining the cries of his master, left the middle of the ferryboat that is given over to horses and vehicles and determinedly invaded the sacred portion of the deck where women congregate. Dragging the runabout negligently behind him, he walked to where a pretty girl was leaning over the rail. He buried his twitching brown nose in the mass of fruit atop her peach basket hat. The young woman, screaming, ran to the cabin. Bob did not attempt to follow. From his teeth protruded two large painted cherries and a huge damson plum.

So perfect was the milliner's art that she had fooled one of the fastest and cleverest horses in New Jersey.

Three young women were arrested by an obtuse New York policeman who thought they were gray, when they were merely weeping because a bursting hose at a fire had ruined the purple tomatoes and pink oranges they wore on their wonderful hats.

"I meets them going along Thirteenth street cry in' and the water drippin' off their hats, and I thinks to myself they be a-low and runs them in,' said Patrolman O'Malley virtuously.

The young women are suing him for false arrest.

The peach basket hat caused a strike of forty pretty milliners in a wholesale hat establishment in Broadway in New York. Their eyes ached their heads ached rolling over the huge creations, and everywhere in the depths of crowning forests of apples and grapes and premature cherries they lost their tempers and couldn't find them. They were satisfied with the wages for making hats of civilized aspect, but not these monstrosities.

"We want twenty-five cents more a dozen for working on these peach-basket, five-story tenements, sir," demanded the leader.

The proprietor hesitated, and while he hesitated he lost forty pretty workers. "We'd rather starve than work on such inartistic objects," snifled the retreating forty.

The Fisheries and Game Committee of the New York Legislature considered a bill making it a penal offense to use any but barnyard plumage for the adornment of a hat.

It was a leader from Dutchess County who created the sentiment for the bill. A huge creation covered with a waving forest of bird of paradise feathers was one of the exhibits in a committee room, where the legislators were asked to look upon the havoc wrought by the greed and vanity of women.

"Did such pretty feathers grow on a bird?" he demanded.

"They did, sir," answered a quivering anti-hat sentimentalist and member of the Audubon Society. "They grew on the tail of a bird of paradise."

There's no bird except the yellow rooster that wakes me of mornings that ought to be treated like that," he said. "I'm for the bill."

But while the clamshells, coal scuttles, cabriolets and fruit baskets have moved orchitists and legislators, agitated the Four Hundred, caused a strike, a lawsuit and a death, they have given most concern to clergymen.

Bishop Morris, in Ohio, aroused to righteous indignation, said:

For a man of moderate means to pay $40, or $35, or just $19 for the plain hat without trimming is absolutely wicked-ness.

"It is outrageous, nothing less. Why one woman's Easter hat could buy an entire clerical outfit.

"They are aggravating, maddening. Ought not Christian women to show more consideration for their fellow worshippers? Is there not something like a proper courtesy and a decent regard for the opinions of others and their convenience and comfort which ought to influence our sisters in reference to this matter of complaint? Is not the present practice a genuine imposition not only upon good nature, but upon the rights and privileges of those who gather in the house of God?

"If women must don these Korean flapdoodles, let them remove them as soon as they are seated in church."

One minister of the gospel, Dr. S Parkes Cadman, pastor of the Central Congregational Church of Brooklyn, has wrestled in prayer over the evil.

"I have been praying that the Lord would change the fashion in women's hats," he said. "The two feet wide and the same high affairs are an abomination to God and man."

Courageously and feelingly Dr. Levi Gilbert wrote for the publication of which he is editor, an organ of the Methodist Church, The Western Christian Advocate, this editorial:

THE NUISANCE OF A BIG HAT.

"It quite frequently falls to our lot to sit in the pews with the congregation, and it is not at all conducive to a pious and peaceful frame of mind, such as one ought to have when trying to worship God, to sit behind rows of hats that spread themselves like green bay trees or circus tents. One feels like taking a shot at them with a hymn book and bumbling their lofty preciousness and pride in the dust.

What are our Christian women thinking of? Are they such devotees of fashion that they must needs haul these unaesthetic, hideous and outlandish constructions to church with them to make the devout groan and the undevout almost to swear? It's have enough to get people, especially men, to attend church regularly these days, and we don't want anything that will discourage their coming and make things more difficult for the minister.

"It is our solemn conviction that this, which looks like a trivial matter, amounts almost to an absolute moral offense and a sin."

The extreme of action has the Rev. Trimbull Lee, pastor of the First Presbyterian Church, of Wilkinsburg, Pa.: I have given notice that women, like men, must remove their hats during service. I have done this because man is a deist and I do not see the pulpit on account of the monstrous intervening hats."

The Rev. Alfred S. C. Dieffenbach, of the Reformed Church of Pittsburg, said: "I am convinced that the man sitting behind one of these creations called hats cannot concentrate his mind on God."

The Rev. R. M. Little, of a Pittsburg Presbyterian church, has righteous wrath stirred, said: "I have not only given orders against the wearing of hats in church, but I shall see that the order is enforced."

The Rev. John J. Hill, pastor of the New South Avenue Methodist Episcopal Church, has revised the women of his congregation: "If they may wear their absurd hats at home with but insists that they must off in the rear seats.

The Rev. Charles E. Jefferson, pastor of the Broadway Tabernacle, in New York, suggests that wearers of huge hats take side pews and sit in a line behind each other.

The Rev. James S. Braker, pastor of the First Baptist Church, of Lynn, Mass., suggests the same plan, also with biting sarcasm, that in view of the emergency, the pastor's study might be converted into a dressing room, if the sisters would furnish full length and hand mirrors, for aids in their adornment.

MR. ROOSEVELT'S GUIDES

First Photographs of the Native African Hunters Who Are Waiting for Mr. Roosevelt on the Edge of the Jungle, Ready, After Rehearsal, to Show Him the Big Game Country

By John J. Vernon
(of the Mombasa Party)

Mombasa, British East Africa
April 10, 1909

THERE is great excitement here over the coming of former President Roosevelt, who is due about April 30, if monsoons do not hold him up. For days the natives of all tribes have been flocking into the city, encamping at night outside. If there are to be believed, some of the most wonderful hunters in Africa are on hand, ready to pilot the illustrious hunter into the most marvelous scenic game corners of Africa.

As a matter of fact Mr. Roosevelt's active section of his party has already been chosen. They are assembled and ready to greet "Bwana Kubwa," the Great Master, as they are calling him at this minute. They comprise hunters, guides, game beaters, shikarees, gun bearers, carriers, cooks and experts in each particular line of big game the President wants to bag.

The head men and the hunters and gun bearers are of the Somali tribe, one of the bravest in Africa, and natural born sportsmen. The carriers and men of more menial occupations are of the Swahili tribe. The cream of the latter are four Askaris, who will form Mr. Roosevelt's private guard. The Askaris are the aristocrats of Africa. But they are brave men, too. The Somalis are rehearsing every night for the advent of "Bwana Kubwa," and if Mr. Roosevelt doesn't say "Bully" with all emphasis when he casts his eyes upon them it will be because he doesn't appreciate native works of art. The Somalis will greet him in all the paint and parapi, if he's most sacred war-bearing garment. And it might be said now that it will consist mostly paint. Combined with the paint will be some examples of feather head dress and ornament that the traveler never saw at even the most riotous White House function.

They will be very glad to see Mr. Roosevelt, will the Somalis, and the way they will indicate their joy will make anything he has ever seen or heard on the effete East look like what happens to an oil trust suit when it gets before the Supreme Court. Nespart, the headman of the tribe, has all the ceremonies in charge. His safari, or caravan, has just returned from escorting Sir Alfred Pease around the very territory the President will cover, and what they did there for Sir Alfred and how they did it will be exactly duplicated in this coming famous trip.

Mr. Roosevelt will go directly to Sir Alfred's home, not stopping long in Mombasa, but however short his stop, the Somalis will find time to greet him as never expected.

Indeed Mr. Roosevelt could have searched the whole continent over and not found a collection of natives as expert in what he desires them to do as these of Nespart. For one thing, Mr. Roosevelt desires to bring back for the Smithsonian Institution a couple of hippopotamus hides. Now the hippopotamus is one of the hardest animals to secure after it is killed or wounded in all the world. If it is wounded it sinks to the bottom of the river, and if it is killed it sinks a little faster. That is all the difference. It is manifestly no easy task to raise a couple of tons dead weight from a muddy bottom, especially when all about the quarry are all kinds of other beasties which like the taste of human flesh. Mr. Roosevelt's natives have a record of not a single one lost. Just how they go about it is their own secret, but somehow they manage to attach ropes under water to points of least resistance and scientifically and justly haul the carcass ashore. So, when the hunter bags his river horse, he needs give any further thought to it. These same Somalis saved a couple of hippopotami for Sir Alfred in a most amphibious fashion, retrieving the game from a river bottom that made the task well nigh impossible.

In the party are several adept crocodile hunters. The crocodile, shot in the water, and that is where it usually is killed, presents many of the same difficulties as the hippopotamus. The Somalis have a way of getting them ashore, however. Seolus, the famous lion hunter, is already here waiting. He will look after the lion end of the expedition. In the same way are men trained in the hunting of elephants and rhinoceros, all waiting for the "Bwana Kubwa." It is safe to say that no hunter ever went to Africa with bodies of men at his disposal who knew more of the region, their pitfalls and their game. At night these men will camp about his tent, ready for any emergency.

As we have the former President's route here, he will go on the Uganda Railroad some 250 miles inland. He will use the road as the centre of his field of operations, going as far north and south of it as he desires. He will work his way north in the general direction of Victoria Nyanza, and thence into the great plateau region of Uganda where he will find most of his big game. In this section he will strike the headwaters of the Nile, about Albert Nyanza, and then slowly follow northward to Khartoum in Egypt, where Mrs. Roosevelt will be waiting for him. Sometimes he will probably find himself in German territory, but that has all been provided for, and he will have the same license to shoot there as in the English territory.

In his lion hunt Mr. Roosevelt will ride a pony and will be able to use one of those hardy animals inured to the climate of the high plateaus the whole time he is in the East African protectorate. Winston Churchill and other big game hunters who have recently been in the country, assert that the lions are chased to death by the industrious natives, who ride them down and shoot them with the terrible .500 explosive cordite cartridges. The lion has been chased so far from palm to palm, it is declared, that he only appears at night to [illegible] the Masai round the camp fires [illegible] for scraps of meat, and [illegible] before dawn. While [illegible] that this is not [illegible] Mr. Roosevelt [illegible] hawser [illegible] and as [illegible] Sir Alfred's estate is at Kilima Theki, Kapiti Plains, straight out into the interior some hundred miles.

[illegible] some of the biggest [illegible] reported out. [illegible]

[illegible] back [illegible] Lion dances and Mr. Roosevelt will surely see some things he never [illegible]

"They say the President is a good shot. He needs to be when he goes after the rhinoceros. Killing one of these grim brutes all the neurotic excitement of engaging the enemy on the firing line at fifty paces distance.

"A member of this misshapen race is always game. It has more lives than a cat and it never hesitates a second about trying to run over you.

"When you go out to kill a rhinoceros you walk up to where he is feeding. Then you fire a bullet into him, trying to strike the brain or the heart.

"The first of these two organs is so small as to be found only after much trying and searching. The second is almost perfectly protected by layers of hard skin and tough meat.

"The only other [illegible] that the animal will go in straight lines. You aim to strike a [illegible] your bullet [illegible] to the other. The rhino keeps on and does [illegible] whatever is in his path. Then you take [illegible] strange parts is to render [illegible] tures still more bizarre [illegible] of action [illegible]

The heroic [illegible] seeing objects [illegible] shining [illegible] would be most [illegible] strange figure in any other [illegible] landscape.

So you load your traps upon one of the little vehicles, set forth, and when you have chosen the contrasts for your [illegible] bar you slip off and dive into the underbrush by the road while the car is moving. The animal is deceived by this simple manoeuvre into thinking that the source of probable danger [illegible]

You then creep up and shoot. If [illegible] goes well, you whistle for your [illegible] to bring back the car and collect [illegible] in triumph.

[illegible] all this you see Mr. Roosevelt [illegible] endeavor to see how [illegible] those painted Africans greet him.

When the Queen Gave "Cavac" to Lady Granard.

Then Everybody at the English Court Wondered If It Didn't Mean She Is Going to Be Ireland's Next Vicereine.

QUEEN ALEXANDRA of England has just shown her fondness for Lady Granard, who was the beautiful Beatrice Mills, of New York, by giving her quite one of the most unique of dogs—the white Scotch terrier found only in the West Highlands, and which are the Queen's latest fad.

And right away everybody wondered whether this mark of Alexandra's favor didn't mean that something more was to follow, and the Granard snub so far as the Irish peers of Ireland is concerned has boomed amazingly. You see, the Queen hasn't forgotten some of Queen Victoria's methods. That august lady made many gifts, but whenever one was particularly pleased with a person, his wife, or if it was a court lady herself, soon received from her an East Indian shawl. Then right after, down would come a post of honor of some sort to make up for it. If it had to be made up for a little, too, because those shawls were usually rather awful, and the task of looking up a present in them not a thing to be taken on lightly. Besides, the Queen had an unfortunate habit of wanting to see her gifts displayed at times prominently, and no one ever dared do otherwise.

Now, it happens that Queen Alexandra's dearest, most intimate fad is dogs. She started in with Russian wolfhounds, switched to Chinese spaniels, then to the stocky chows, and now the white Scotch terrier has the ascendancy. It is quite true that while Queen Alexandra hasn't the power to give away any office she wishes to, as her mother-in-law had, her influence over the King is enough to make her a potent factor in distributions. It is also [illegible] the King.

Now, as it is the Grand [illegible] become Viceroy of Ireland and as many fear in case over the desire [illegible] of the doggies agitated the court far more than the glee of the terrier would seem to warrant.

"Cavac" is the name of the little Scotchman now in the possession of Lady Granard. That means [illegible] in the castle, and that is just what the owner of the name is. He is exactly like his little black and brown brothers so far as hair in this country except as to color. He has the same coarse hair, droll, long body, impudent tail and bright eyes. But the white variety is rare even in Scotland, and to be found only in the West Highlands. They are loyal and gamey and wise. They and their darker haired brothers are said to be the only dogs in existence to-day that are exactly as they were in ancient times. When the Phoenicians were mining tin in Cornwall before Christ was born these little dogs were exactly as they are to-day. If one looks at them closely they will appear strange and primordial. When the Scots lived in caves these little dogs were the same. But it looks now as if they would be changed, for in the past ten years they have been shown at bench shows, and breeders are already trying to change their points.

Lady Granard takes her shaggy white Cavac with her wherever she goes. She is not particularly fond of dogs, as every one in New York and Newport society knows, but she desires to show her respect for the Queen's gift, and moreover, Cavac is so adorably fascinating that he has now her ladyship's heart.

Lady Granard, by the way, has become one of the political hostesses through whose entertainments party leaders seek to gain adherents and to add to their followers' loyalty by flattering them with invitations.

The Countess was guest of honor at a smart dinner party of forty covers given not long ago by her countrywoman, Lady Cavendish Bentinck. Ambassador Reid took in to dinner Lady Granard, his niece. Among the guests were Marquis de Soveral, the Portuguese Minister; King Edward's intimate friend, Count Mensdorff the Austrian Ambassador; the Duke and Duchess of Devonshire; Lord and Lady Desborough, Mr. and Mrs. Lewis V. Harcourt, the Dowager Countess of Dudley, and Mrs. Low Harriman, who is Mrs. Reid's guest at Dorchester House.

FROM A PAINTING BY RICHARD HALL

The Beautiful Lady Granard, Who Was Beatrice Mills, of New York, and May Be Ireland's Next Vicereine.

"Cavac," the Rare Terrier Queen Alexandra Gave to Lady Granard.

All the Little Cousins of "Cavac" Crept Close Under a Big Rock and Watched Him Go.

And This Is "Cavac's" Little Black Brother Wondering Why He Wasn't Good Enough for a Queen to Give a Lady.

Lady Granard wore a pale blue satin gown, with a tunic of silver cloth. Her jewels were a diamond tiara, a diamond necklace, and a long single rope of pearls.

She was much admired and very pretty, attired as during the annual [illegible] season of goods [illegible] the first time the sale was held in Devonshire House, a dingy mansion. As its reception rooms are furnished without taste and the windows are almost [illegible] the sale was not successful as its predecessors. Lady Granard had to stand the scrutiny of hundreds of persons, for all flocked to look at the latest "American millionairess" to marry into the peerage. She was indifferent to that ordeal. But the rooms were chilly as finding that few [illegible] cared to buy [illegible] parts of [illegible] hard bought clothes, [illegible] thing about [illegible] Devonshire House. [illegible] bad bought a fifteenth race [illegible] the park [illegible] where she goes to make [illegible] ance of her husband Irish tenantry. At the sale she wore a sapphire velvet gown, with a coat to match, and a sable toque with a chinchilla crown. A diamond watch chain was her only jewelry.

She gave a great political reception recently that caused even more talk. The vast majority of the guests were Liberals, as, but many Conservatives [illegible] too. Twenty-five hundred [illegible] it, try to escape it. They may refuse it with contempt, with indifference, with indignation but how often do they feel [illegible] connected with it? Nay, even when they accept they are not grateful. Pleased they may be—elated, gratified, filled with surprise—but the emotion of gratitude it is very last one that presents itself [illegible]

Why Are Girls So Ungrateful?

By a Man Who Knows.

WOMEN, it has often been demonstrated [illegible]

They will sacrifice fashionableness and all they hold dearest, for the sake of making other people happy. They will refuse to count the cost of time and pain of any one they love. They will give up [illegible] worth [illegible]

[illegible] they accept [illegible] are not grateful. [illegible] [illegible] [illegible]

FOXY GRANDPA AND LITTLE BROTHER

The Boys Try for a Good Joke on Foxy Grandpa and Little Brother, but the Young Mischiefs Overlooked the Transom

1. BOYS—Let's lock the door on Grandpa's hat and little brother's cap!

2. BOYS—Oh, here they come now! What a good laugh we will have when they are ready to go out!

3. GRANDPA—Why, baby, the door is locked, but I see your cap and my hat on the chair where we left them!

4. GRANDPA—I suspect the young mischiefs have been here, so, honey boy, you will have to go over the transom and get our things

5. GRANDPA—Now, hold them tight, little man, and Grandpa will soon pull you up through the transom!

6. GRANDPA—Hello, boys! Fine day for a little drive Won't you come along?

A T slight expense—less than a dollar perhaps—you can produce any desired finish on woodwork. You can make all woodwork and furniture harmonize.

There is no guesswork. The results you know before hand. Choose the shade of Johnson's Wood Dye you want. Apply it. It does not rub off.

Then apply Johnson's Prepared Wax, which gives a permanent, subdued, rich finish which will not show marks or scratches.

Do not confound Johnson's Wood Dye with the varnish stains which merely give a coating to the wood, hiding its natural beauty.

Johnson's Wood Dye and Johnson's Prepared Wax are for sale in convenient packages by high class paint dealers everywhere. In their use you benefit by our years of experience.

In Johnson's Wood Dye you have 14 shades to choose from:

No 126 Light Oak — No 130 Weathered Oak
No 123 Dark Oak — No 131 Brown Weathered Oak
No 125 Mission Oak — No 132 Green Weathered Oak
No 140 Manila Oak — No 121 Moss Green
No 110 Rag Oak — No 122 Forest Green
No 138 Light Mahogany — No 152 Flemish Oak
No 139 Dark Mahogany — No 178 Brown Flemish Oak

Half-pints, pints, quarts, half-gallons, gallons and five gallon cans. Prices 25c to $5.00. Sold by leading paint dealers.

Illustrated Book Free—Edition 43 4. Two sample Bottles Johnson's Wood Dye and One Sample Can Johnson's Prepared Wax—Free.

AMERICAN HOME MAGAZINE is in the highest sense a "Real Magazine for the American Home." It tells you exactly what you want to know when you want it. Just when the woman desires to know about the latest fashions AMERICAN HOME MAGAZINE promptly comes to tell her. Just when she is ready to take up some new fancy work this magazine offers her the latest patterns and ideas. Just when the man of the house becomes interested in some big, timely question of life, politics, or some new scientific discovery, AMERICAN HOME MAGAZINE brings to him an incisive, readable article by some one of the most eminent authorities in this particular field. Nothing is too good for the readers of this delightful publication. AMERICAN HOME MAGAZINE is clean, wholesome, amusing, informing, but above all delightfully readable. Each individual issue is worth more than the whole year's subscription price.

Among those represented in its pages are Ella Wheeler Wilcox, the most widely read of all writers for women; Arthur Brisbane, one of the highest paid editorial writers in the world, Alfred Henry Lewis, whose "Wolfville" tales are the sensation of the year; Maud Ballington Booth, of the Volunteers of America, John D. Rockefeller will write on "Opportunity in America"; Clara Morris, America's best-known actress writer; Mrs. General John A. Logan, and a host of other distinguished men and women. Their best and brightest words are helping to make AMERICAN HOME MAGAZINE the most extraordinary periodical value ever offered. The management, however, has determined to bring this high-class publication within the reach of every man and woman in this country. To this end it now makes the following strictly time-limited and

If you will wrap only one dime—10 cents—in a letter

and mail it, at our risk, to the address below to-day—at once—we will send you the magazine for one year—a remarkable introductory offer. Moreover, if at the end of three months you are not perfectly satisfied with the magazine we will cheerfully refund your dime, and you will have had then three months of the finest reading obtainable—absolutely free.

We make this wonderful offer because we know the enthusiastic, loyal support which AMERICAN HOME MAGAZINE inspires in every man and woman who sees it. We are positive once you know it that you will never be without it again; that you will show it, recommend it and give it to your friends.

This is the offer of a lifetime and may not appear again. Literary and art features that will enhance A WHOLE YEAR FOR ONLY 10 CENTS. Wrap up that dime now, write you have the address handy (and as many more as you wish for gift subscriptions for your friends) and send by the next mail to

BOX OFFICE

4
YOUR SEATS ARE HERE, LADIES PLEASE REMOVE YOUR HATS

5
TELL THE VILLIAN TO GO ON, QUICK. HIS CUE IS THE THUNDER
THUNDER

6
SHE IS NOT HERE, JUST MY LUCK, AND IT BEGINS TO RAIN, CURSES!

7
COME ON CISSY IT'S YOUR CUE

8
I FORGET MY LINES
SAY "HE IS HERE"
HEY- STOP THE RAIN

9
HE IS HERE
YOU BET I'M HERE. SO THERE'
HEY

10

11
STOP! THE NEXT ACT IS DIFFERENT
YOU ARE THE VILLIAN
ACT 1ST
PA DONT APPLAUD SO HARD

12
WELL THE AUDIENCE DIDN'T HAVE A DRY TIME
ANY WAY
THERE WAS N'T A DRY EYE IN THE HOUSE

RESOLVED

THE SHOW BUSINESS PROVES THAT SUPPLY WILL ALWAYS MEET DEMAND. WHEN THE PUBLIC DEMANDS DIFFERENT PLAYS, MANAGERS WILL PRODUCE THEM. WHEN PEOPLE DESIRE WHOLESOME PLAYS THAT WILL EDUCATE AND UPLIFT THEM, THEY WILL GET THAT KIND. THE DEAR PUBLIC HAS TO BE ENTERTAINED IT MUST BE AMUSED. AUTHORS, MANAGERS & ACTORS ARE DOING THEIR BEST AND ARE NOT BEING OVER PAID FOR THEIR TROUBLE AND THE RISK THEY TAKE. ANY PLAY THAT MAKES A HEARTY LAUGH IS A GOOD PLAY BECAUSE LAUGHTER IS ALL TOO SCARCE IN THIS WORLD. A GOOD LAUGH IS A TONIC, IT MAKES FOR HAPPINESS & HEALTH. IT IS AN INSULT TO OUR MAKER NOT TO BE HAPPY IN THIS FIRST CLASS, A 1. WORLD. NO PASSES, RESERVED SEATS EXTRA. HOWS THAT ?

R. F. Outcault
